3. Purpose of Proposed Legislation To issue delinquent tax anticipation notes for cash flow purposes, as we have done for the past number of years. The current 2015 cash flow anticipates revenue of \$100,000,000 in such tax anticipation notes. The resolution has been written to provide sufficient latitude in principal should revenue trends decline resulting in the cash flow requiring a larger infusion of funds.

6. If the answer to item 5 is "yes", Provide Detailed Explanation of Impact Since these notes will be issued to mature in October 2016 impact would be to the County's 2016 operating budget. TANs will be issued during October 2015 for the four most current fiscal tax years. The estimated "gross" interest cost for the maturing note is estimated to be approximately \$2,000,000. (\$100,000,000 x 2.00% gross coupon for 12 months.) It is anticipated that a premium may be bid by the underwriters. Thus, it is currently expected that the net interest cost for the notes could be approximately 1.00%.

TITLE OF BILL: Delegating to the County Comptroller of the County of Suffolk, New York, the powers to authorize the issuance of and to sell not exceeding \$105,000,000 Tax Anticipation Notes of said County in anticipation of the collection of taxes levied for County purposes or returned to the County for Collection for the fiscal years commencing January 1, 2012, 2013, 2014 and 2015 and providing for other matters in connection therewith.

PURPOSE OR GENERAL IDEA OF BILL: A request for enabling local legislation to approve issuing Tax Anticipation Notes of the County for the upcoming fiscal year to meet cash flow needs.

SUMMARY OF SPECIFIC PROVISIONS: To issue tax anticipation notes for cash flow purposes to cover cash flow needs for fiscal 2015. The current 2015 cash flow anticipates revenue of \$100,000,000 in such tax anticipation notes. The resolution has been written to provide sufficient latitude in principal and final sizing will be based upon actual cash flow projection formulas.

JUSTIFICATION: Standard annual request for enabling local legislation to approve issuing Delinquent Tax Anticipation Notes of the County as provided within the most current 2015 cash flow.

FISCAL IMPLICATIONS: The notes will be issued prior to December 31, 2015 for a term of approximately one year and will impact debt service in the 2016 operating budget. Estimated gross interest cost for the maturing note is estimated to be \$2,000,000 (\$100,000,000 X 2.00% gross coupon for 12 months). It is anticipated that a reasonable premium will be bid by the underwriters and that the net interest cost may be approximately 1.00%. Interest rate estimates are based on current market rates and are subject to change.

**2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT**

Title of Resolution:

AMENDING THE ADOPTED 2015 OPERATING BUDGET TO TRANSFER FUNDS FROM FUND 477 WATER QUALITY PROTECTION, AMENDING THE 2015 CAPITAL BUDGET AND PROGRAM, AND APPROPRIATING FUNDS IN CONNECTION WITH TOWN OF BROOKHAVEN RESTORATION OF BLUE POINT AVENUE POND AND STORMWATER IMPROVEMENTS.

PURPOSE OR GENERAL IDEA OF BILL:

To provide water quality protection (Fund 477) funding to the Town of Brookhaven for the purpose of remediating Blue Point Pond.

SUMMARY OF SPECIFIC PROVISIONS:

To transfer the funding from Fund 477 into a Capital Projects account to be used by Brookhaven Town after the execution of an intermunicipal agreement with the town.

JUSTIFICATION:

The funding for this stormwater abatement, pollution prevention, and education and outreach project was recommended at the March 13, 2015 meeting of the WQPRP Review Committee. It was deemed by the Committee to be a prudent and beneficial use of the ¼% sales tax water quality funds. Reducing pollution from stormwater is necessary to protect Suffolk County's ground and surface waters.

FISCAL IMPLICATIONS

There is no fiscal impact to the General Fund. All funding will come from the existing ¼% sales tax generated fund for water quality protection projects.

Project Location (describe, and attach a location map): Town Docks at Three Mile Harbor, East Hampton, NY (see attached map) - Suffolk County Tax Map: 300-204-3-3			
Brief Description of Proposed Action: The Department of Natural Resources for the Town of East Hampton has developed the GRID project at Town Docks in Three Mile Harbor working with Cornell Cooperative Extension of Suffolk County. The project consists of creating bioretention basins along Three Mile Harbor Road and in the grass area in the middle of the parking lot. Surface stormwater from the parking lot will be directed towards the center of the parking lot. A Permeable Reactive Barrier (PRB) will be installed adjacent to the existing bulkhead. The PRB will allow for the biodegradation or reduction of nitrate and nitrogen in groundwater using a matrix of organic media and materials as a source of carbon. The reactive zone and mat will be constructed with a permeability that is greater than the surrounding sediments to encourage the movement of pore water through the media while minimizing flow around the treatment zone.

Title of Resolution:

AMENDING THE ADOPTED 2015 OPERATING BUDGET TO TRANSFER FUNDS FROM FUND 477 WATER QUALITY PROTECTION, AMENDING THE 2015 CAPITAL BUDGET AND PROGRAM, AND APPROPRIATING FUNDS IN CONNECTION WITH THE TOWN OF EAST HAMPTON'S GREEN REACH INFRASTRUCTURE DEMONSTRATION NITROGEN AND STORMWATER ABATEMENT PROJECT

PURPOSE OR GENERAL IDEA OF BILL:

To provide water quality protection (Fund 477) funding to the Town of East Hampton for the purposes of implementing a "Green Reach Infrastructure Demonstration" (GRID) Nitrogen and Stormwater Abatement Project in the Three Mile Harbor sub-watershed.

SUMMARY OF SPECIFIC PROVISIONS:

To transfer the funding from Fund 477 into a Capital Projects account to be used by the Department for funding the Town of East Hampton's Project.

JUSTIFICATION:

The funding for this nonpoint source abatement and control – preservation and education and outreach project was recommended at the March 13, 2015 meeting of the WQPRP Review Committee. It was deemed by the Committee to be a prudent and beneficial use of the ¼% sales tax water quality funds. The prevention and remediation of pollution from nitrogen and pathogens is necessary to protect Suffolk County's ground and surface waters.

FISCAL IMPLICATIONS

There is no fiscal impact to the General Fund. All funding will come from the existing ¼% sales tax generated fund for water quality protection projects.

WHEREAS, the County must in first instance fund the entire cost of the Phase I of the project and will subsequently be reimbursed by the New York State Office of Emergency Management as administrator of the FEMA HMGP; and

Re: FEMA-4085-DR-NY
HMGP Project # 4085-0010
Suffolk County Department of Economic Development and Planning
(hereinafter, "Suffolk County" or "Subgrantee") at Smith Point County Park
Tidal Wetland Restoration to Improve Natural Protection against
Flooding and Storm Surge Damage / HMGP Phase I Approval

Commissioner Hauer:

This letter advises that the Department of Homeland Security's Federal Emergency Management Agency (FEMA) has reviewed the Suffolk County's Hazard Mitigation Grant Program (HMGP) Application for Project 4085-0010. This proposal seeks to improve the natural protection against flooding and storm surge damage through an integrated marsh management project located in Smith Point County Park (North) located south of Shirley, NY (hereinafter, the "Project").

At this time FEMA is authorizing \$107,273 in total costs for the engineering design and permitting portion of the Project (Phase I). Upon the timely completion of the conditions specified in this letter, FEMA will consider additional funding in an amount not to exceed \$426,727 for the construction portion of the Project (Phase II). The maximum total cost for both phases of the Project is \$534,000.

The Project location, existing conditions, and proposed scope of work are described below, along with the funding details, grant management requirements, and conditions of approval. The New York State Division of Homeland Security and Emergency Services (NYS DHSES or Grantee) has primary responsibility for management of the Project and accountability of funds, as set forth in 44 C.F.R. Part 206, Subpart N and 44 C.F.R. Subchapter A, Part 13.

156

I. Project Details

The Project's proposed work concerns enhanced flood buffering, resilience to sea level rise and improvement of the natural protection against flooding and storm surge damage within the residential area of Shirley, through an integrated marsh management project located in the north section of the Smith Point County Park. This will restore proper sedimentation along mid-section of marsh by altering a network of currently degraded linear ditches and converting them to a new hydrologic system composed of tidal channels, ponds, and shallow connectors.

Protection will be achieved by restoring tidal hydrodynamics with a strategic distribution of tidal channels, marsh ponds, and shallow connectors to link ponds and tidal channels into a semi-open tidal network. Marsh sedimentation and accretion will be enhanced by tidal channels mirroring natural creeks with a meandering profile, sloping banks, reaching the marsh interior to improve tidal circulation and exchange. This will allow adequate tidal hydrodynamics during tides or storm events. Ponds will be excavated in degraded areas, approximately 200-500 square feet in surface area, with at least 10 feet of 3/1 slope on one side or by modifying existing ditches. The connectors or shallow tidal channels will have an approximate depth of 0.5 feet below marsh surface. Existing ditches will be filled with autochthonous material removed during pond and tidal channel creation processes, or naturalized by cutting to slope the enhanced nekton habitat to be incorporated into the new tidal channel network.

The project is expected to significantly reduce further degradation of the salt marsh surface, with many of the currently existing grid panels harboring expanding areas of sediment starved zones, and improve salt marsh resilience to sea level rise by increased delivery and capture of suspended sediment on the marsh. The south shore of Suffolk County, New York, was significantly affected by Hurricane Sandy, resulting in total loss of hundreds of homes, loss of business activity, public infrastructure and ecosystems.

II. Project Review, Funding, and Grant Management Requirements

Additional information is required in order for FEMA to complete its technical and environmental reviews, and to make a final determination for total HMGP funding on the Project. The Project review process is therefore being divided into two components: Phase I consisting of the NEPA's Environmental Assessment (EA), and Engineering Design and Permitting and Phase II construction. At this time, authorization is being provided *only* for Phase I. Specific requirements and conditions are provided below under Section A. 1 of this letter. FEMA will consider authorizing Phase II funding for construction of the Project based upon the results of the Suffolk County's timely completion of Phase I activities.

Phase I funding will be made available in an amount not to exceed the total Phase I costs of \$107,273, with a Federal share of \$80,455 and a local matching share of \$26,818. The remaining Project funding is being reserved should Phase II be approved. Based upon the initial budget submitted, the maximum total Project cost is \$534,000. This allows for potential Phase II funding in an amount not to exceed \$426,727, with a Federal share of \$320,045 and the required local matching share of \$106,682. The necessary costs of requesting, obtaining, and administering Federal disaster sub-grants will be covered in accordance with 44 C.F.R. Part 207.

1556

Strategic Funds Management will be used in the award of this subgrant. Strategic Funds Management is a fiscal management approach designed to provide funds to the Grantee as needed to implement approved HMGP activities. Funding for this subgrant will be provided as follows:

Award Increment	Budget Cost Classification	Federal Share Awarded	Local Matching Share	Total Funding
Phase I	NEPA EA, Engineering Permitting, Designs & Analysis	\$ 27,750	\$ 9,250	\$ 37,000
	Data Collection and Monitoring	\$ 52,705	\$ 17,568	\$ 70,273
	Phase I Sub-Totals	\$ 80,455	\$ 26,818	\$107,273
Phase II	Phase II Sub-Totals	\$320,045	\$106,682	\$426,727
	Total Estimated Project Cost	\$400,500	\$133,500	\$534,000

Grant agreement articles of the FEMA-State Agreement govern this HMGP subgrant, which incorporates the grant management requirements set forth in Title 44 of the Code of Federal Regulations. In accordance with 44 C.F.R. § 13.30 (d), prior approval by FEMA is required for any revision to the scope or objectives of the Project, or extension to the period of availability of funds. Any such request for approval of a revision of scope or extension of project performance period must be submitted to FEMA's New York Sandy Recovery Office (NY SRO) prior to implementation of the Project. Any change that does not receive prior approval from the NY SRO will violate the conditions of this subgrant.

III. Conditions of Approval

FEMA's Phase II approval is contingent upon fulfillment of all of the following conditions:

A. HMGP Requirements

1. Engineering Design and Permitting

In accordance with Hazard Mitigation Assistance Unified Guidance (HMAUG), Part VIII, Additional Program Guidance, A. Hazard Mitigation Grant Program, A.9 Phased Projects (2011), the engineering design phase should include preparation of an existing conditions site plan, a proposed site plan, engineering details, a detailed scope of work, a revised estimated budget, a budget narrative, and a Project completion schedule. The budget narrative should

1556

describe the funding needs to execute the activities outlined in the Project completion schedule.

During the engineering design phase, the County should initiate permitting with the U.S. Army Corps of Engineers (USACE), the New York State Department of Environmental Conservation (NYS DEC), the local floodplain administrator, and other permitting agencies with jurisdiction over the proposed Project. Should the County be advised of any problems or issues that have any bearing on the proposed design, they shall immediately notify the Grantee and the NY SRO.

Should FEMA approve funding for Phase II construction at a later date, the Subgrantee will be responsible for obtaining all Federal, State, and/or local permits that are required prior to construction. A copy of all permits must be submitted to and maintained with the Grantee. Failure of the Subgrantee to obtain the required permits associated with the approved scope of work would violate the condition of this Project approval. This could result in a determination that no Federal funding is eligible for the Project.

2. Project Completion Deadline

The deadline for submission of Phase I documents stipulated in section A. 1 to the NY SRO through the Grantee is **Friday, July 17, 2015**. Submission of the work at an earlier date will enable FEMA to expedite its review with respect to Phase II of the Project. **Suffolk County may not commence any improvement activity or the construction stage of this Project until FEMA provides Phase II funding authorization.**

In order for Suffolk County to request a period of performance extension, the Grantee must submit a formal written request to the FEMA Regional Administrator. The request must be made no later than sixty (60) days prior to the expiration of the period of performance and must include a justification for the extension. This justification must demonstrate that funded activity is in progress. Other information required with this request includes: a revised budget information form (regardless of whether there are changes to the budget), percentage of work completed and a description of all work completed.

3. Reporting Requirements

The Grantee is required to submit quarterly financial and performance reports within 30 days after the end of each quarter in accordance with 44 C.F.R. § 13.40, 13.41, and 44 C.F.R. § 206.438(c). These reports should reflect the status and completion date for the Project. Any problems or circumstances affecting the completion date, scope of work, project cost, or which could be expected to result in noncompliance with the approved grant conditions are to be described in the quarterly progress reports. Requests for additional Project time extensions will only be considered in instances where Suffolk County has provided the Grantee with accurate quarterly status reports.

1556

4. Reimbursement of Allowable Costs

Once funding has been obligated, the Grantee is to submit a claim to the NY SRO for reimbursement of allowable costs prior to the drawing down of those funds in accordance with 44 C.F.R. § 206.438(d). These submitted claims must also certify that reported costs were incurred in the performance of eligible work, that the approved scope of work was completed, and that the mitigation measure complies with the provisions of the FEMA-State Agreement.

Funds obligated pursuant to this Project are subject to expenditure time limits imposed under Section 904(c) of the Disaster Relief Appropriations Act, 2013 (P.L. 113-2) and are required to be expended by the Grantee or Subgrantee (paid as an outlay of money in furtherance of the grant purpose) within 730 days of the date FEMA obligates the funds for this Project in its financial system. Unless waived pursuant to guidance issued by the Director of the Office of Management and Budget, any funds not expended by the Grantee or Subgrantee within 730 days will be de-obligated by FEMA within 30 days from the end of the 730-day period. Any funds withdrawn and not expended must be returned to FEMA within 30 days from the end of the 730-day period, ceasing FEMA's financial liability.

5. Project Closeout

Upon completion of the Project, the Grantee must ensure that the subgrant has been completed in compliance with the approved scope of work and with all required environmental conditions and all HMA and HMGP Guidance.

6. Other Regulatory Requirements

As part of our approval, the Subgrantee is required to adhere to all applicable Federal regulations.

7. Environmental and Permitting Requirement

a. Archaeology

If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the Subgrantee shall stop work immediately in the vicinity of the discovery and notify the NY SRO within 24 hours. The Subgrantee will ensure that archaeological discoveries are secured in place, that access to the sensitive area is restricted, and that all reasonable measures are taken to avoid further disturbance of the discoveries. In addition, if unmarked graves are present, the Subgrantee shall notify the local law enforcement agency within 24 hours of the discovery and the NY SRO within 72 hours. Work in the vicinity of any discovery will not resume until the NY SRO has completed consultation with State Historical Preservation Office, Tribes, and other consulting parties as necessary.

1556

b. Environmental Policy Act (NEPA)

The project requires a National Environmental Policy Act (NEPA) compliant Environmental Assessment (EA) addressing a) Purpose, b) Need, and c) Consideration of alternatives under appropriate Federal laws and Executive Orders. Note: Prior to initiating an EA, a kick-off meeting is required with the Environmental Planning and Historic Preservation (EHP) team to ensure that all NEPA elements and requirements are sufficiently addressed.

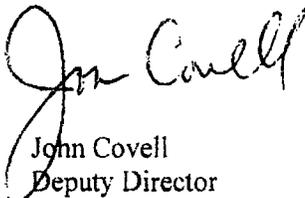

A copy of FEMA's Record of Environmental Consideration (REC), which summarizes the results of FEMA's environmental review, is enclosed for reference.

IV. Conclusion

FEMA urges your office to meet with Suffolk County to review the Project requirements as soon as possible. At this meeting, please establish a follow-up schedule of Project monitoring including quarterly performance reporting and fiscal documentation requirements. Copies of all contracts entered into for this Project need to be provided to, and maintained by, NYS DHSES. We are available to assist both NYS DHSES and Suffolk County in the implementation of this Project.

2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

Title of Resolution:

ACCEPTING FEDERAL EMERGENCY MANAGEMENT AGENCY HAZARD MITIGATION GRANT PROGRAM FUNDS, AMENDING THE 2015 CAPITAL BUDGET AND PROGRAM, AND APPROPRIATING FUNDS IN CONNECTION WITH THE TIDAL WETLAND RESTORATION AT SMITH POINT COUNTY PARK TO IMPROVE PROTECTION AGAINST FLOODING AND STORM DAMAGE

PURPOSE OR GENERAL IDEA OF BILL:

This resolution is to accept and appropriate \$160,273 of FEMA funding for Phase I of the restoration of the Smith Point North Marina wetlands.

SUMMARY OF SPECIFIC PROVISIONS:

This resolution will place the FEMA grant for Phase I of this project into CP 8710.

JUSTIFICATION:

Approximately 77 acres of tidal salt marshes will be restored using an Integrated Marsh Management (IMM) approach. The project aims to improve protection against floods and storm damage by restoring the estuarine-salt marsh hydrodynamics and significantly enhancing the current degraded salt marsh conditions characterized by large areas of invasive common reed (*Phragmites australis*), waterlogging, extensive mudflat formation and panne erosion, high salt marsh mosquito production, and long-term vulnerability to sea level rise. As a result of improved conditions for native vegetation and increased sediment capture, the marsh is expected to become more resilient to sea level rise and be an effective buffer against floods and storm damage for the surrounding area

FISCAL IMPLICATIONS

There is no fiscal impact to the General Fund. The funding for this project is coming from FEMA.
