All other adjustments reflect the premium value for certain amenities (garage, fireplace, deck, etc.). The subject's value is reconciled at the lower end of the adjusted sale prices.

Final Reconciliation of Market Rent:

I reconciled the subject's market value at the lower end of the adjusted sale price placing equal weight on all three comparables.

PURPOSE OF APPRAISAL: The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report based on a quantitative analysis of comparable sales in the subject's market area.
DEFINITION OF MARKET VALUE: The most probable sale price that a property should bring in a competitive and open market reflecting all conditions requisite to a fair sale, with the buyer and seller both acting prudently and knowledgeably, and assuming no undue influences

STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:
1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
3. The appraiser has noted in the appraisal report any adverse conditions (such as, but not limited to, needed repairs, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, expressed or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
4. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
5. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
6. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the report to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:
1. I performed this appraisal by (1) personally inspecting from the street the subject property and neighborhood and each of the comparable sales (unless I have otherwise indicated in this report that I also inspected the interior of the subject property); (2) collecting, confirming, and analyzing data from reliable public and/or private sources; and (3) reporting the results of my inspection and analysis in this summary appraisal report. I further certify that I have adequate information about the physical characteristics of the subject property and the comparable sales to develop this appraisal.
2. I have researched and analyzed the comparable sales and offerings/listings in the subject market area and have reported the comparable sales in this report that are the best available for the subject property. I further certify that adequate comparable market data exists in the general market area to develop a reliable sales comparison analysis for the subject property.
3. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware, have considered these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them, and have commented about the effect of the adverse conditions on the marketability of the subject property. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
4. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
5. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
6. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
7. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.

1756

8. I estimated the market value of the real property that is the subject of this report based on the sales comparison approach to value. I further certify that I considered the cost and income approaches to value, but, through mutual agreement with the client did not develop them, unless I have noted otherwise in the report.
9. I performed this appraisal as a limited appraisal, subject to the Departure Provision of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in the place as of the effective date of the appraisal (unless I have otherwise indicated in this report that the appraisal is a complete appraisal, in which case, the Departure Provision does not apply).
10. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value. The exposure time associated with the estimate of market value for the subject property is consistent with the marketing time noted in the Neighborhood section of this report. The marketing period concluded for the subject property at the estimated market value is also consistent with the marketing time noted in the Neighborhood section.
11. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. I further certify that no one provided significant professional assistance to me in the development of this appraisal.

SUPERVISORY APPRAISER'S CERTIFICATION: If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have examined the appraisal report for compliance with the Uniform Standards of Professional Appraisal Practice, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 5 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.

Re: County Law §215 Legislation - Marie Smith a/k/a Marie Ruller
Premises - 646 Belmore Avenue, Islip Terrace, New York

Dear Tom:

This firm represents one of your constituents, Marie Smith Ruller. The purpose of this letter is to seek your support in the proposal of legislation pursuant to §215 of the County Law. The request is based on Ms. Ruller's (1) personal hardship; and (2) the failure by Ms. Ruller's mortgage lender to pay real property taxes when Ms. Ruller remitted monies to pay said taxes as part of her mortgage modification, as more fully set forth below. The above-referenced property was owned by Ms. Ruller since February 1, 2000, and was sold to the County on September 10, 2013 for failure to pay real property taxes for the tax year 2008/2009.

Ms. Ruller became the owner of the Premises through a bequest from her mother, and she has been the record owner of the Premises since February 1, 2000. However, said Premises have been in Ms. Ruller's family since 1907, when her grandfather built the home. After Ms. Ruller's mother's death, and with her son's diagnosis and battle with a rare type of lymphoma, Ms. Ruller, at the time a single mother of two, struggled to make ends meet. As a waitress, it was very difficult for Ms. Ruller to, amongst other things, keep up with the carrying and repair costs of the Property, her son's medical expenses and support her two (2) children. Thus, in an attempt to keep her head above water, Ms. Ruller was forced to place a mortgage on the Premises, but became delinquent in her mortgage and real property tax payments in August 2007 when she was simply unable to meet all of her financial obligations, including her monthly mortgage, property tax obligations, as well as the rest Ms. Ruller's expenses.

1756

As a result of her inability to make ends meet, and her continued delinquency, Ms. Ruller recognized that the only way for her to hold on to the home that has been in her family for over 100 years, and which her grandfather built himself, was to enter into a mortgage modification program. Thus, in January 2013, Ms. Ruller entered into a mortgage modification program with a mortgage servicing company named Ocwen.

After having been retained by Ms. Ruller to assist in this matter, we contacted the mortgage servicing company, Ocwen, for information regarding the real property tax delinquency. During the telephone conversation we were advised that at the time Ocwen took the account over, there was an escrow shortage of $41,564.77, representing unpaid real property taxes and property insurance. Therefore, as part of the mortgage modification settlement, Ocwen escrowed funds to pay the outstanding property taxes and insurance in the amount of $48,772.83, ***as reflected in the Ocwen January 17, 2013 account statement***, enclosed herewith for your reference. During the telephone conversation with Ocwen, we were also advised that since the mortgage modification, Ocwen escrows an amount of $699.44 for the payment of real property taxes and insurance as part of Ms. Ruller's new monthly mortgage payment. Ocwen also acknowledged its responsibility for remitting said real property taxes and insurance premiums to the appropriate authorities.

The record shows that only the 2008/2009 real property taxes were outstanding in the amount of $5,504.79. Real property taxes for other years prior to the mortgage modification were brought current at the time of the modification, and taxes for subsequent years were timely paid out of the new monthly mortgage escrows. Accordingly, the only reasonable explanation for the failure to pay the outstanding 2008/2009 property taxes is Ocwen's negligence in failing to properly apply amounts escrowed at the inception of the modification program, in the amount of $48,772.83.

Given the mortgage modification, Ms. Ruller was under the understandable belief that "everything was taken care of as part of said modification." Since the modification, she has been making timely mortgage payments, and escrowing appropriate amounts for real property taxes and insurance. Thus, there was no reason for Ms. Ruller to believe that she was in jeopardy of losing her home, which she ultimately did as a result of her mortgage company's oversight. Ms. Ruller believed her struggles to save her family's home and pay her debts were finally behind her after the mortgage modification. She is no longer waitressing and has a full time job with benefits in the New York State Court System. Ms. Ruller is presently also married to a retired United States Marine. Ms. Ruller now has the funds to pay the 2008/2009 real property tax bill.

Accordingly, Ms. Ruller seeks your help in rectifying this horrible mistake on Ocwen's part that resulted in the detrimental loss of Ms. Ruller's home. In short, Ms. Ruller requests that you support her in putting forth County Law §215 legislation on her behalf, thus allowing her to satisfy the outstanding property taxes for the 2008/2009 tax year, and keep her family home.

1756

Please contact me at your earliest convenience to discuss this matter. We thank you in advance for your cooperation and assistance.

Very truly yours,

Guy W. Germano

Introduced by Legislators Schneiderman and Krupski

RESOLUTION NO. -2014, ADOPTING LOCAL LAW NO. -2014, A CHARTER LAW TO PROVIDE FOR FAIR AND EQUITABLE DISTRIBUTION OF PUBLIC SAFETY SALES AND COMPENSATING USE TAX REVENUES

WHEREAS, there was duly presented and introduced to this County Legislature at a regular meeting held on , 2014, a proposed local law entitled, "**A CHARTER LAW TO PROVIDE FOR FAIR AND EQUITABLE DISTRIBUTION OF PUBLIC SAFETY SALES AND COMPENSATING USE TAX REVENUES**;" and said local law in final form is the same as when presented and introduced; now, therefore be it

RESOLVED, that said local law be enacted in form as follows:

LOCAL LAW NO. -2014, SUFFOLK COUNTY, NEW YORK

A CHARTER LAW TO PROVIDE FOR FAIR AND EQUITABLE DISTRIBUTION OF PUBLIC SAFETY SALES AND COMPENSATING USE TAX REVENUES

BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF SUFFOLK, as follows:

Section 1. Legislative Intent.

This Legislature hereby finds and determines that the County of Suffolk is authorized to allocate between one-eighth and three-eighths of the revenue generated from the County's additional 1% sales and compensating use tax for public safety purposes.

This Legislature also finds that because sales taxes are collected from all over Suffolk County, sales tax revenue generated for public safety purposes should be allocated equitably between the Suffolk County Police District and those towns and villages that maintain their own police forces.

This Legislature determines that Local Law No. 18-1998 attempted to establish an equitable formula for distributing public safety sales tax revenues but, unfortunately, the formula was confusing and compliance with the law has been uneven, at best.

This Legislature also determines that it is necessary to update and clarify the County's formula for allocating public safety sales tax revenues.

This Legislature also determines that in order to assure adequate funding for public safety, at least one-quarter of the revenues generated by the County's additional 1% sales and compensating use tax should be dedicated to police services on an annual basis.

Therefore, the purpose of this law is to amend the Suffolk County Charter to require that at least one-quarter of the revenues generated by the County's additional 1% sales and compensating use tax be dedicated to police services and to establish a fair, population-

based formula that will ensure that public safety sales tax revenues are shared equitably between the Suffolk County Police District and the towns and villages lying outside the district.

Section 2. Amendments.

I. Section C4-6(J) of the SUFFOLK COUNTY CHARTER is hereby amended to read as follows:

* * * *

§ C4-6. Submission of proposed County budget by County Executive.

* * * *

J. The proposed expense budget for any fiscal year shall allocate, as authorized by §1262-j of NEW YORK TAX LAW, no less than one-fourth of the revenues generated by the County's additional 1% sales and compensating use tax to the Suffolk County Police District to support the operations of the Suffolk County Police Department and to make special payments to the following municipalities to support their police services: Towns of Riverhead, Southampton, Shelter Island, Southold and East Hampton and the Villages of Amityville, Ocean Beach, Saltaire, Head of Harbor, Nissequogue, Asharoken, Huntington Bay, Lloyd Harbor, Northport, Westhampton Beach, Quogue, Sag Harbor, Southampton, and East Hampton. The special payments shall be computed by multiplying the amount of sales tax revenue allocated to the Police District Fund by a fraction equal to the total population residing within the aforesaid municipalities divided by the total population of the County. This amount shall then be divided among the municipalities based upon the respective percentage that the population of each municipality bears to all others as determined by the most recent published federal census.

* * * *

II. Section C4-10 of the SUFFOLK COUNTY CODE is hereby amended to include a new subsection (k) to read as follows:

C4-10. Action by County Legislature on proposed budget.

* * * *

K. The adopted expense budget for any fiscal year shall allocate, as authorized by §1262-j of NEW YORK TAX LAW, no less than one-fourth of the revenues generated by the County's additional 1% sales and compensating use tax to the Suffolk County Police District to support the operations of the Suffolk County Police Department and to make special payments to the following municipalities to support their police services: Towns of Riverhead, Southampton, Shelter Island, Southold and East Hampton and the Villages of Amityville, Ocean Beach, Saltaire, Head of Harbor, Nissequogue, Asharoken, Huntington Bay, Lloyd Harbor, Northport, Westhampton Beach, Quogue, Sag Harbor, Southampton, and East Hampton. The special payments shall be computed by multiplying the amount of sales tax revenue allocated to the Police District Fund by a fraction equal to the total population residing within the aforesaid municipalities divided by the total population of the County. This amount shall then be divided among the municipalities based upon the respective percentage that the population of each

municipality bears to all others as determined by the most recent published federal census.

Section 3. Applicability.

This law shall apply to expense budgets proposed and adopted on or after the effective date of the law.

Section 4. Severability.

If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

Section 5. SEQRA Determination.

This Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this law constitutes a Type II action pursuant to Section 617.5(c)(20) of Title 6 of the NEW YORK CODE OF RULES AND REGULATIONS (6 NYCRR) and within the meaning of Section 8-0109(2) of the NEW YORK ENVIRONMENTAL CONSERVATION LAW as a promulgation of regulations, rules, policies, procedures, and legislative decisions in connection with continuing agency administration, management and information collection. The Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this law.

Section 6. Effective Date.

This law shall not take effect until at least sixty (60) days after its adoption, nor until approved by the affirmative vote of a majority of the qualified electors of the County of Suffolk voting on a proposition for its approval if within sixty (60) days after its adoption there is filed with the Clerk of the County Legislature a petition protesting against this law in conformity with the provisions of Section 34(4) of the NEW YORK MUNICIPAL HOME RULE LAW and upon filing in the Office of the Secretary of State.

This proposed law would amend and clarify the County's charter provisions relating to the allocation of public safety revenues generated by the County's additional 1% sales tax for public safety purposes.[1]

Specifically, this law would require:

1) that no less than one-fourth of the revenues generated by the County's additional 1% sales tax go to support the operations of the Suffolk County Police Department and to make special payments to the towns and villages outside the Police District to support their police services; and

2) that the towns and villages located outside the Suffolk County Police District receive a proportionate share of the public safety sales tax revenues, based on population.[2] The County Executive would be required to propose, and the Legislature would be required to adopt, an operating budget that provides for such payments.

This law is made subject to a permissive referendum and would apply to operating budgets proposed and adopted after the law takes effect.

GEORGE NOLAN
Counsel to the Legislature

---

[1] Section 1262-j of NEW YORK TAX LAW authorizes the County to use between one-eighth and three-eighths of the revenue generated by the additional 1% sales and compensating use tax for public safety purposes.

[2] The payments to towns and villages will be calculated by multiplying the amount of sales tax revenues allocated to the Police District by a fraction equal to the population residing within these municipalities divided by the total population of Suffolk County. This amount will then be divided among the towns and villages based upon their respective populations.

RE: Amending the 2014 Capital Budget and Program and Appropriating Funds in Connection with the Rehabilitation of Various Bridges and Embankments (CP 5850)

Attached is a draft resolution to appropriate the sum of $1,000,000 for construction in connection with the above referenced project. There are insufficient funds included in the 2014 Capital Budget and Program for this request and, as such, an offset must be provided. It is our intent to utilize funds from CP 5526 (Reconstruction of CR 48, Middle Road) – there are sufficient funds appropriated to complete the anticipated work this year.

Additional construction funds are required due to unforeseen deteriorated conditions on the Quantuck Creek Bridge, located in the Town of Southampton. These conditions were discovered during the rehabilitation of the bridge that is presently underway, and which would not have been discovered until the rust and paint removal process had begun. Severe deterioration of the main structural girders and bearing points presents a potential threat to the traveling public if not repaired.

The Suffolk County Council on Environmental Quality has reviewed these types of bridge rehabilitation projects and has determined that they constitute a Type II Action as well, as provisions of Title 6 NYCRR Part 617.5(c)(1), (2) and (27) involves the maintenance or repair of an existing structure and/or the replacement, rehabilitation or reconstruction in-kind, on the same site.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title "Reso-DPW-CP5850(Br Rehab Addntl Constr).doc".

RE: Amending the 2014 Capital Budget and Program and Appropriating Funds in Connection with the Reconstruction of Shinnecock Canal Locks, Town of Southampton (CP 5343)

Attached is a draft resolution to appropriate the sum of $600,000 for construction in connection with the above referenced project. There are no funds included in the 2014 Capital Budget and Program for this request and, as such, an offset must be provided. It is our intent to utilize funds from CP 5526 (Reconstruction of CR 48, Middle Road) – there are sufficient funds appropriated to complete the anticipated work this year.

Additional construction funds are required due to unforeseen deteriorated conditions at the Locks that were discovered during the reconstruction of the tide gates and bulkhead that is presently underway, which were not discovered until dewatering actions began. Severe deterioration of the of the hinges and concrete structure below the waterline presents a potential threat to the integrity of the locks, and could impede vessel travel if not repaired.

The Suffolk County Council on Environmental Quality has reviewed these types of projects and has determined that they constitute a Type II action and no further review is required. The Suffolk County Legislature concurred with this finding pursuant to Resolution 391-1993.

TITLE OF BILL: Amending the 2014 Capital Budget and Program and Appropriating Funds in Connection with Strengthening and Improving County Roads (CP 5014)

PURPOSE OR GENERAL IDEA OF BILL: This funding will provide for additional funding for the repair and/or resurfacing of roadways as well as related appurtenances such as drainage and curb at localized locations. This will improve both the surface and structural conditions of the road and significantly extend the life of various roadways. Preventive maintenance is necessary to provide safe highways and mitigate future costly reconstruction projects.

SUMMARY OF SPECIFIC PROVISIONS: revised estimates for construction for CP 5538 (CR13) has indicated that $1,000,000 is available for use as an offset for this request.

JUSTIFICATION: These funds enable Suffolk County Department of Public Works to issue work orders for preventive maintenance.

FISCAL IMPLICATIONS: Bonds will be issued to finance this project and principal and interest costs will be incurred over the life of the Bonds.

RE: Amending the 2014 Capital Program and Budget and Appropriating Funds in Connection with Strengthening and Improving County Roads (CP 5014)

Attached is a draft resolution appropriating the sum of $1,000,000 for construction services in connection with the above referenced project. There are insufficient funds included in the 2014 Capital Budget and Program for this project and, as such, an offset must be provided.

It is our intent to utilize the remaining funds from CP 5538 – Improvements to CR 13, Clinton Avenue/Fifth Avenue/Crooked Hill Road ($1,000,000) - a revised estimate for construction has indicated a reduced cost.

The harsh winter season of 2013/2014 inundated Long Island with rain, snow and ice, coupled with normal wear and tear, has caused extensive damage to the road system. Limited resources and non-highway responsibilities do not permit the Department of Public Works Highway Maintenance crew to keep pace with deterioration of the road system.

The services provided by this Capital Project includes excavation and replacement of existing deteriorated pavement, patching and other items of work required prior to the placement of new concrete or asphalt pavement, such as drainage, concrete curb and the installation of pavement markings consisting of thermoplastic striping and plowable all-weather reflective markers.

We will utilize this funding to supplement the $6,000,000 included in the 2014 Capital Program (adopted via Resolution 398-2014), to attempt to meet this year's goal to improve roadways on the attached list. ***It may be necessary to add and/or substitute other roads and/or revise limits of work due to seasonal limitations, changes in priorities or other requirements to be determined by this Department.***

The Suffolk County Council on Environmental Quality has reviewed projects of this nature under a previous version of the implementing rules and regulations of SEQRA and determined that the project constitutes a Type II action.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title "Reso-DPW-CP5014(S&I Addntl).doc".

Dear Mr. Flescher:

The New York State Office of Mental Health (OMH) is allocating $416,217 in Community Support Services funding (OMH funding code 014) in 2014 for Transformed Business Model (TBM) programs that are operated by the Maryhaven Center for Hope, Inc., and Skills Unlimited, Inc. These funds will provide for the mental health supports that are needed by adults with severe mental illness who were previously served in sheltered workshops as well as other individuals from the community so they can be successful in the work environment. The allocations were based on each agency's performance in the transition from sheltered workshop programs to TBM programs over the past 3 years.

These funds must be reported as Transformed Business Model (OMH program code 6140) on all OMH financial reports. The OMH approves the following allocations:

	Year	Amount
Maryhaven Center for Hope, Inc.	2014	$252,366
Skills Unlimited, Inc.	2014	163,851
Total:		$416,217

These funds are included in your County's 2014 base funding for Community Support Services programs. The funding is continuous and ongoing and subject to the OMH's annual legislative appropriation.

TITLE OF BILL - Appropriating Funds Through the Issuance of Sewer District Serial Bonds for the Improvements to Suffolk County Sewer District No. 11 – Selden (CP 8117)

PURPOSE OR GENERAL IDEA OF BILL – The sewer system that serves Sewer District No. 11 is aging and various areas require rehabilitation and/or replacement. The bill will provide appropriations to continue the project to its completion.

SUMMARY OF SPECIFIC PROVISONS – $1,000,000 is to be appropriated through the issuance of serial bonds. This fund is the last in a 3 year appropriations program providing the funding necessary to repair and rehabilitate the sewer system

JUSTIFICATION – Without repair and replacement, it is expected that portions of the sewer system could fail leading to health issues as well as additional cost due to emergency repair

FISCAL IMPLICATIONS – The overall project over 3 years amounted to $2.5 million dollars. The fiscal implications are minimal due to the use of Assessment Stabilization Reserve Funds to stabilize rates. Those rates increase by approximately $20 per year based on a 3% increase regardless of the project.

RE: Enforcement Vehicle

The Office of Health Education received approval for a budget modification to the ATUPA grant from New York State. We need to purchase a new car to replace an aging vehicle that was a replacement for one that could not be repaired. I request that you submit the resolution to purchase the car.

We would like to replace the 2004 Chevy Impala (Fleet #28179 with over 66,000 miles) and in very bad condition with a 2014 Chevy Impala.

This replacement vehicle will be used by the Tobacco Enforcement Unit to ensure that the nearly 1,800 merchants registered to sell tobacco products in Suffolk County are in compliance with regulations. In addition, complaints regarding violators of Clean Indoor Air laws and other tobacco control regulations will be inspected.

The Office employs minor children to aid inspections. Their safety is our utmost concern.

Thank you.

JUSTIFICATION: Currently a 2004 Chevy Impala in very bad condition is being used when not in need of repair. The Tobacco Enforcement Unit employs minor children to aid in inspections and their safety is a concern. This replacement vehicle will be more reliable and safe.

FISCAL IMPLICATIONS: None, these are 100% State Aid funds from NYS Department of Health adopted in the 2014 Operating Budget.

TITLE OF BILL:

AMENDING THE 2014 CAPITAL BUDGET AND PROGRAM AND APPROPRIATING FUNDS IN CONNECTION WITH THE PURCHASE OF CUSTOM FITTED BALLISTIC SOFT BODY ARMOR VESTS FOR THE SUFFOLK COUNTY AUXILIARY POLICE PROGRAM (CP 3517)

PURPOSE OR GENERAL IDEA OF BILL:

Provide Dept of FRES with sufficient funding to purchase ballistic body armor for the members of the Suffolk County Auxiliary Police Program.

SUMMARY OF SPECIFIC PROVISIONS:

Amend the 2014 Capital Program and Budget to utilize available funds from the Dept of Parks' CP7097 for the purchase of the body armor for the county's Auxiliary Police.

JUSTIFICATION:

The NYS Defense Emergency Act mandates the recruiting, training, equipping and maintenance of an Auxiliary Police force to augment the local police during emergencies and assisting the police by performing non-essential police functions, such as crowd and traffic control. The state mandate to maintain an Auxiliary Police Program is carried out by the Suffolk County Department of Fire, Rescue and Emergency Services in conjunction with the Suffolk County Police Department through a Memorandum of Understanding.

The Suffolk County Auxiliary Police put their lives at risk on a daily basis and ballistic body armor vests are critical safety gear needed to protect them from serious injury or death.

FISCAL IMPLICATIONS:

Initial costs for outfitting the current Auxiliary Police force will be covered by this resolution. Because vests lose their protective capability over time, there is a county mandated wear policy of 6 years. Therefore, the vests purchased with this funding will need to be replaced in 6 years.

The Dept of FRES will request funding in their Operating Budget to outfit new members that join the program annually.

SUBJECT: Request for Introductory Resolution: CP3517

Enclosed for further processing is an introductory resolution and supporting documents to amend funds in connection with the Custom Fitted Ballistic Soft Body Armor Vests for the Suffolk County Auxiliary Police Program pursuant to the 2014 Capital Program.

Whereas this department has identified a critical need to provide body armor vests for the members of the Suffolk County Auxiliary Police force and the Suffolk County Parks Dept has unspent funding in their capital project, this request is made to transfer funds to FRES for the purchase.

2014 INTERGOVERNMENTAL RELATIONS MEMORANDUM OF SUPPORT

Title Of Bill: Accepting and appropriating grant funds in the amount of $21,000 from the State of New York Office Of The Attorney General for a Community Overdose Prevention Program with 100% support.

PURPOSE OR GENERAL IDEA OF BILL: To accept funding which will support the purchase of Naloxone Kits to be used by Suffolk County Police Department Officers to save the lives of individuals who have overdosed on opioid type drugs.

SUMMARY OF SPECIFIC PROVISIONS: This legislation will allow the County to accept funding in the amount of $21,000 from the State of New York Office of the Attorney General for the purpose of purchasing Naloxone Kits which can be used to save lives in the event of an opioid overdose.

JUSTIFICATION: According to the State of New York Office of the Attorney General "Drug overdose deaths are the leading cause of accidental death in the United States for people aged 25-64, with more than 40 percent of those deaths attributed to opioid analgesics. Heroin overdose deaths nationwide increased 55 percent from 2000 to 2010." Because of these statistics the Office of the Attorney General has begun a program to supply law enforcement agencies throughout New York State with Naloxone Kits through the Community Overdose Prevention (COP) Program. The Suffolk County Police Department has been using Naloxone since 2012 to good effect. According to the Office of the Attorney General, "Naloxone is a proven lifesaver of people at risk of death from an opioid overdose, including heroin or prescription pain pills. Naloxone provides more time for emergency medical personnel to arrive at the scene and transport the victim to a hospital by temporarily reversing some of the most dangerous effects of an opioid overdose." During the time period of August 1, 2012, when the SCPD began using Naloxone, through April 2014, 187 doses of Naloxone were administered by SCPD Officers to suspected opiate overdoses and all 187 experienced positive outcomes. As Naloxone can mean the difference between life and death for an individual suffering from a drug overdose and as drug use is prevalent in Suffolk County it is important that our Officers have the means to protect the lives of those individuals who find themselves victims of an opioid overdose.

STATE OF NEW YORK

ATTORNEY GENERAL

EXECUTIVE OFFICE

June 18, 2014

Suffolk County Police Department
c/o Sarah Furey
30 Yaphank Avenue
Yaphank, NY 11980

Dear Sarah Furey,

Thank you for applying for funds from the New York Office of the Attorney General ("OAG") Community Overdose Prevention (COP) program. We are happy to inform you that the Suffolk County Police Department (NY0510100) has been approved to receive reimbursements under the COP program.

The OAG will reserve up to $21,000.00 until December 31, 2014. This figure includes $21,000.00 in funds for the reimbursement of 350 complete naloxone kits and for $0.00 costs associated with training. Regardless of how many complete naloxone kits your department ultimately purchases, the OAG will only reimburse up to the cost of 350 complete naloxone kits or $21,000.00, whichever is less.

You now can arrange for training and the purchase of the naloxone kits. A complete naloxone kit consists of: one (1) transportable sharps container (zip bag or pouch), two (2) vials of naloxone, two (2) mucosal atomization devices for nasal administration, one (1) pair of latex gloves, and one (1) booklet on the use of the drug. A full naloxone kit should cost no more than $60.00. Many NYSDOH registered Opioid Overdose Prevention Programs provide such trainings free of charge. A list of such programs can be found on the NYSDOH's website or at http:bit.ly/NYSKOOP.

Please remit receipts for reimbursement online at http://bit.ly/NYOAGCOP once you have secured training and purchased naloxone kits. If you do not remit receipts to the OAG by December 31, 2014, the funds may be given to other law enforcement agencies to purchase or replace naloxone kits on a first-come first-serve basis, unless you make arrangements with the OAG.

The OAG requires your agency to submit quarterly data to the OAG for as long as you are in possession of naloxone kits purchased through COP funds. The data can be submitted online at http://bit.ly/NYOAGCOP. Specifically, OAG requests your agency submit the following data to the OAG on the first day of July, October, January, and April.

- Number of Naloxone Kits Used:
  - For Training
  - Treating Overdose Victim(s)
  - Expired

1782

- Other
- Breakdown of Naloxone Used in Treating Overdose Victims:
  - Reversal(s)
  - Death(s)
  - Non-Opioid-Related Emergency(ies)
- Breakdown of Overdose Victims
  - Prescription opioid overdose(s)
  - Heroin overdose(s)
  - Unknown
  - Involving a minor (under 18)

Thank you for your commitment to fighting the destruction caused by prescription and illegal opioids in your community. Together, we can prevent unnecessary deaths resulting from opioid overdoses through this program. If you have any questions or comments about the OAG COP program, please call Lacey Keller at (212) 416-6324.

Sincerely,

Lacey R. Keller

Subject: *Request for Introductory Resolution for CP 8223 ~ Canine Kennel*

We are requesting that a resolution be drafted to extend the duration of Fund 8223.312 to December 31, 2017. The required Planning and Design costs for County Brownfield sites have been more than initially expected. As a result, additional Planning and Design funding was requested in the 2015 Capital Budget for the Canine Kennel site. Once that funding is in place, planning and remediation can be completed and fund 8223.312 will be required to remediate the site. Experience at this, and other sites, has demonstrated that the regulatory requirements, both leading up to and following remediation, are complex and time consuming, so it is requested that the construction funding be extended to allow time for the required actions to take place.

The referenced Suffolk County-owned property is contaminated with polychlorinated biphenyls (PCBs). The site must be remediated to the satisfaction of the NYSDEC and USEPA; therefore, we request that a resolution be prepared to extend funding for CP 8223.

Thank you.

Mr. Dennis Cohen

Dear Mr. Cohen:

Congratulations on your recent award. In establishing financial assistance programs, Congress linked the receipt of federal funding to compliance with federal civil rights laws. The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) is responsible for ensuring that recipients of financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) comply with the applicable federal civil rights laws. We at the OCR are available to help you and your organization meet the civil rights requirements that come with DOJ funding.

Ensuring Access to Federally Assisted Programs

Federal laws that apply to recipients of financial assistance from the DOJ prohibit discrimination on the basis of race, color, national origin, religion, sex, or disability in funded programs or activities, not only in employment but also in the delivery of services or benefits. A federal law also prohibits recipients from discriminating on the basis of age in the delivery of services or benefits.

In March of 2013, President Obama signed the Violence Against Women Reauthorization Act of 2013. The statute amends the Violence Against Women Act of 1994 (VAWA) by including a nondiscrimination grant condition that prohibits discrimination based on actual or perceived race, color, national origin, religion, sex, disability, sexual orientation, or gender identity. The new nondiscrimination grant condition applies to certain programs funded after October 1, 2013. The OCR and the OVW have developed answers to some frequently asked questions about this provision to assist recipients of VAWA funds to understand their obligations. The Frequently Asked Questions are available at http://ojp.gov/about/ocr/vawafaqs.htm.

Enforcing Civil Rights Laws

All recipients of federal financial assistance, regardless of the particular funding source, the amount of the grant award, or the number of employees in the workforce, are subject to prohibitions against unlawful discrimination. Accordingly, the OCR investigates recipients that are the subject of discrimination complaints from both individuals and groups. In addition, based on regulatory criteria, the OCR selects a number of recipients each year for compliance reviews, audits that require recipients to submit data showing that they are providing services equitably to all segments of their service population and that their employment practices meet equal opportunity standards.

1800

Providing Services to Limited English Proficiency (LEP) Individuals

In accordance with DOJ guidance pertaining to Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, recipients of federal financial assistance must take reasonable steps to provide meaningful access to their programs and activities for persons with limited English proficiency (LEP). See U.S. Department of Justice, Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons, 67 Fed. Reg. 41,455 (2002). For more information on the civil rights responsibilities that recipients have in providing language services to LEP individuals, please see the website http://www.lep.gov.

Ensuring Equal Treatment for Faith-Based Organizations

The DOJ regulation, Equal Treatment for Faith-Based Organizations, 28 C.F.R. pt. 38, requires State Administering Agencies (SAAs) to treat faith-based organizations the same as any other applicant or recipient. The regulation prohibits SAAs from making awards or grant administration decisions on the basis of an organization's religious character or affiliation, religious name, or the religious composition of its board of directors.

The regulation also prohibits faith-based organizations from using financial assistance from the DOJ to fund inherently (or explicitly) religious activities. While faith-based organizations can engage in non-funded inherently religious activities, they must hold them separately from the program funded by the DOJ, and recipients cannot compel beneficiaries to participate in them. The Equal Treatment Regulation also makes clear that organizations participating in programs funded by the DOJ are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion. For more information on the regulation, please see the OCR's website at http://www.ojp.usdoj.gov/about/ocr/equal_fbo.htm.

SAAs and faith-based organizations should also note that the Omnibus Crime Control and Safe Streets Act (Safe Streets Act) of 1968, as amended, 42 U.S.C. § 3789d(c); the Victims of Crime Act of 1984, as amended, 42 U.S.C. § 10604(e); the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, 42 U.S.C. § 5672(b); and VAWA, Pub. L. No. 113-4, sec. 3(b)(4), 127 Stat. 54, 61-62 (to be codified at 42 U.S.C. § 13925(b)(13)) contain prohibitions against discrimination on the basis of religion in employment. Despite these nondiscrimination provisions, the DOJ has concluded that it may construe the Religious Freedom Restoration Act (RFRA) on a case-by-case basis to permit some faith-based organizations to receive DOJ funds while taking into account religion when hiring staff, even if the statute that authorizes the funding program generally forbids recipients from considering religion in employment decisions.
Please consult with the OCR if you have any questions about the regulation or the application of RFRA to the statutes that prohibit discrimination in employment.

Using Arrest and Conviction Records in Making Employment Decisions

The OCR issued an advisory document for recipients on the proper use of arrest and conviction records in making hiring decisions. See Advisory for Recipients of Financial Assistance from the U.S. Department of Justice on the U.S. Equal Employment Opportunity Commission's Enforcement Guidance: Consideration of Arrest and Conviction Records in Employment Decisions Under Title VII of the Civil Rights Act of 1964 (June 2013), available at http://www.ojp.usdoj.gov//about/ocr/pdfs/UseofConviction_Advisory.pdf. Recipients should be mindful that the misuse of arrest or conviction records to screen either applicants for employment or employees for retention or promotion may have a disparate impact based on race or national origin, resulting in unlawful employment discrimination. In light of the Advisory, recipients should consult local counsel in reviewing their employment practices. If warranted, recipients should also incorporate an analysis of the use of arrest and conviction records in their Equal Employment Opportunity Plans (EEOPs) (see below).

Complying with the Safe Streets Act

An organization that is a recipient of financial assistance subject to the nondiscrimination provisions of the Safe Streets Act, must meet two obligations: (1) complying with the federal regulation pertaining to the development of an EEOP (see 28 C.F.R. pt. 42, subpt. E) and (2) submitting to the OCR findings of discrimination (see 28 C.F.R. §§ 42.204(c), .205(c)(5)).

1800

Meeting the EEOP Requirement

If your organization has less than fifty employees or receives an award of less than $25,000 or is a nonprofit organization, a medical institution, an educational institution, or an Indian tribe, then it is exempt from the EEOP requirement. To claim the exemption, your organization must complete and submit Section A of the Certification Form, which is available online at http://www.ojp.usdoj.gov/about/ocr/pdfs/cert.pdf.

If your organization is a government agency or private business and receives an award of $25,000 or more, but less than $500,000, and has fifty or more employees (counting both full- and part-time employees but excluding political appointees), then it has to prepare a Utilization Report (formerly called an EEOP Short Form), but it does not have to submit the report to the OCR for review. Instead, your organization has to maintain the Utilization Report on file and make it available for review on request. In addition, your organization has to complete Section B of the Certification Form and return it to the OCR. The Certification Form is available at http://www.ojp.usdoj.gov/about/ocr/pdfs/cert.pdf.

If your organization is a government agency or private business and has received an award for $500,000 or more and has fifty or more employees (counting both full- and part-time employees but excluding political appointees), then it has to prepare a Utilization Report (formerly called an EEOP Short Form) and submit it to the OCR for review within sixty days from the date of this letter. For assistance in developing a Utilization Report, please consult the OCR's website at http://www.ojp.usdoj.gov/about/ocr/eeop.htm. In addition, your organization has to complete Section C of the Certification Form and return it to the OCR. The Certification Form is available at http://www.ojp.usdoj.gov/about/ocr/pdfs/cert.pdf.

To comply with the EEOP requirements, you may request technical assistance from an EEOP specialist at the OCR by telephone at (202) 307-0690, by TTY at (202) 307-2027, or by e-mail at EEOsubmisson@usdoj.gov.

Meeting the Requirement to Submit Findings of Discrimination

If in the three years prior to the date of the grant award, your organization has received an adverse finding of discrimination based on race, color, national origin, religion, or sex, after a due-process hearing, from a state or federal court or from a state or federal administrative agency, your organization must send a copy of the finding to the OCR.

Ensuring the Compliance of Subrecipients

SAAs must have standard assurances to notify subrecipients of their civil rights obligations, written procedures to address discrimination complaints filed against subrecipients, methods to monitor subrecipients' compliance with civil rights requirements, and a program to train subrecipients on applicable civil rights laws. In addition, SAAs must submit to the OCR every three years written Methods of Administration (MOA) that summarize the policies and procedures that they have implemented to ensure the civil rights compliance of subrecipients. For more information on the MOA requirement, see http://www.ojp.usdoj.gov/funding/other_requirements.htm.

If the OCR can assist you in any way in fulfilling your organization's civil rights responsibilities as a recipient of federal financial assistance, please contact us.

Sincerely,

Michael L. Alston

The recipient agrees to provide to BJA and OCFO all documentation necessary to complete monitoring tasks, including documentation related to any subawards made under this award. Further, the recipient agrees to abide by reasonable deadlines set by BJA and OCFO for providing the requested documents. Failure to cooperate with BJA's/OCFO's grant monitoring activities may result in sanctions affecting the recipient's DOJ awards, including, but not limited to: withholdings and/or other restrictions on the recipient's access to grant funds; referral to the Office of the Inspector General for audit review; designation of the recipient as a DOJ High Risk grantee; or termination of an award(s).

SPECIAL CONDITIONS

16. The recipient agrees to comply with applicable requirements to report first-tier subawards of $25,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients of award funds. Such data will be submitted to the FFATA Subaward Reporting System (FSRS). The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the Office of Justice Programs web site at http://www.ojp.gov/funding/ffata.htm (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here. This condition, and its reporting requirement, does not apply to grant awards made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

17. The recipient agrees that all income generated as a direct result of this award shall be deemed program income. All program income earned must be accounted for and used for the purposes of funds provided under this award, including such use being consistent with the conditions of the award, the effective edition of the OJP Financial Guide and, as applicable, either (1) 28 C.F.R. Part 66 or (2) 28 C.F.R Part 70 and 2 C.F.R. Part 215 (OMB Circular A-110). Further, the use of program income must be reported on the quarterly Federal Financial Report, SF 425.

18. To avoid duplicating existing networks or IT systems in any initiatives funded by BJA for law enforcement information sharing systems which involve interstate connectivity between jurisdictions, such systems shall employ, to the extent possible, existing networks as the communication backbone to achieve interstate connectivity, unless the grantee can demonstrate to the satisfaction of BJA that this requirement would not be cost effective or would impair the functionality of an existing or proposed IT system.

19. In order to promote information sharing and enable interoperability among disparate systems across the justice and public safety community, OJP requires the grantee to comply with DOJ's Global Justice Information Sharing Initiative (DOJ's Global) guidelines and recommendations for this particular grant. Grantee shall conform to the Global Standards Package (GSP) and all constituent elements, where applicable, as described at: http://www.it.ojp.gov/gsp_grantcondition. Grantee shall document planned approaches to information sharing and describe compliance to the GSP and appropriate privacy policy that protects shared information, or provide detailed justification for why an alternative approach is recommended.

20. The recipient is required to establish a trust fund account. (The trust fund may or may not be an interest-bearing account.) The fund, including any interest, may not be used to pay debts or expenses incurred by other activities beyond the scope of the Edward Byrne Memorial Justice Assistance Grant Program (JAG). The recipient also agrees to obligate the grant funds in the trust fund (including any interest earned) during the period of the grant and expend within 90 days thereafter. Any unobligated or unexpended funds, including interest earned, must be returned to the Office of Justice Programs at the time of closeout.

SPECIAL CONDITIONS

21. The grantee agrees to assist BJA in complying with the National Environmental Policy Act (NEPA), the National Historic Preservation Act, and other related federal environmental impact analyses requirements in the use of these grant funds, either directly by the grantee or by a subgrantee. Accordingly, the grantee agrees to first determine if any of the following activities will be funded by the grant, prior to obligating funds for any of these purposes. If it is determined that any of the following activities will be funded by the grant, the grantee agrees to contact BJA.

    The grantee understands that this special condition applies to its following new activities whether or not they are being specifically funded with these grant funds. That is, as long as the activity is being conducted by the grantee, a subgrantee, or any third party and the activity needs to be undertaken in order to use these grant funds, this special condition must first be met. The activities covered by this special condition are:
    a. New construction;
    b. Minor renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;
    c. A renovation, lease, or any proposed use of a building or facility that will either (a) result in a change in its basic prior use or (b) significantly change its size;
    d. Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or education environments; and
    e. Implementation of a program relating to clandestine methamphetamine laboratory operations, including the identification, seizure, or closure of clandestine methamphetamine laboratories.

    The grantee understands and agrees that complying with NEPA may require the preparation of an Environmental Assessment and/or an Environmental Impact Statement, as directed by BJA. The grantee further understands and agrees to the requirements for implementation of a Mitigation Plan, as detailed at http://www.ojp.usdoj.gov/BJA/resource/nepa.html, for programs relating to methamphetamine laboratory operations.

    Application of This Special Condition to Grantee's Existing Programs or Activities: For any of the grantee's or its subgrantees' existing programs or activities that will be funded by these grant funds, the grantee, upon specific request from BJA, agrees to cooperate with BJA in any preparation by BJA of a national or program environmental assessment of that funded program or activity.

22. JAG funds may be used to purchase vests for an agency, but they may not be used as the 50% match for purposes of the Bulletproof Vest Partnership (BVP) program.

23. The recipient agrees to submit a signed certification that that all law enforcement agencies receiving vests purchased with JAG funds have a written "mandatory wear" policy in effect. Fiscal agents and state agencies must keep signed certifications on file for any subrecipients planning to utilize JAG funds for ballistic-resistant and stab-resistant body armor purchases. This policy must be in place for at least all uniformed officers before any JAG funding can be used by the agency for body armor. There are no requirements regarding the nature of the policy other than it being a mandatory wear policy for all uniformed officers while on duty.

24. Ballistic-resistant and stab-resistant body armor purchased with JAG funds may be purchased at any threat level, make or model, from any distributor or manufacturer, as long as the vests have been tested and found to comply with applicable National Institute of Justice ballistic or stab standards and are listed on the NIJ Compliant Body Armor Model List (http://nij.gov). In addition, ballistic-resistant and stab-resistant body armor purchased must be American-made. The latest NIJ standard information can be found here: http://www.nij.gov/topics/technology/body-armor/safety-initiative.htm.

SPECIAL CONDITIONS

25. The recipient agrees that any information technology system funded or supported by OJP funds will comply with 28 C.F.R. Part 23, Criminal Intelligence Systems Operating Policies, if OJP determines this regulation to be applicable. Should OJP determine 28 C.F.R. Part 23 to be applicable, OJP may, at its discretion, perform audits of the system, as per the regulation. Should any violation of 28 C.F.R. Part 23 occur, the recipient may be fined as per 42 U.S.C. 3789g(c)-(d). Recipient may not satisfy such a fine with federal funds.

26. The recipient agrees to ensure that the State Information Technology Point of Contact receives written notification regarding any information technology project funded by this grant during the obligation and expenditure period. This is to facilitate communication among local and state governmental entities regarding various information technology projects being conducted with these grant funds. In addition, the recipient agrees to maintain an administrative file documenting the meeting of this requirement. For a list of State Information Technology Points of Contact, go to http://www.it.ojp.gov/default.aspx?area=policyAndPractice&page=1046.

27. The grantee agrees to comply with the applicable requirements of 28 C.F.R. Part 38, the Department of Justice regulation governing "Equal Treatment for Faith Based Organizations" (the "Equal Treatment Regulation"). The Equal Treatment Regulation provides in part that Department of Justice grant awards of direct funding may not be used to fund any inherently religious activities, such as worship, religious instruction, or proselytization. Recipients of direct grants may still engage in inherently religious activities, but such activities must be separate in time or place from the Department of Justice funded program, and participation in such activities by individuals receiving services from the grantee or a sub-grantee must be voluntary. The Equal Treatment Regulation also makes clear that organizations participating in programs directly funded by the Department of Justice are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion. Notwithstanding any other special condition of this award, faith-based organizations may, in some circumstances, consider religion as a basis for employment. See http://www.ojp.gov/about/ocr/equal_fbo.htm.

28. The recipient acknowledges that all programs funded through subawards, whether at the state or local levels, must conform to the grant program requirements as stated in BJA program guidance.

29. Grantee agrees to comply with the requirements of 28 C.F.R. Part 46 and all Office of Justice Programs policies and procedures regarding the protection of human research subjects, including obtainment of Institutional Review Board approval, if appropriate, and subject informed consent.

30. Grantee agrees to comply with all confidentiality requirements of 42 U.S.C. section 3789g and 28 C.F.R. Part 22 that are applicable to collection, use, and revelation of data or information. Grantee further agrees, as a condition of grant approval, to submit a Privacy Certificate that is in accord with requirements of 28 C.F.R. Part 22 and, in particular, section 22.23.

31. The recipient agrees to monitor subawards under this JAG award in accordance with all applicable statutes, regulations, OMB circulars, and guidelines, including the OJP Financial Guide, and to include the applicable conditions of this award in any subaward. The recipient is responsible for oversight of subrecipient spending and monitoring of specific outcomes and benefits attributable to use of JAG funds by subrecipients. The recipient agrees to submit, upon request, documentation of its policies and procedures for monitoring of subawards under this award.

32. The recipient agrees that funds received under this award will not be used to supplant State or local funds, but will be used to increase the amounts of such funds that would, in the absence of Federal funds, be made available for law enforcement activities.

SPECIAL CONDITIONS

33. Award recipients must submit quarterly a Federal Financial Report (SF-425) and annual performance reports through GMS (https://grants.ojp.usdoj.gov). Consistent with the Department's responsibilities under the Government Performance and Results Act (GPRA), P.L. 103-62, applicants who receive funding under this solicitation must provide data that measure the results of their work. Therefore, quarterly performance metrics reports must be submitted through BJA's Performance Measurement Tool (PMT) website (www.bjaperformancetools.org). For more detailed information on reporting and other JAG requirements, refer to the JAG reporting requirements webpage. Failure to submit required JAG reports by established deadlines may result in the freezing of grant funds and future High Risk designation.

34. Award recipients must verify Point of Contact(POC), Financial Point of Contact (FPOC), and Authorized Representative contact information in GMS, including telephone number and e-mail address. If any information is incorrect or has changed, a Grant Adjustment Notice (GAN) must be submitted via the Grants Management System (GMS) to document changes.

35. The grantee agrees that within 120 days of award acceptance, each current member of a law enforcement task force funded with these funds who is a task force commander, agency executive, task force officer, or other task force member of equivalent rank, will complete required online (internet-based) task force training. Additionally, all future task force members are required to complete this training once during the life of this award, or once every four years if multiple awards include this requirement. The training is provided free of charge online through BJA's Center for Task Force Integrity and Leadership (www.ctfli.org). This training addresses task force effectiveness as well as other key issues including privacy and civil liberties/rights, task force performance measurement, personnel selection, and task force oversight and accountability. When BJA funding supports a task force, a task force personnel roster should be compiled and maintained, along with course completion certificates, by the grant recipient. Additional information is available regarding this required training and access methods via BJA's web site and the Center for Task Force Integrity and Leadership (www.ctfli.org).

36. No JAG funds may be expended on the purchase of unmanned aircraft, unmanned aircraft systems or unmanned aerial vehicles (UA/UAS/UAV), unless the BJA Director certifies that extraordinary and exigent circumstances exist, making them essential to the maintenance of public safety and good order. Any state or local jurisdiction receiving BJA approval to utilize JAG funds for this type of purchase must certify to DOJ that it received Federal Aviation Administration (FAA) approval to operate a UA/UAS/UAV and that it is legal to operate a UA/UAS/UAV in the proposed jurisdiction or geographic area. The recipient must submit a statement on the goals and objectives for the use of a UA/UAS/UAV, the anticipated specific uses, and policy regarding privacy considerations. BJA may require additional reporting requirements that will be stipulated post award.

37. BJA strongly encourages the recipient to submit annual (or more frequent) JAG success stories. To submit a success story, sign in to your My BJA account at https://www.bja.gov/Login.aspx to access the Success Story Submission form. If you do not yet have a My BJA account, please register at https://www.bja.gov/profile.aspx. Once you register, one of the available areas on your My BJA page will be "My Success Stories". Within this box, you will see an option to add a Success Story. Once reviewed and approved by BJA, all success stories will appear on the new BJA Success Story web page at https://www.bja.gov/SuccessStoryList.aspx.

38. Approval of this award does not indicate approval of any consultant rate in excess of $650 per day. A detailed justification must be submitted to and approved by the Office of Justice Programs (OJP) program office prior to obligation or expenditure of such funds.

39. Recipient may not obligate, expend, or drawdown funds until the Bureau of Justice Assistance, Office of Justice Programs has reviewed and approved the Budget Narrative portion of the application and has issued a Grant Adjustment Notice (GAN) informing the recipient of the approval.

SPECIAL CONDITIONS

40. Recipient may not expend or drawdown funds until the Bureau of Justice Assistance (BJA) has received documentation demonstrating that the state or local governing body review requirements have been met and a Grant Adjustment Notice (GAN) has been approved releasing this special condition.

41. All procurement (contract) transactions under this award must be conducted in a manner that is consistent with applicable Federal and State law, and with Federal procurement standards specified in regulations governing Federal awards to non-Federal entities. Procurement (contract) transactions should be competitively awarded unless circumstances preclude competition. Noncompetitive (e.g., sole source) procurements by the award recipient in excess of the Simplified Acquisition Threshold (currently $150,000) set out in the Federal Acquisition Regulation must receive prior approval from the awarding agency, and must otherwise comply with rules governing such procurements found in the current edition of the OJP Financial Guide.

Subject: Incorporates NEPA Compliance in Further Developmental Stages for Suffolk County

The Edward Byrne Memorial Justice Assistance Grant Program (JAG) allows states and local governments to support a broad range of activities to prevent and control crime and to improve the criminal justice system, some of which could have environmental impacts. All recipients of JAG funding must assist BJA in complying with NEPA and other related federal environmental impact analyses requirements in the use of grant funds, whether the funds are used directly by the grantee or by a subgrantee or third party. Accordingly, prior to obligating funds for any of the specified activities, the grantee must first determine if any of the specified activities will be funded by the grant.

The specified activities requiring environmental analysis are:
a. New construction;
b. Any renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;
c. A renovation, lease, or any proposed use of a building or facility that will either (a) result in a change in its basic prior use or (b) significantly change its size;
d. Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or education environments; and
e. Implementation of a program relating to clandestine methamphetamine laboratory operations, including the identification, seizure, or closure of clandestine methamphetamine laboratories.

Complying with NEPA may require the preparation of an Environmental Assessment and/or an Environmental Impact Statement, as directed by BJA. Further, for programs relating to methamphetamine laboratory operations, the preparation of a detailed Mitigation Plan will be required. For more information about Mitigation Plan requirements, please see http://www.ojp.usdoj.gov/BJA/resource/nepa.html. Please be sure to carefully review the grant conditions on your award document, as it may contain more specific information about environmental compliance.

WHEREAS, the Suffolk County Sewer Agency is recommending an increase and improvement to the facilities at Suffolk County Sewer District No. 9 – College Park, namely, process improvements; and

WHEREAS, pursuant to New York County Law Section 268, the Suffolk County Sewer Agency has prepared maps and plans pertaining to these proposed increases and improvements to the facilities of Suffolk County Sewer District No. 9 – College Park and has also prepared an estimate of the costs of such increases and improvements and has filed these documents, along with its recommendations and reports of its proceedings, with the Legislature of the County of Suffolk; and

WHEREAS, public hearings were held on the improvements and increases to the facilities at Suffolk County Sewer District No. 9 – College Park during 2006 (Suffolk County Resolution No. 440-2006), 2009 (Suffolk County Resolution No. 670-2009), and 2013 (Suffolk County Resolution No. 480-2013); and

WHEREAS, additional funds are needed to complete the improvements and increases to the facilities at Suffolk County Sewer District No. 9 – College Park; and

WHEREAS, it appears that these increases and improvements are necessary for the proper maintenance and service of Suffolk County Sewer District No. 9 – College Park; and

WHEREAS, pursuant to New York County Law Section 254 and 268, the Legislature of the County of Suffolk desires to call a public hearing upon such proposed increases and improvements to the facilities at Suffolk County Sewer District No. 9 – College Park; now, therefore be it

1st **RESOLVED**, by the Legislature of the County of Suffolk, New York, as follows:

Section 1. A meeting of the Legislature of the County of Suffolk New York shall be held at the County Center in the meeting room of the County Legislature in Hauppauge, New York, in said County, on the 18th day November 2014, at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing on the aforesaid matter and for such other action on the part of said County Legislature as may be required by law or proper in premises.

Section 2. The Clerk of said County Legislature is hereby authorized and directed to cause a notice of said public hearing to be published once in each of the official newspapers of said County, and such other newspaper as the Legislature may designate, if any, said publication to be made in each of such newspapers not less than ten, nor more than twenty days before the day set herein for said public hearing. Such notice shall be in the following form, to wit

NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the Legislature of the County of Suffolk, New York will meet at the County Legislature in Hauppauge, New York, in said County, on November 18, 2014 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 9 – College Park, in and about the Town of Brookhaven, substantially in accordance with the amended maps, plans, report and recommendations prepared by the Suffolk County Sewer Agency, with the assistance of the Suffolk County Department of Public Works, and filed with the Legislature of the County of Suffolk, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

Project Description

The increase and improvement to Suffolk County Sewer District No. 9 – College Park of the process improvement project includes construction of effluent filtration system in a building, installation of aeration blowers, and installation of equipment and systems as well as recharge facility enhancement. The project is more fully described and defined in the aforementioned maps, plans, report and recommendations. All property and property owners within said District are benefited by these increases and improvements to the facilities.

Notice of Cost

The total estimated cost for the increases and improvements to Suffolk County Sewer District No. 9 – College Park is $1.85 million and will be financed utilizing a combination of sewer district serial bonds and Suffolk County assessment stabilization reserve funds (ASRF). It is proposed that the project will be implemented during 2015 and 2016 and that $1,250,000 in sewer district serial bonds will be appropriated by 2014 with the first interest payment in 2015 and the maximum payment year being 2016 at a total cost of $107,250 including increases in operation and maintenance.

There will be no fiscal impact to the benefited properties, since pursuant to the ASRF, all property owners in Suffolk County sewer districts experience a 3% annual increase regardless of any increases or improvements performed. In the case of Suffolk County Sewer District No. 9, the annual ASRF increase will result in an increase of approximately $15.25 to the typical property within the District, regardless of the increase or improvement to facilities. Therefore, there is no fiscal impact caused to the benefited properties in the District as a result of the increase and improvement.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

Section 3. This resolution shall take effect immediately.

2nd **RESOLVED**, that this Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this law constitutes a Type II action pursuant to Section 617.5(c)(20), (21), and/or (27) of Title 6 of the NEW YORK CODE OF RULES AND REGULATIONS (6 NYCRR) and within the meaning of Section 8-0109(2) of the NEW YORK ENVIRONMENTAL CONSERVATION LAW as a promulgation of regulations, rules, policies, procedures, and legislative decisions in connection with continuing agency administration, management and information collection. The Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this law.

Attached is a draft resolution, SCIN Form 175a and 175b, and backup for the referenced capital project filed as Reso DPW CP 8163 – SD 9 – College Park Hearing 8-5-14 and backup filed as Backup DPW CP 8163 – SD 9 – College Park Hearing 8-5-14. The resolution calls for a public hearing to provide funds for the improvements of the wastewater treatment facility. Funds requested total $1.85 million, being a mix of sewer district bonds and ASRF funds. Existing appropriations are insufficient and, therefore, a modification to previous hearings is necessary. The funding required will pierce the State Comptroller's cap of $7 per typical property, however with stabilization of rates, only a notification of the State Comptroller is needed. We appreciate the draft resolution being laid on the table as soon as possible such that the findings and appropriations can be adopted in 2014.

Intro. Res. No. 1805-2014 Laid on Table 9/9/2014
Introduced by Presiding Officer, on request of the County Executive

RESOLUTION NO. -2014, CALLING FOR A PUBLIC HEARING FOR THE PURPOSE OF CONSIDERING PROPOSED INCREASES AND IMPROVEMENTS OF FACILITIES FOR SEWER DISTRICT NO. 5 – STRATHMORE HUNTINGTON (CP 8115)

WHEREAS, by proceedings heretofore duly had and taken pursuant to Article 5-A of the New York County Law, the Legislature of the County of Suffolk, New York has established a County sewer district designated and known as Suffolk County Sewer District No. 5 – Strathmore Huntington; and

WHEREAS, the Suffolk County Sewer Agency is recommending an increase and improvement to Suffolk County Sewer District No. 5 – Strathmore Huntington, namely, for site evaluation and rehabilitation; and

WHEREAS, pursuant to New York County Law Section 268, the Suffolk County Sewer Agency has prepared maps and plans pertaining to these proposed increases and improvements for Suffolk County Sewer District No. 5 – Strathmore Huntington and has also prepared an estimate of the costs of such increases and improvements and has filed these documents, along with its recommendations and reports of its proceedings, with the Legislature of the County of Suffolk; and

WHEREAS, it appears that these increases and improvements are necessary for the proper maintenance and service of Suffolk County Sewer District No. 5 – Strathmore Huntington; and

WHEREAS, pursuant to New York County Law Section 254 and 268, the Legislature of the County of Suffolk desires to call a public hearing upon such proposed increases and improvements for Suffolk County Sewer District No. 5 – Strathmore Huntington; now, therefore, be it

1st **RESOLVED**, by the Legislature of the County of Suffolk, New York, as follows

Section 1. A meeting of the Legislature of the County of Suffolk, New York shall be held at the County Center in the meeting room of the County Legislature in Hauppauge, New York, in said County, on the 18th day of November 2014, at 2:30, Prevailing Time, for the purpose of conducting a public hearing on the aforesaid matter and for such other action on the part of said County Legislature as may be required by law or proper in premises.

Section 2. The Clerk of said County Legislature is hereby authorized and directed to cause a notice of said public hearing to be published once in each of the official newspapers of said County, and such other newspaper as the Legislature may designate, if any, said publication to be made in each of such newspapers not less than ten, nor more than twenty days before the day set herein for said public hearing. Such notice shall be in the following form, to wit

NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the Legislature of the County of Suffolk, New York will meet at the County Center in Hauppauge, New York, in said County, on November 18, 2014 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 5 – Strathmore Huntington, in and about the Town of Huntington, substantially in accordance with the map, plan, report and recommendations prepared by the Suffolk County Sewer Agency, with the assistance of the Suffolk County Department of Public Works, and filed with the Legislature of the County of Suffolk, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

Project Description

The increase and improvement to Suffolk County Sewer District No. 5 – Strathmore Huntington includes site evaluation and rehabilitation of an abandoned lagoon that is on the site. The project is more fully described and defined in the aforementioned maps, plans, report and recommendations. All property and property owners within said District are benefited by the increase and improvement.

Notice of Cost

The estimated total cost for the increases and improvements to Suffolk County Sewer District No. 5 – Strathmore Huntington is $500,000 and will be financed utilizing the Suffolk County assessment stabilization reserve funds (ASRF). It is proposed that the project will be implemented during 2015 and 2016 and that the ASRF funds will be appropriated by 2014.

There will be no fiscal impact to the benefited properties, since pursuant to the ASRF, all property owners in Suffolk County sewer districts experience a 3% annual increase regardless of any increases or improvements performed. In the case of Suffolk County Sewer District No. 5, the annual ASRF increase will result in an increase of approximately $26 to the typical property within the District, regardless of the increase or improvement. Therefore, there is no fiscal impact caused to the benefited properties in the District as a result of the increase and improvement.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

Section 3. This resolution shall take effect immediately.

2nd **RESOLVED**, that this Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this law constitutes a Type II action pursuant to Section 617.5(c)(20), (21), and/or (27) of Title 6 of the NEW YORK CODE OF RULES AND REGULATIONS (6 NYCRR) and within the meaning of Section 8-0109(2) of the NEW YORK ENVIRONMENTAL CONSERVATION LAW as a promulgation of regulations, rules, policies, procedures, and legislative decisions in connection with continuing agency administration, management and information collection. The Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this law.

Intro. Res. No. 1809-2014 Laid on Table 9/9/2014
Introduced by Presiding Officer, on request of the County Executive

RESOLUTION NO. -2014, CALLING A PUBLIC HEARING FOR THE PURPOSE OF MODIFYING THE PLAN OF SERVICE FOR SUFFOLK COUNTY SEWER DISTRICT NO. 18 – HAUPPAUGE INDUSTRIAL (CP 8126)

WHEREAS, by proceedings heretofore duly had and taken pursuant to Article 5-A of the County Law, the County Legislature of the County of Suffolk, New York has established a County sewer district designated and known as Suffolk County Sewer District No. 18 – Hauppauge Industrial; and

WHEREAS, Suffolk County Resolution Nos. 1010-2005, 378-2008, and 1019-2012 found and determined that is was in the public interest to increase and improve the facilities of Sewer District No. 18 – Hauppauge Industrial and to extend the boundaries of said district; and

WHEREAS, the New York State Comptroller had made an order dated August 6, 2008 granting permission for the extension which was adopted by the County in Suffolk County Resolution No. 262-2011; and

WHEREAS, additional funds are necessary to complete the work necessary for finishing the construction of sewerage facilities at Suffolk County Sewer District No. 18 – Hauppauge Industrial; and

WHEREAS, an amended Map and Plan addressing the updated costs of the construction of sewerage facilities at Suffolk County Sewer District No. 18 – Hauppauge Industrial has been prepared and filed with the County Legislature pursuant to New York County Law Section 253-b; and

WHEREAS, it is now desired to call a public hearing on the amended Map and Plan pursuant to Sections 253-b and 254 of the New York County Law; now therefore, be it

1st **RESOLVED**, by the County Legislature of the County of Suffolk, New York, as follows

Section 1. A meeting of the Legislature of the County of Suffolk New York shall be held at the County Center in the meeting room of the County Legislature in Hauppauge, New York, in said County, on the 18th day of November 2014, at 2:30 p.m., Prevailing Time, for the purpose of conducting a public hearing on the aforesaid matter and for such other action on the part of said County Legislature as may be required by law or proper in premises.

Section 2. The Clerk of said County Legislature is hereby authorized and directed to cause a notice of said public hearing to be published once in each of the official newspapers of said County, and such other newspaper as the Legislature may designate, if any, said publication to be made in each of such newspapers not less than ten, nor more than twenty days before the day set herein for said public hearing. Such notice shall be in the following form, to wit:

NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the Legislature of the County of Suffolk New York will meet at the County Center in Hauppauge, New York in said County, on 18th day of November 2014 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for an amendment to 2005 Map and Plan for the increases and improvements to the facilities of Suffolk County Sewer District No. 18 – Hauppauge Industrial; in and about the Town of Smithtown, substantially in accordance with the amended maps, plans, report and recommendations prepared by the Suffolk County Sewer Agency, with the assistance of the Suffolk County Department of Public Works, and filed with the Legislature of the County of Suffolk, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

Pursuant to Suffolk County Resolution Nos. 1010-2005, 378-2008, and 1019-2012 found and determined that is was in the public interest to increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and to extend the boundaries of said district. This work has been initiated and has progressed with the wastewater treatment facility construction completed and small portions of sewer work underway while the majority of the sewer installation in the near future. However, additional funds are needed to complete all work. The public hearing is being held to address a proposed cost amendment to 2005 Map and Plan for the increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and to extend the boundaries of said district.

Notice of Cost

The cost of the increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and the extension of the boundaries of such district has risen from an estimated cost of $65 million in 2005 to an estimated cost of $82.7 million as set forth in the amended Map and Plan.

There will be no fiscal impact to the benefited properties within Suffolk County Sewer District No. 18 – Hauppauge Industrial, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund (ASRF), all property owners in Suffolk County sewer districts experience a 3% annual increase regardless of any increases or improvements performed. In the case of Suffolk County Sewer District No. 18, the annual ASRF increase will result in an increase to approximately $15.91 per 1,000 gallons to the typical property within the District, regardless of additional funds necessary to complete the increase and improvement and extension of boundaries. Therefore, there is no fiscal impact caused to the benefited properties in the District as a result of the amendment of the 2005 Map and Plan to reflect an increase in the cost to the increases, improvements, and extension of boundaries of the District.

Copies of the map, engineering report, the public hearing report and the project summaries are available in the Hauppauge Industrial Association's office at 225 Wireless Blvd., the Office of the Department of Public Works, located in Yaphank and the Office of the Clerk of the County Legislature where they can be reviewed during normal business hours Monday through Friday. We encourage all interested parties to appear. Any questions should be forwarded to Ben Wright at 631-852-4184 at the Suffolk County Department of Public Works.

Section 3. This resolution shall take effect immediately.

2nd **RESOLVED**, that this Legislature, being the State Environmental Quality Review Act (SEQRA) Lead Agency, hereby finds and determines that this resolution constitutes a Type II Action pursuant to Title 6 NYCRR Part 617.5(c)(20) and (27) as the proposal involves the adoption of regulations, policies, procedures and local legislative decisions in connections with routine or continuing agency administration and management.

SUBJECT: **CALLING A PUBLIC HEARING FOR THE PURPOSE OF MODIFYING THE PLAN OF SERVICE FOR SUFFOLK COUNTY SEWER DISTRICT NO. 18 – HAUPPAUGE INDUSTRIAL (CP 8126)**

DATE: August 21, 2014

Attached is a draft resolution, SCIN Form 175a and 175b, and backup for the referenced capital project filed as Reso DPW CP 8126 – SD 18 – Hauppauge Industrial (Improvements and Expansion) Hearing 8-21-14 and backup filed as Backup DPW CP 8126 – SD 18 – Hauppauge Industrial (Improvements and Expansion) Hearing 8-21-14. The resolution calls for a public hearing to provide funds for the improvements and expansion of the wastewater treatment facility and district. The wastewater treatment plant project has construction nearly complete and sewers and pumping stations require additional funds in 2014. Funds requested in accordance with the 2014 Capital Budget of $2,000,000, using serial bonds, pierce the State Comptroller's cap of $7 per typical property, thus an application is needed. It is noted that prior hearings and applications have taken place and the Map and Plan has been amended and submitted to the Legislature.

We appreciate the draft resolution being laid on the table as soon as possible such that the findings and appropriations can be adopted in 2014.

Director of Real Estate

Date: August 29, 2014

Subject: CERTIFICATE OF NECESSITY REQUESTED FOR SEPTEMBER 9TH LEGISLATIVE MEETING – AUTHORIZING THE SALE, PURSUANT TO LOCAL LAW NO. 16-1976, OF REAL PROPERTY ACQUIRED UNDER SECTION 46 OF THE SUFFOLK COUNTY TAX ACT
JONATHAN COHEN AND ALICIA GARRIES-COHEN, HIS WIFE (SCTM NO. 0200-316.00-05.00-006.000)

The Division of Real Property Acquisition and Management is asking for a Certificate of Necessity for the attached resolution at the September 9th Legislative Meeting. Expedited approval of this Local Law 16 redemption is requested because the prior owners, who are redeeming, have found a buyer for the property and have supplied our office with an executed Contract of Sale. The sale proceeds will be utilized to redeem the property. The purchaser, however, is insisting that it close in September. Accordingly, this Certificate of Necessity is required. Your favorable consideration of this request is appreciated.

BIOGRAPHY ... After graduating from St. John's high school in 1962, Fred began working for Tick & Company, Inc. a downtown insurance brokerage firm. He attended evening college at Pace University. While at Tick & Company, Inc. his understanding of the brokerage business and people skills exceeded his years of experience and salary. Despite Fred's success, his youth made it difficult for him to obtain the salary he desired. A recruiter suggested that if he became an insurance recruiter, he could earn the income he warranted. Fred took his advice, joined Michael Craig Personnel, Inc. and became their top producer within his first year of employment. Three years later, he founded Gorman Insurance Personnel Consultants, Inc., a human resources company dedicated to the placement of insurance professionals. Over the next Forty plus years Fred developed numerous professional friendships based on loyalty, integrity, and effectiveness. His unique understanding of the brokerage business and the people who work within it, has led to unmatched success in the recruiting of brokerage executives and acquisition of businesses.

Fred is married to Alexandria (Sandy) Gorman and they have been blessed with five children and six grandchildren. Sandy and Fred have resided in Smithtown for over thirty years.

RESOLUTION NO. -2014, CREATING A TAXPAYER PROTECTION AND NOTIFICATION PROGRAM

WHEREAS, the Suffolk County Treasurer is charged, among other things, with the responsibility of collecting tax payments from the ten towns in Suffolk County, said payments originating from banks and other financial institutions as well as directly from property owners in Suffolk County; and

WHEREAS, the Suffolk County Treasurer is also responsible for the collection of delinquent property taxes, interest and penalties from property owners throughout Suffolk County; and

WHEREAS, the Suffolk County Tax Act dictates that property tax payments are due on January 10 of each year, but allows for the payment of said taxes in two installments, one by January 10 and the second generally by May 31; and

WHEREAS, delinquent property taxes are assessed a 5% penalty as well as interest charges accruing and accumulating at a rate of 1% per month beginning in February regardless of whether it is the first installment or second installment that is late; and

WHEREAS, this schedule of charges, codified in the Suffolk County Tax Act, can lead to onerous charges assessed primarily on taxpayers who pay their taxes directly and who mistakenly miss the due date of either the first or second installment of taxes; and

WHEREAS, in many cases property owners who pay their own taxes directly are on a fixed income and are often burdened with age-related medical issues of their own or of a spouse, partner or other loved one; and

WHEREAS, this Legislature finds and determines that often times property owners pay their taxes on time for many years, but due to extraordinary circumstances, are susceptible to missing a payment; and

WHEREAS, this Legislature further determines that a taxpayer notification system could go a long way toward protecting taxpayers who have every intention of paying their property taxes on time, but who would benefit from an additional reminder of an upcoming due date for the payment of taxes; and

WHEREAS, this Legislature finds and determines that it is within the County Treasurer's scope of authority to establish an electronic mail notification alert system in which property owners could voluntarily enroll and receive e-mail notifications from the Treasurer in advance of both the January 10 and May 31 due dates; and

WHEREAS, such a system would be a courtesy extended to property tax owners who choose to enroll and would not create any binding obligation on the part of the County to ensure that notifications are sent or received; now, therefore be it

1st **RESOLVED**, that the Suffolk County Treasurer is hereby authorized, empowered and directed to create an electronic mail directory of property tax owners who indicate, through e-mail or other web-based communication as determined by the Treasurer, that they wish to receive e-mail notices in advance of the January 10 and May 31 property tax payment due dates; and be it further

2nd **RESOLVED**, that the Suffolk County Treasurer shall work in conjunction with other County, Town and Village agencies to facilitate public awareness of this Taxpayer Protection and Notification Program; and be it further

3rd **RESOLVED**, that the office of Suffolk County Treasurer shall arrange for such e-mail notices to be sent no later than two weeks prior to the due dates for both the first and second installments of property tax payments; and be it further

4th **RESOLVED**, that any failure by the Treasurer to send the electronic notification called for herein or of the property owner to receive such notification, shall in no way excuse or limit the property owner's obligation to pay his or her property taxes in a timely manner nor waive or limit the property owner's obligation to pay the penalties and interest for any late payment of taxes or impair or limit the County's rights and remedies under the Suffolk County Tax Act or any other law to enforce the payment of taxes; and be it further

5th **RESOLVED**, that this Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this resolution constitutes a Type II action pursuant to Section 617.5(c)(20), (21) and (27) of Title 6 of the NEW YORK CODE OF RULES AND REGULATIONS (6 NYCRR) and within the meaning of Section 8-0109(2) of the NEW YORK ENVIRONMENTAL CONSERVATION LAW as a promulgation of regulations, rules, policies, procedures, and legislative decisions in connection with continuing agency administration, management and information collection, and the Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this resolution.

2014 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

DEPARTMENT OF INFORMATION TECHNOLOGY

1821

TITLE OF BILL: **CP 1814 – SUFFOLK COUNTY TELEPHONY STRUCTURAL IMPROVEMENTS**

PURPOSE OR GENERAL IDEA OF BILL:
The County currently is using Centrex telephone service that is provided by Verizon. Centrex service allows the County to utilize features of a PBX phone system without the need to purchase the hardware that goes with it. All County lines are able to communicate with each other by dialing a 5 digit number to reach another employee regardless of where they are located in the County. We are presently paying $ 12.44 per line and we have approximately 15,000 lines. The service has been offered by Verizon for about 40 years and we run the risk of not having the service supported if Verizon decides that it wants to abolish the service for a newer technology.
The Suffolk County Department of Information Technology (DoIT) would like implement a Voice over Internet Protocol (VoIP) telephone system at various locations throughout the County to lessen our dependence on Centrex and to utilize our existing Data network infrastructure to handle voice services at a minimal cost. Other possible VoIP solutions could include a VoIP Private Branch Exchange (PBX), a hosted solution by a network provider, or other products that we may not be aware are available. DoIT would like to hire a telecommunications consultant is help us review the county's voice network and recommend to us what product or solution would provide the most benefit to the county.

SUMMARY OF SPECIFIC PROVISIONS:
FIRST PHASE, would be to hire a consultant through the Request for Proposal process to review the county's voice network and recommend to us what product or solution would provide the most benefit to the county.
SECOND PHASE, is for DoIT personnel to review findings of the consultant and formulate a plan to roll out and install the final design of the new voice network. Based on these findings, we will develop an RFP to solicit bids from Telecommunication service providers.
THIRD PHASE, would be to have the selected vendor from the RFP process to begin installation of the new voice network design over a three year period. DoIT will determine how the installation will be rolled out based on the departments that will benefit the most from the upgrade.

JUSTIFICATION:
The Suffolk County Department of Social Services has 6 locations where they utilize a Call Center environment to sort incoming calls based on the services needed by the constituent that is placing the call. The calls currently remain in the DSS center that the constituent calls into. A VoIP environment would allow the caller to access their case information through data mining. This will lessen the need for a constituent to talk to a DSS employee to get that information. The DSS employee will then be available to address the needs of constituents that are in need of personal assistance depending on their circumstance. Wait times for incoming callers should dramatically decrease by utilizing this technology. Automatic updates that departments need to send to constituents can be handled in-house rather than using a service at a cost to the County. These updates include Health Center appointment scheduling and verification and the notification of county employees in the event of an emergency.
The installation of a VoIP system would eliminate the need for several thousand Centrex lines. The economic impact of the removal of these lines will be determined during the consultants review of our voice network.
Our current Verizon Centrex contact will be expiring in May 2015. There is a risk that the technology will not be supported after the current contract expiration date. We are trying to be proactive in the event that Centrex will no longer be supported and we will be prepared to move on with the latest technology going forward.

FISCAL IMPLICATIONS:
Appropriation of funding $200,000

SUBJECT: Capital Project # 1814 – SUFFOLK COUNTY TELEPHONY STRUCTURAL IMPROVEMENTS

We are forwarding a draft resolution requesting appropriation of $ 200,000 for the year 2014. The resolution amount represents the monies that will be provided by CP-1814 for Capital Project # 1814. An email version of the resolution was sent to CE RESO saved under the title "Reso-ITS-CP1814-VOIP."

Program Description: The County currently is using Centrex telephone service that is provided by Verizon. Centrex service allows the County to utilize features of a PBX phone system without the need to purchase the hardware that goes with it. All County lines are able to communicate with each other by dialing a 5 digit number to reach another employee regardless of where they are located in the County. The service has been offered by Verizon for about 40 years and we run the risk of not having the service supported if Verizon decides that it wants to abolish the service for a newer technology.

The Suffolk County Department of Information Technology (DoIT) would like implement a Voice over Internet Protocol (VoIP) telephone system at various locations throughout the County to lessen our dependence on Centrex and to utilize our existing Data network infrastructure to handle voice services at a minimal cost. Other possible VoIP solutions could include a VoIP Private Branch Exchange (PBX), a hosted solution by a network provider, or other products that we may not be aware are available. DoIT would like to hire a telecommunications consultant is help us review the county's voice network and recommend to us what product or solution would provide the most benefit to the county.

Operating Budget Impact: The installation of a VoIP system would eliminate the need for several thousand Centrex lines. The economic impact of the removal of these lines will be determined during the consultant's review of our voice network. We feel that in the long run, this request will have a positive operating budget impact as it will upgrade the county voice network allowing us to manage and administer our telephone system without having to use Verizon services.

2014 INTERGOVERNMENTAL RELATIONS MEMORANDUM OF SUPPORT

TITLE OF BILL: Approving the purchase of vehicles and appropriating funds in connection with the purchase of Heavy Duty Equipment for County Parks (CP 7011).

PURPOSE OR GENERAL IDEA OF BILL: To approve the purchase of vehicles by the Parks Department and appropriate the funds adopted in the 2014 Capital Budget for the equipment.

SUMMARY OF SPECIFIC PROVISIONS: This resolution appropriates the funds adopted in the 2014 Capital Budget in connection with the purchase of Heavy Duty Equipment for County Parks (CP 7011).

JUSTIFICATION: This resolution will allow the Department to purchase needed heavy equipment, which is often costly and difficult to maintain as it approaches the end of its useful life. Equipment purchased under this project is specialized in nature and allows the Department to complete projects more cost-effectively with County staff, rather than utilize outside contractors who are more expensive.

FISCAL IMPLICATIONS: Serial Bonds will be issued to finance this project. Principal and interest costs will be incurred by the County over the life of the bonds.

The Parks Department is responsible for maintaining, managing and securing over 46,000 acres of land, 95 park facilities and over 200 historic structures. These responsibilities are constantly being expanded as the County continues to acquire additional park acreage. The Department's equipment needs to be more efficient with fewer employees.

Title of Resolution: 2014 AMENDING THE ADOPTED 2014 OPERATING BUDGET TO TRANSFER FUNDS FROM FUND 477 WATER QUALITY PROTECTION, AMENDING THE 2013 CAPITAL BUDGET AND PROGRAM, AND APPROPRIATING FUNDS IN CONNECTION WITH TOWN OF BABYLON HIGHWAY YARD MS4 UPGRADES AND STORMWATER POLLUTION PREVENTION

PURPOSE OR GENERAL IDEA OF BILL:

To transfer funds from Water Quality Fund 477 to a Capital Projects budget line for use by the Town of Babylon to conduct MS4 upgrades and stormwater pollution prevention at the Town of Babylon highway yard.

SUMMARY OF SPECIFIC PROVISIONS:

Currently, drainage from the 12.82 acre Town of Babylon highway yard discharges into ground water resources and the Town Hall Pond within the Satapogue Creek watershed and the South Shore Estuary Reserve. This project will remediate drainage into ground and surface water by implementing Green Infrastructure Practices (GIP)s in accordance with the New York State Stormwater Design Manual.

JUSTIFICATION:

The funding for this stormwater pollution prevention project was recommended at the December 12, 2013 meeting of the WQPRP Review Committee. It was deemed by the Committee to be a prudent and beneficial use of the ¼% sales tax water quality funds. Implementing stormwater improvements and pollution prevention projects is necessary to protect the ground and surface water quality in Suffolk County.

FISCAL IMPLICATIONS

None to the General Fund. All funding will come from the existing ¼% sales tax generated fund for water quality projects.

RESOLUTION NO. -2014, REDUCING PIPELINE DEBT BY AUTHORIZING THE COUNTY COMPTROLLER AND COUNTY TREASURER TO CLOSE CERTAIN CAPITAL PROJECTS AND TRANSFER FUNDS

WHEREAS, the Presiding Officer was authorized via Capital Omnibus Resolution No. 424-2014 to create a task force to review pipeline debt in order to better align the size of the capital program with the County's ability to pay; the task force is known as the Capital Project Debt Reduction Committee; and

WHEREAS, the County Departments have reviewed their capital projects and have determined that certain capital projects have been completed and/or should be closed; and

WHEREAS, the Capital Project Debt Reduction Committee reviewed the projects submitted plus additional ongoing capital projects for further review and/or closure; and

WHEREAS, the attached "Addendum 1" hereby made part of this resolution specifies the capital projects and associated point numbers to be closed and contains information required under Resolution No. 303-2010; and

WHEREAS, the closing of these projects will reduce the County's outstanding bond authorization, reduce the number of projects required to be monitored and tracked for financial purposes, and generate revenue to offset debt service costs; and

WHEREAS, the Capital Project Debt Reduction Committee has agreed it is in the best interest of the County of Suffolk to close these selected capital projects listed on "Addendum 1"; and

WHEREAS, the available uncommitted balances have been verified; now, therefore be it

1st **RESOLVED**, that the County Comptroller and County Treasurer be and hereby are authorized to close the capital projects listed on "Addendum 1" and credit the appropriate revenue accounts no later than December 31, 2014; and be it further

2nd **RESOLVED,** as required by Resolution No. 303-2010, the attached "Addendum 1" reflects a sufficiently detailed justification for capital project(s) with uncommitted balances in excess of 15% of the total amount appropriated and an estimated cash balance associated with each project to be closed and total cash balance by fund for projects to be closed; and be it further

3rd **RESOLVED,** as required by Resolution No. 303-2010, the total pipeline debt reduction in bond authorization is estimated to be $80,262,100; and be it further

4th **RESOLVED**, that if any additional aid is received on any of these projects, the Treasurer may accept the aid and close this amount of aid to the appropriate fund and revenue account; and be it further

5th **RESOLVED**, that any unissued serial bond, bond anticipation note or capital note authorization remaining after the project is closed can be liquidated by the County Comptroller and the County Treasurer; and be it further

6th **RESOLVED**, that the County Comptroller and County Treasurer are authorized to transfer positive and negative cash balances to close these capital projects; and be it further

7th **RESOLVED**, that the County Comptroller and County Treasurer are hereby authorized to net the positive and negative cash as a result of the projects being closed and accept the remaining funds into the appropriate Operating Fund under revenue code 2954 Capital Project Close Out.
