NOTE: This portion of the resolution defers \$125,000 for site improvements from 2016 and from 2017 to SY, pending better cost estimates resulting from the planning phase.

Summary Note: The sum of the actions of this resolution amends the Proposed 2015-2017 Capital Program and Proposed 2015 Capital Budget by increasing the funds scheduled in 2015 by \$22,330,800; increasing 2016 by \$30,370,000; increasing 2017 by \$5,345,000 and decreasing subsequent years (SY) by \$22,435,000. The overall impact is a \$58,045,800 increase in the 3-year (2015-17) Capital Program and an increase of \$35,610,800 when SY is included.

The impact of these changes on countywide General Fund property taxes is for the most part through the change in serial bonds (B). This resolution increases serial bond (and pay-as-you-go) financing by \$23,090,800 over the 3-year capital program. The \$11,947,500 decrease in serial bonds in SY is not considered in our calculations of the property tax impact for two reasons: (1) it is not clear how far into the future this borrowing may be needed and (2) the intent of funding in SY is included mainly as a representation of the county's long-term planning needs.

* Other: Advances \$10 million for construction (half X-money and half O-money) from SY and split \$5 million in each of 2015 and 2016 for CP 8153-Sewer Expansion for the Smithtown and Kings Park, Main Street Commercial Area

The property tax impact of this resolution results from the change in debt service costs associated with increasing the serial bond (B) funding source and from the increase in pay-as-you-go financing (G). This amendment increases these funding streams by \$8,430,800 in 2015, by \$11,890,000 in 2016 and by \$2,770,000 in 2017, for a total increase of \$23,090,800. Based on three 18-year bonds, a weighted average maturity (WAM) level debt service repayment schedule, and variable interest rates that average 4.818%, the estimated increase in property tax for the average homeowner would be \$3.11 per year or \$62.20 over the life of the bonds. Finally, our analysis should also be limited to the 2015 amendments contained in this resolution, since actions in 2015 can only be taken on those amendments. Assuming the entire 2015 increase of \$8,430,800 was borrowed at once, the estimated increase in property tax for the average homeowner would be \$1.26 per year or \$22.68 over the life of a bond.
