HEALTH COMMITTEE
OF THE
SUFFOLK COUNTY LEGISLATURE

A meeting of the Health Committee of the Suffolk County Legislature was held in the Rose Y. Caracappa Legislative Auditorium of the William H. Rogers Legislature Building, 725 Veterans Memorial Highway, Smithtown, New York, on Thursday, April 20, 2017, at 2:00 p.m.

MEMBERS PRESENT:

Legislator William R. Spencer, Chairperson
Legislator Bridget Fleming, Vice Chair
Legislator Robert Calarco
Legislator Thomas Cilmi
Legislator Leslie Kennedy
Legislator Monica R. Martinez
Legislator Robert Trotta

ALSO IN ATTENDANCE:

George M. Nolan, Counsel to the Legislature
Craig Freas, Budget Review Office
Amy Ellis, Chief Deputy Clerk/Legislature
Elizabeth Alexander, Aide to Legislator Spencer
Elizabeth Sutton, Aide to Legislator Fleming
Maria Barbara, Aide to Legislator Cilmi
Ali Nazir, Aide to Legislator Kennedy
Alyssa Turano, Aide to Legislator Hahn
Greg Moran, Aide to Legislator Trotta
John Marafino, County Executive's Office
Mohammad Awais, County Executive's Office
Jen Culp, Suffolk County Department of Health Services
Robert Delagi, Suffolk County Department of Health Services
Joanne Murphy, Country Village Chemists
And all other interested parties

TAKEN BY:

Lucia Braaten, Court Stenographer

(**THE MEETING WAS CALLED TO ORDER AT 2:30 P.M.**)

1
2
3 **CHAIRMAN SPENCER:**

4 Good afternoon. If we could begin the Health Committee. Now I'm
5 going to ask if we could stand for a salute to the flag, to be led
6 by Legislator Cilmi.

7
8 (**Salutation**)
9

02:27PM 10 If we could please remain standing for a moment of silence in honor
11 of all the brave men and women who are serving this country both at
12 home and abroad.

13
14 Also for the families of the teens who were murdered, and they are
15 burying them this week, and our hearts go out to those families.

16
17 (**Moment of Silence**)
18

02:28PM 19 Good afternoon. Thank you so much. I'm sorry for the late start.
20 We had a very informative Public Safety Committee this morning. I
21 thank Legislator Fleming for getting us back on track with an
22 efficient Ways and Means meeting.

23
24 I have no correspondence since our last meeting. At this time,
25 we'll start the Public Portion. Is there anyone here that wishes
26 to be heard, that wishes to speak? Seeing none, we'll close the
27 Public Portion. And I have no presentations today, so I apologize.
28 I know that everyone's very disappointed that we have no
29 presentations.

02:28PM 30
31 (**Laughter**)
32

33 So we're going to move into the agenda.

34
35 **LEG. CILMI:**

36 Bob Trotta would like to make a presentation.

37
38 (**Laughter**)
39

40 **INTRODUCTORY RESOLUTIONS**

41
42 **CHAIRMAN SPENCER:**

43 And Introductory Resolution, *I.R. 1209 - Accepting and*
44 *appropriating 28% New York State and 72% Federal pass-through grant*
45 *funds from the New York State Department of Health in the amount of*
46 *\$171,662 for the Lead Poisoning Prevention Program ("LPPP")*
47 *administered by the Suffolk County Department of Health Services,*
48 *Division of Patient Care and to execute grant related agreements*
49 *(Co. Exec.). I'll make a motion to approve.*

02:29PM 50
51 **LEG. KENNEDY:**

52 Second.

53
54 **CHAIRMAN SPENCER:**

55 And seconded by --
56

1 **LEG. FLEMING:**

2 2072.

3
4 **CHAIRMAN SPENCER:**

5 2072 sounds like 100%, so that motion can be placed on the Consent
6 Calendar.

7
8 On the motion. There was a question from Legislator Krupski where
9 he wanted to ask if this funding is -- is this a mandate? George
02:29PM 10 or Craig? Oh, I'm sorry, Jen.

11
12 **MS. CULP:**

13 Good afternoon. Jen Culp, Health Committee -- or, excuse me,
14 Health Department.

15
16 Yeah. So lead poisoning prevention is one of the mandated
17 functions of the Health Department. We are directed to run this
18 program through Public Health Law, and it is for -- we shall
19 provide education and community outreach. We need to provide
02:30PM 20 screening if folks are unable to access screening for blood lead
21 screenings. We also provide environmental management, and work
22 with local providers for education outreach and followup, and we
23 also provide data that we track and report up to the State.

24
25 **CHAIRMAN SPENCER:**

26 Perfect. And the next resolution, that one is different, the
27 alcohol and substance abuse. That's not a mandated program, that's
28 just -- OASAS is -- that's mandated also?

29
02:31PM 30 **MS. CULP:**

31 No, that is not mandated.

32
33 **CHAIRMAN SPENCER:**

34 No, it's not. Okay, all right. Thank you. Thank you very much,
35 Jen, appreciate it. So anyone else on the motion?

36
37 So we have a motion and a second to place on the Consent Calendar.
38 All those in favor? Any in opposition? Any abstentions? Motion
39 carries. (*Vote: Approved and Placed on Consent Calendar 7-0-0-0*)

02:31PM 40
41 ***I.R. 1210 - Amending the 2017 Adopted Operating Budget to accept***
42 ***and appropriate 100% additional State Aid from the New York State***
43 ***Office of Alcoholism and Substance Abuse Services (NYS OASAS) to***
44 ***SCO Family of Services (Co. Exec.).*** Motion by Legislator Kennedy,
45 second by Legislator Cilmi. All those in -- to place on the
46 Consent Calendar. All those in favor? Any in opposition? No
47 abstentions? Motion carries. (*Vote: Approved and Placed on*
48 *Consent Calendar 7-0-0-0*)

02:31PM 49
50 ***I.R. 1238 - Appropriating funds for the purchase of replacement***
51 ***Automated External Defibrillators in County buildings (CP 4089)***
52 ***(Co. Exec.).*** I'll make a motion to approve, second by Legislator
53 Martinez. On the motion. How much is this for?

54
55 **MR. FREAS:**

56 It's \$240,000.

02:33PM

CHAIRMAN SPENCER:
Excellent. And, okay, this is -- yes, Legislator Kennedy, on the motion.
LEG. KENNEDY:
Is there anybody who can answer a question about this? Are there -- is there a problem with the existing defibrillators? Are these additional? Are they no longer the best?

MR. DELAGI:
Good afternoon, members of the committee. Bob Delagi from the Suffolk County Department of Health Services.
So we originally purchased the AEDs that we're seeking to replace back in 2000. They have exceeded their useful life span as far as medical electronic technology goes, and we will only get support through County of 2018, hence the project.

LEG. KENNEDY:
Thank you.

CHAIRMAN SPENCER:
So -- Legislator Trotta.

LEG. TROTТА:
So how long have we had them, since 2000?

MR. DELAGI:
Since about 2000, sir, yes.

LEG. TROTТА:
So 17 years.

MR. DELAGI:
Yes.

LEG. TROTТА:
All right. So they're probably paid off by now.

MR. DELAGI:
I would think so, especially if you consider the dozens of lives saved over the --

LEG. TROTТА:
That was my next question. How many have we saved?

MR. DELAGI:
So the Police Department uses them, obviously, quite frequently, as does the Jail Medical Unit and the former Health Center.

LEG. TROTТА:
So the Police -- these are -- how many in the County buildings?

MR. DELAGI:
So we have probably around 165 or so.

1
2 **MR. FREAS:**
3 Mr. Delagi, in the legislation it said 145.

4
5 **MR. DELAGI:**
6 One-forty-five in the current legislation.

7
8 **MR. FREAS:**
9 Yes.

02:33PM 10
11 **MR. DELAGI:**
12 Yeah.

13
14 **LEG. TROTТА:**
15 In the buildings, not in the Police Department.

16
17 **MR. DELAGI:**
18 That's correct.

19
02:33PM 20 **LEG. TROTТА:**
21 And how many have we saved in the -- I have -- someone said we
22 saved someone in this building once.

23
24 **MR. DELAGI:**
25 We did. We saved somebody in this building one time, there was a
26 save in the DSS building, there were saves at Cupsogue Beach and
27 Smith's Point County Park, and there was a save in the H. Lee
28 Dennison Building. So a total of six in the public portion of
29 our -- of our program.

02:34PM 30
31 **CHAIRMAN SPENCER:**
32 Are we replacing them? I'm sorry.

33
34 **LEG. TROTТА:**
35 No. Just so we -- these other ones are going to last at least that
36 long or --

37
38 **MR. DELAGI:**
39 We hope so, certainly, yes.

02:34PM 40
41 **LEG. TROTТА:**
42 How do you know if they're not working?

43
44 **MR. DELAGI:**
45 Sorry?

46
47 **LEG. TROTТА:**
48 How do you know if they're not working?

49
50 **MR. DELAGI:**
51 So each machine has tremendous amount of technology built into it
52 to let us know what the battery life is, what the pad life is, and
53 so on and so forth. And, you know, historically, they do last a
54 considerable amount of time. If there is some sort of internal
55 circuitry problem in a particular machine, an alarm goes off and we
56 take it out of service or we repair it as necessary.

02:34PM

02:35PM

02:35PM

02:35PM

02:36PM

LEG. TROTТА:

So you have to replace the batteries every couple of years, I'm assuming?

MR. DELAGI:

Yes, every couple of years. It's usually five years or 300 shots, whichever comes first.

LEG. TROTТА:

Three hundred shots, really? Or are we selling these to another -- somebody else who --

MR. DELAGI:

You can't use them to jumpstart your car, but -- no, they -- no, we are not, simply because, again, you can't get pads, which are disposable items, and batteries for them. So they're really not useful to sell to anybody.

LEG. TROTТА:

Okay. Thank you.

CHAIRMAN SPENCER:

As far as the new ones, is it the same company that we had the old ones from? Are we dealing with a new vendor? Did we get a competitive bid from them?

MR. DELAGI:

So because technology has changed so much since our original purchase, we elect -- our purchase, we elected to look at every vendor that's on the market, there are five or six out there, because of the major changes in technology. So it really will be a competitive bid process. Each of the vendors is on a -- is on the County in the State contract. So once we make our recommendations as to the type of machine we want relative to its cost to maintain and ease of users -- ease of use for the end user, you know, we will make our recommendation, but then we'll turn that over to Purchasing.

CHAIRMAN SPENCER:

Any other questions?

LEG. CILMI:

Mr. Chairman, I have an unrelated question, but it would be for Mr. Delagi.

CHAIRMAN SPENCER:

Certainly.

LEG. CILMI:

I heard that there's a shortage of Narcan, or that we have -- we're on back order for Narcan, or something like that. Can you either confirm or deny that, or explain it a little more?

MR. DELAGI:

Sure, I can confirm that for you. Because of the widespread

1 interest in Narcan over the last few years, the New York State
2 Health Department continues to supply us with Narcan to be
3 distributed or dispensed free of charge to the people who take our
4 layperson training. But there are severe backlogs and shortages in
5 the State Department's ability to acquire Narcan from the
6 manufacturer, and then dispense and distribute to the multiple
7 numbers of registered programs across New York State.

8
9 **LEG. CILMI:**

02:36PM 10 So how far behind is that, does that put us at this point? I mean,
11 are we --

12
13 **MR. DELAGI:**

14 It takes me about eight or nine weeks to fill an order. I'm
15 ordering them about 2,000 at a time, and I'm going through them as
16 quickly as I can get them.

17
18 **LEG. CILMI:**

02:37PM 19 Do we have any idea what percentage of -- and I don't know that it
20 really matters, but what percentage of kits that are distributed
21 are, you know, sitting in somebody's draw for the life of their --
22 for the life of their potency and then just getting eventually
23 thrown away?

24
25 **MR. DELAGI:**

26 We have no way to track that, but I think anecdotally it's safe to
27 say that, you know, I can compare the number of kits dispensed
28 versus the number of kits being replaced because they've been
29 used --

30
31 **LEG. CILMI:**

32 Right.

33
34 **MR. DELAGI:**

35 -- and there is a disparity in that number.

36
37 **LEG. CILMI:**

02:37PM 38 Yeah. Maybe there's a -- maybe there's a different way to do this,
39 I don't know. I've taken, I think, two trainings myself, and I
40 guess I got the kit the first time. I think I declined taking it
41 the second time, only because I didn't need it again. But I can
42 just imagine that lots of the people -- because it's mostly
43 community people that are taking the training, and the likelihood
44 of one of them being exposed to an overdose victim is probably
45 pretty slim. So it's unfortunate that we would have a lot of that
46 valuable medication go to waste. I mean, it's obviously -- it's an
47 insurance policy, so when you have it, you know, it's there, but
48 anyway.

49
02:38PM 50 **MR. DELAGI:**

51 Sure. I think it's one of those things that you want it for the
52 security.

53
54 **LEG. CILMI:**

55 Of course.

1 **MR. DELAGI:**

2 You want to give it out to people who are likely to encounter an
3 overdose, but, at the same time, you hope you never use it. And
4 it's just one of those things that you kind of bear the cost of
5 preparedness in that context.

6
7 To editorialize just a bit, I do believe that a lot of the
8 layperson kits that we dispense are underreported. I think there
9 are many instances where somebody will resuscitate their son,
02:38PM 10 daughter, niece, nephew, and they're not telling anybody, they're
11 not calling 911. Occasionally, I'll pick that up, because they'll
12 ask me for a replacement, and I'll notice that there was no EMS run
13 attached to that. So I think it's safe to say that those instances
14 are, in fact, underreported.

15
16 **LEG. CILMI:**
17 Interesting.

18
19 **CHAIRMAN SPENCER:**

02:39PM 20 Legislator Calarco, then Legislator Fleming.

21
22 **D.P.O. CALARCO:**

23 Thank you, Mr. Chairman. And then, Bob, this is -- I guess we're
24 getting a little off topic, but I think it's relevant. And this is
25 a followup to Legislator Cilmi's question, and it's something that
26 came up in the prior committee, in Public Safety this morning,
27 about the doses. And Suffolk County gets these for free from the
28 State, correct?

29
02:39PM 30 **MR. DELAGI:**

31 As part of our Registered Opioid Overdose Program, yes, correct.

32
33 **D.P.O. CALARCO:**

34 So are we able to make those available to our EMS providers so that
35 they can have these doses provided to them at no cost? It was
36 brought up earlier that for some of these departments, it's
37 becoming an ever larger portion of their budget, unfortunately, due
38 to the number of doses they seem to have to use. Are we working
39 with them? Because I know the EMS providers have been carrying
02:40PM 40 these, Narcan for much longer than our Police Department has.

41
42 **MR. DELAGI:**

43 Sure. So I think, you know, the issue, obviously, is that because
44 of the supply and demand and our economic system, the cost has gone
45 up per dose and they're, in fact, using more. I think it would be
46 impossible for me to keep up with the demand of getting it from the
47 State and supplying it to our EMS providers.

48
49 The genesis of the State's program was to put it in the hands of
02:40PM 50 laypersons, and, really, that is the impetus of the program. And
51 while I am a volunteer firefighter and EMS provider, and certainly
52 do, you know, understand the issues of the budgets and the increase
53 in cost to do business, it's, frankly, a cost to do business.

54
55 **D.P.O. CALARCO:**

56 It's not part of this grant?

1
2 **MR. DELAGI:**

3 Right.

4
5 **D.P.O. CALARCO:**

6 Okay.

7
8 **MR. DELAGI:**

9 It's not part of this grant.

02:40PM 10
11 **CHAIRMAN SPENCER:**

12 Legislator Fleming.

13
14 **LEG. FLEMING:**

15 Yes. I just wanted to note, in regard to the same discussion,
16 having run many of these, the trainings for volunteers -- for
17 civilians now -- and thank you for your volunteer service. I'm
18 amazed at that. But the folks that show up, I mean, we've had a
19 couple of packed firehouses, then we've had a couple where there
02:41PM 20 are just a few concerned parents. But I think the folks that show
21 up to these trainings are very invested in being able to help
22 people, if the need arises. So, you know, there may be some
23 sitting in a drawer, but I could tell you I have one sitting in my
24 purse that I hope will never be used. But I still think there's a
25 great value to having distributed it, and I don't think that is a
26 waste of a valuable medicine. Even one time that that is used and
27 saves a life is just critical. So I think it might be -- the other
28 -- the story really might be the other way around, that we need to
29 get more people to these meetings and trainings to receive the
02:41PM 30 kits, even if they're never, ever used.
31

32 **MR. DELAGI:**

33 Absolutely. And thank you for the thank you. And I will tell you
34 that, you know, we're very proud of our program. Since we became
35 registered in 2013, when we did our first program, we have done 260
36 such layperson classes, and we have distributed over 8100 kits into
37 the general population. And I call that force multiplication. I
38 call that enhancing our community chain of survival by now inviting
39 a new cadre of first responders, those lay people who are likely to
02:42PM 40 intervene before EMS gets there and police get there. So, really,
41 that is the crux of our program.
42

43 **LEG. FLEMING:**

44 And if I may, one -- you know, we've got people from the schools
45 coming, although it's difficult for them sometimes with their union
46 issues, but we also have people from libraries and, you know, young
47 people who are -- it's the same with suicide prevention. They're
48 like sort of ambassadors that are embedded in the community in
49 places where this might happen, like you said, that can be
02:42PM 50 responsive prior to EMS getting there and can really save a life.
51

52 It's a terrible situation and it's -- every time I get up and, you
53 know, start the speech with a roomful of people who have come
54 because they have real concerns, because someone they know, or, you
55 know, is involved in heroin or opiate use. I'm blown away that
56 we're even having this conversation, but we really are. We can't

1 take it seriously enough. And for every kit that's sitting in a
2 drawer, I think there are others that are in purses and, you know,
3 cars that may very well save a life, and I think it's well worth
4 it, in my opinion. And thank you for your efforts.

5
6 **CHAIRMAN SPENCER:**

7 Thank you very much, Bob, appreciate it.

8
9 **MR. DELAGI:**

10 Thank you. Have a great day, everybody.

11
12 **CHAIRMAN SPENCER:**

13 So we have a motion and a second. All those in favor? Any
14 opposed? Any abstention? Motion carries unanimously. (Vote:
15 *Approved 7-0-0-0*)

16
17 *I.R. 1255 - Designating May as "Preventive Healthcare Month" in*
18 *Suffolk County (Spencer).* I'll make a motion to approve.

19
20 **LEG. KENNEDY:**

21 Second.

22
23 **LEG. FLEMING:**

24 Second.

25
26 **CHAIRMAN SPENCER:**

27 Seconded by -- I have two seconds, but I -- Bridget.

28
29 **LEG. FLEMING:**

30 Make the call.

31
32 (*Laughter*)

33
34 **CHAIRMAN SPENCER:**

35 Legislator -- second by Legislator Kennedy. Thank you,
36 Co-Chairwoman.

37
38 On the motion, I'd like to have Joanne Murphy, who came up. I just
39 have a question on this. Thanks, Joanne. Joanne is from Country
40 Chemists. And this designation of "Preventive Healthcare Month",
41 this is something that we've spoken about privately. And if you
42 could share with us kind of your vision, and why having preventive
43 healthcare awareness is so important, in just 30 seconds or so.

44
45 **MS. MURPHY:**

46 Okay. Well, over the last 15 years of working in the general
47 public, with the general public in healthcare, we've noticed a
48 change in people with their -- a lot of stress, a lot of anxiety,
49 not eating right, not sleeping. Every day someone comes in and the
50 people who seem to get younger and younger. So the stress that's
51 out there, there's lots of ways to prevent it, and there's lots of
52 information that you'd think people would know to help prevent
53 diseases such as diabetes, heart disease. All different types of
54 illness have a lot of these common links, and we support a lot of
55 these causes individually. But when someone doesn't have that
56 particular disease, they do not focus, and this is on general

1 wellness; that there are steps people can take to be proactive with
2 their own healthcare, and when they do do this, we see improvements
3 in them. So we like to help the community, even like with the drug
4 situation that you were talking about, to let people know that
5 there are options available, and make people aware that even
6 walking, getting the proper hydration for elderly population, sleep
7 for young people, all of these play into their general overall
8 health benefits. So it's our goal to keep people as healthy as
9 possible and not have them come in to be ill.

02:46PM 10

11 **CHAIRMAN SPENCER:**

12 And it's interesting, because Country Chemists, they are a full
13 service pharmacy, but they also really look at the preventive end
14 in terms of the products and the counseling that they offer and the
15 services that they do. And I thank you for doing that and for
16 bringing this --

17
18 **MS. MURPHY:**

19 Thank you.

02:46PM 20

21 **CHAIRMAN SPENCER:**

22 -- very important issue. And I had a chance to stop by the store,
23 and I see that with the atmosphere and the counseling and the
24 welcoming environment. And this is why this is so important. I
25 can just speak to the issue.

26
27 And one concern with any awareness day is that there are so many
28 awareness days that pretty soon they all get drowned out. But the
29 awareness days are so important, is because they shed a spotlight.
30 And even though there are other days that are being focused on,
31 prevention is so much more an area where we can get the bang for
32 really our healthcare resources.

02:47PM 30

33
34 So much morbidity and mortality is because of lifestyle and lack of
35 awareness with regards to diet, and exercise, and sleep, and
36 healthy patterns. So I thank you for bringing this forward. Thank
37 you for letting me be the sponsor of this, and I ask that my
38 colleagues will support it.

39
40 **MS. MURPHY:**

41 Well, I thank you for all your help.

02:47PM 40

42
43 **CHAIRMAN SPENCER:**

44 Thank you so much. Thanks for taking the time to come out today.

45
46 **MS. MURPHY:**

47 You're welcome. Thank you.

48
49 **CHAIRMAN SPENCER:**

50 Appreciate it. So we have a motion and a second. All those in
51 favor? Any in opposition? Any abstentions? (*Vote: Approved*
52 *7-0-0-0*) Motion carries unanimously. Thank you. And I have no
53 other business before this committee. Seeing nothing from my
54 colleagues, we stand adjourned. Thank you.

02:47PM 50

55
56 **(*THE MEETING WAS ADJOURNED AT 2:47 P.M. *)**
