**Statement of Financial Impact on Proposed Suffolk County Legislation**

**IR Number:** 1928

**IR Year:** 2012

**Introduced By:** Legislators Browning and Schneiderman

***Title of Proposed Resolution:***

**Amending the 2012 Capital Budget and Program and Appropriating Funds in Connection with Dredging of County Waters (CP 5200)**

***Purpose and Intent of Proposed Legislation:***

This resolution amends the 2012 Capital Budget and appropriates \$800,000 in Suffolk County Serial Bonds to dredge the Forge River. This appropriation is offset by reducing construction funds associated with Capital Project No. 1755, Infrastructure Improvements for Traffic and Public Safety and Public Health, by an equal amount.

***Detailed Explanation of Fiscal Impact:***

An \$800,000 serial bond issue, with debt service based on a 18-year weighted average maturity (WAM) repayment schedule and variable interest rates that average 3.06%, would result in a total debt service cost of \$1,083,219.

***If applicable, what is the comparison cost if this is undertaken in-house, compared to an outside contractor or vendor?***

The County performs small dredging projects, which typically cost less than \$100,000, in-house. Larger projects, such as this, are done by outside contractors.

***Total Financial Cost and timing over five years on each affected political or other subdivision:***

Based on a 18-year weighted average maturity (WAM) repayment schedule and variable interest rates that average 3.06%, debt service payments would be \$297,368 over the first five years of the bond.

***Proposed Source of Funding:***

Suffolk County Serial Bonds

***Total Estimated Financial Impact on all Funds, tax rates, and property tax:***

General Fund debt service is estimated to increase by \$53,567 in the first year; approximately \$0.10 to the average homeowner.

***Total Estimated Financial Impact on Suffolk County's economy including the impact on goods or services, economic development, small business activity, employment opportunities and overall business activity:***

Periodic dredging of County waters prevents waterways from becoming shoaled, which could result in injury or property damage.

- The first interest repayment must be within 1.5 years and the first principal repayment must be within 2 years.
- Principal repayment is based on a level debt service schedule, as authorized (for the years 2009 through 2011) by Res. No. 1011-2008.
- Interest rates are based on the 04/16/2012 Municipal Market Data (MMD) yield curve for "AA" rated bonds plus 100 basis points to account projected higher future rates and the possibility of a downgrade.
- Once initial payments are made, principal is repaid once per year and interest twice per year (every six months). Consistent with recent Suffolk County serial bond issues, the above debt service schedule assumes that the first debt service payment is made in one-year. This initial payment includes a double interest payment (two six-month periods). For spring serial bond issues, since in the first year only, a double interest payment is made in the spring, and six-months later a third interest payment is made in the fall, first year principal repayment is reduced to assure that first year debt service approximately equals future years debt service.
