SUFFOLK COUNTY LEGISLATURE

MINUTES

A meeting of the Public Works, Transportation & Energy Committee of the Suffolk County Legislature was held in the Rose Y. Caracappa Legislative Auditorium of the William H. Rogers Legislature Building, 725 Veterans Memorial Highway, Smithtown, New York on April 21, 2017.

MEMBERS PRESENT:

Leg. Al Krupski, Chairperson

Leg. Thomas Muratore, Vice Chair (excused Absence)

Leg. Robert Calarco, DPO

Leg. Steven H. Stern

Leg. Robert Trotta 20

Leg. Bridget Fleming 21 Leg. Kate M. Browning 22

Leg. DuWayne Gregory, Presiding Officer

ALSO IN ATTENDANCE:

Legislator Sarah S. Anker, Sixth Legislative District

George M. Nolan, Counsel to the Legislature 27

Amy Ellis, Chief Deputy Clerk/Legislature Robert Doering, Budget Review Office

29

Gil Anderson, Commissioner/Department of Public Works

31

Tom Vaughn, Deputy Commissioner, DPW William Hillman, Chief Engineer/Highway Department/DPW

Katie Horst, County Executive's Office

John Marafino, County Executive's Office

Jason Hann, County Executive's Office Catherine Stark, Aide to Leg. Krupski

Brendan Chamberlain, Aide to Leg. Muratore

Elizabeth Sutton, Aide to Leg. Fleming

Eva Greguski, Aide to Leg. Calarco

Robert Braun, Deputy Bureau Chief/County Attorney's Office 40

Siris Barrios 41

Angela Haneault 42

Bonnie Sager 43

Van James Furniss

Leonard Urban 45

Peter Calcandy Aaron Walters Lopez 47

Kevin Moran

Peter Baldwin 49

Paul Pressman 50

Joseph Tapler 51

And all other interested parties 52

MINUTES TAKEN BY:

All rise for the Pledge of Allegiance led by Legislator Stern.

SALUTATION

All right. Welcome to the regular meeting of the Public Works, Transportation and Energy Committee.

PUBLIC PORTION

We have eleven cards for the Public Portion. If everyone, when they come up, could be thoughtful and well organized, we can get through the -- everyone gets three minutes unless there's questions from someone on the Committee. So the first speaker is Angela Huneault with Siris Barrios on deck.

MS. BARRIOS:

Hello, my name is Siris Barrios. I am the (inaudible) liaison for the Riverside Rediscover Project. I am here today on behalf of the Riverside, Flanders, North Hampton and Southampton and everyone else that enjoys the traffic circle in Riverside.

Just to advocate that you support resolution 1220; it's something really important for this community. Everyone's really looking forward and excited about the reconfiguration of this traffic circle. So I just wanted to express our full support for this project and echo that on behalf of the community residents. Thank

CHAIRPERSON KRUPSKI:

Thank you for your comments, although I'm pretty sure no one really enjoys that traffic circle right now. Siris Barrios; and on deck Bonnie Sager.

MS. HUNEAULT:

Hi, my name is Angela Huneault.

CHAIRPERSON KRUPSKI:

Oh, I've got them -- I'm sorry. 41

MS. HUNEAULT:

Yeah, we did that. Yeah, we switched, sorry. I am a longtime Flanders resident for over 30 years. And as for my neighbors and myself, we ask that you fully support 1220 and keeping that money right for that traffic circle because we are looking forward -yes, it is a little bit of an annoyance going through that circle, but we know this is going to make it even better. And, you know, the flow of traffic just to -- just to see the change in Riverside is going to be awesome. And we -- we fully support this going through. Thank you.

CHAIRPERSON KRUPSKI:

Okay, thank you. So Bonnie Sager; and on deck Van James Furniss. 56

* Index Included at End of Transcript

02:02PM 50

MS. SAGER:

Good afternoon, my name is Dr. Bonnie Sager. I'm co-founder of Huntington CALM. We're a citizens advisory group that advocates for zero emissions sustainable via landscaping, its practices. There are many health, environmental and quality of life issues posed by the use of gas landscaping and its equipment. The major health and environmental hazards are as follows: Exhaust pollution, fine particulate pollution, noise pollution and environmental degradation including water pollution and small animal and insect habitat destruction.

02:02PM 10

7

Lawn and garden equipment accounts for 10% of all the emissions in the United States. Americans spill over 17 million gallons of gasoline each year filling lawn equipment. That's more than was spilled in the Exxon Valdez incident. In fact, gasoline is seeping into our groundwater. Leaf blowers cause soil damage with hot air jets blowing at speeds of excess of 200 miles per hour. If soil is not healthy, rain water is not absorbed and runoff and flooding occurs. Lawns become susceptible to blight and infestation leading to the use of more pesticides and fertilizers, which are a big contributor to the algae bloom and nitrogen problems we are experiencing.

02:03PM 20

The California Air Resources Board recently reported, number one, by the year 2020 leaf blowers and other small gas engines will create more ozone pollution than all the cars in the state.

26

21

22 23

Two: Operating a typical lawn mower for one hour produces as much smog as driving an average car approximately 150 miles.

293031

Three: Gasoline-powered leaf blowers are even more polluting than lawn mowers. A two stroke engine leaf blower generates as much emissions in one hour as an automobile does over 350 miles; the difference being that a car does it over a long stretch of road, while a leaf blower deposits it in the front or backyard or our public spaces.

37

02:04PM 40

Landscape equipment emissions contains four of the world health organizations top ten carcinogens which contribute to lung and breast cancer and an increased risk of bladder cancer. They also produce smog which exacerbates respiratory illness. Fine particulate matter blown into the air by gas leaf blowers goes into the lungs and can enter the bloodstream and has been linked to heart attacks, strokes, congestive heart failure and lung disease including asthma attacks. They can stay suspended in the air for hours, even days and are too small to be seen.

47

49

45

Landscape workers often blow debris and nitrogen-rich grass clippings into the street where they enter the storm drainage and end up in the Long Island Sound and the Great South Bay. The noise from gas leaf blowers exceed safe levels recommended by OSHA, EPA and NIOSH. Noise is more than an annoyance. Exposure to it can cause countless adverse health effects. These include stress-related illnesses, high blood pressure, speech interference, hearing loss, sleep disturbance and loss productivity.

02:04PM 50

We ask you to lead by example and set a model for landscapers in Suffolk County while improving our air quality, health and quality of life for all by approving the resolution before you today. Thank you.

_

CHAIRPERSON KRUPSKI:

Thank you. Van James Furniss; and on deck Leonard Urban.

filters and hoses that currently end up in the landfill.

7 8 9

MR. FURNISS:

02:05PM 10

Hi, good morning. My name is Van James Furniss. Commercial grade equipment is now available in zero emission; quiet and it provides the same level of performance as gas equipment. Several manufacturers have battery backpacks like this one (indicating) and would then you could power blowers, hedgers, weed whackers, chainsaws and even lawn mowers.

16 17

19

21

27

33

35

36

38

40

41

45

49

51

52

53

The new equipment uses pressures motors (inaudible) which makes it extremely efficient and safer for workers, environment and the public in general. Other than the motors, there's no moving parts so tune-ups are unnecessary. Batteries eliminate the need of use of oil and gas and we don't need bottles of degreasers, belts,

22

02:05PM 20

23 24

There's also no need for heavy flammable gas cans. And the equipment itself is lighter and practically vibration-free. The gas power counterparts, many workers overtime develop vibration sickness syndrome. Battery powered eliminate -- excuse me -- battery powered equipment is much quieter and that -- sorry -- battery powered equipment is so much quieter than -- even though manufacturers still recommend the use of ear protection, it is almost unnecessary. This fact alone helps preserve hearing and

allows crews to communicate more efficiently -- effectively.

.

02:06PM 30

I helped the Town of Southampton -- sorry -- I helped the Town of Southampton to educate and train their grounds crews. I've also demonstrated battery equipment to the towns of the Huntington, Brookhaven, and Brookhaven Nation Lab. And in every instance the grounds crews who have tested equipment were nearly all in favor of transitioning to the battery equipment.

02:07PM

Brookhaven Lab has already announced that they're going to start eliminating two stroke engine on the laboratory grounds. Workers, residents and the environment benefit from using better equipment. And so will the county -- the County's pocketbook. The initial cost of the equipment is a little higher, but the longevity of it is a lot longer. A regular gas-powered leaf blower lasts about two-and-a-half years; a battery one could last up to ten years and the batteries can last up to seven years. The chemistry of the batteries is not the same as those in cell phones and hover boards so they're a lot safer. Thank you.

02:07PM 50

CHAIRPERSON KRUPSKI:

Excuse me, Mr. Furniss. I've got a question for you. First of all, I'd be disappointed if we didn't get a demonstration.

MR. FURNISS:

Excuse me?

2 3

CHAIRPERSON KRUPSKI:

I would be disappointed if we didn't get a demonstration from you.

7

MR. FURNISS:

I can presently do it. It doesn't have any contaminants.

8 9 10

(DEMONSTRATION OF EQUIPMENT)

11 12

It has a battery pack, like I said, and you can use all sorts of equipment with it.

13 14

CHAIRPERSON KRUPSKI:

16

All right. And I've got a question about the cost of the batteries and the disposal of those; and also the cost of the energy to charge the battery. Has anyone ever done, like, a comparison on a -- you know, environmental consequences from, you know, cradle to grave of the whole operation?

02:08PM 20

MR. FURNISS:

24

The lithium ion powered batteries are different from the phone -the phone systems so there's absolute no risk of fire catching on them. They're totally recyclable and they're a lot healthier and eliminate all the irritants for gas-powered.

27 28

21

22

CHAIRPERSON KRUPSKI:

29 Okay. Thank you.

30 31

MR. FURNISS:

You're welcome.

32 33 34

35

40

41

44

45

47

49

CHAIRPERSON KRUPSKI:

02:09PM

I'm going to ask the -- because we do have something on the agenda. When the Commissioner comes up during the regular meeting, I'm going to ask the Commissioner if he's considered what you mentioned was the cost of, you know, mixing the fuel, the cost of the various parts, tune-up, and you didn't say it, but the fickleness of the, you know, combustion engine versus putting a battery in and having the time saved by staff getting the work done versus fooling around with a machine that is kind of at the end.

43

MR. FURNISS:

As far as using the equipment, it's almost the same as using the gas powered equipment. Like I said, there's a lot less set up time, like you were including yourself right now.

CHAIRPERSON KRUPSKI:

02:09PM 50

Yeah.

51

MR. FURNISS:

And it does take a little curve on learning how to use the equipment. But once they do, it's all benefit.

56

^{*} Index Included at End of Transcript

CHAIRPERSON KRUPSKI:

Okay. Thank you.

2

MR. FURNISS:

Welcome.

7

CHAIRPERSON KRUPSKI:

So Leonard Urban; and on deck Peter Calcandy.

8 9 10

11

12

MR. URBAN:

Good afternoon, Legislators and Happy Earth Day. My name is Leonard Urban. I've lived in Halesite for 40 years. profoundly deaf in both ears since childhood. I had surgery for a cochlear implant five years ago and am totally dependent upon it to I'm a longtime active member of the Hearing Loss Association of America; the Cochlear Community; and currently a member of the Huntington's Town Citizens Advisory Committee for the Disabled.

21

02:10PM 20

Our Committee has discussed gas leaf blowers and the negative effect on people with disabilities. We have recently made formal recommendations to the Town of Huntington Town Board to restrict the use of gas leaf blowers in the Town of Huntington. With my Cochlear implant, I can now go outside, I can hear songbirds, my neighbor's children playing and with confidence have a conversation with family, friends and strangers that ends when the leaf blowers begin to blow dirt and grass clippings at decibel levels that forces me to turn off my cochlear processor.

27

29

During those frustrating hours, my normal activities are restricted. I am unable to easily communicate. I develop some anxiety and I actually feel handicapped. I experience hours of tinnitus following because of the loud sounds.

33

02:11PM 30

Friends of mine who are blind cannot cross the street safely because they cannot hear approaching cars and trucks and are forced to wait for the noise to end. Even some well-trained guide dogs can be distracted by this. People with mobility limitations, wheel chairs and walkers, cannot quickly escape the clouds of dirt and other pollutants.

40 41

My daughter teaches children with autism in Suffolk County. have noise-cancelling head phones in all classrooms because many students are sound sensitive and hyper responsive to noise. Children wear headphones at home to prevent extreme behavioral responses. Any steps taken by the County that lessens or eliminates the use of gas leaf blowers is welcomed by persons with disabilities and without disabilities. Thank you for listening and, again, Happy Earth Day.

48 49

CHAIRPERSON KRUPSKI:

50 Thank you, Leonard. Peter Calcandy; and on deck Aaron Lopez.

51 52 53

MR. CALCANDY:

Good afternoon. My name is Peter Calcandy. Candy and I reside at 183 Vineyard Road, Huntington. And I've lived there for 30 years. In 2014 we spent thousands of dollars to landscape our property,

rebuild our patio and we also purchased new lawn furniture preparing for our retirement. We envisioned spending our last years enjoying each other and the company of our friends in our little oasis behind our home. Unfortunately, it wasn't meant to be. From March through December there is no escaping the high pitch winding drone of two cycle leaf blowers and the loud noise of mowers, hedge trimmers and edgers. They penetrate through the walls and windows and disrupt entire neighborhoods. And furthermore they pollute our air and water. Our beautiful neighborhoods have turned into noisy, polluted industrial zones.

02:13PM 10 11

At first it was about the noise. But once I learned how dirty and hazardous this equipment is, I took notice and joined Huntington CALM, the Citizens Appeal for Leaf Blower Moderation to do something about it.

16

21

Two cycle gas leaf blowers operate over 200 miles an hour, which is equivalent to a EF 5 tornado and it blows all sorts of unsavory particulate matter including silica, mold, fungal spores, pesticides, fertilizers, heavy metals and animal feces. Approximately five pounds of particulate matter per leaf blower per hour are blown into the air and can take hours and even days to settle. Although you may not see this, the small particulate matter is there and any doctor can you it's the small particles you ingest into your lungs what will harm you. This matter precipitates asthmas attacks, exacerbates allergies and can cause lung cancer. It also contributes to cardiac conditions such as an arrythmia.

27 28

02:14PM 30

02:13PM 20

Gas leaf blowers use two strike engines, which are highly polluting. Twenty-five or more of the gas oil mix used in a two stroke engine goes unburned directly into the atmosphere. The hydrocarbon cocktail contains carbon monoxides, sulfur dioxide nitrogen oxide, formaldehyde benzine and other air pollutants, some of which have been shown to cause cancer.

35 36

37

38

45

47

49

5152

53

54

The maintenance worker is most susceptible to injury from operating this equipment. Imagine working all day with a running lawnmower strapped to your back. The stress and strain from an operating gas engine isn't what the human body was designed to support. The maintenance worker is also forced to work in an invisible cloud of unburned gas oil which is nonetheless along with all the other nasties that are blown around his body.

43

02:14PM 40

I realize asking the County to enable legislation on restricting two cycle leaf blowers by commercial landscapers that are licensed by Suffolk County during the summer is a tall order. I hope you take the first step and approve without delay the Department of Public Works pile of project proposal to test safe, clean, zero-emission lithium ion battery equipment that is before you today. Thank you.

02:15PM 50

CHAIRPERSON KRUPSKI:

Thank you, Peter. Aaron; and on deck Kevin Moran.

MR. LOPEZ:

Good afternoon. My name is Aaron Watkins Lopes. I'm the organizer for the Long Island Bus Riders Union. On April 4th, the committee that was created -- the task force, rather, to make -- to become an advisory kind of to Suffolk County Transit met. And it was brought to the attention of this task force that there is now a -- well, since November there has been ongoing surveying and research being done about our bus system. And that it was only six months that we have these this consultants for.

10 11

21

25

So, for the Legislators that were at the meeting, you know, there were some really good questions asked. But one of the biggest problems that kind of was flagged was that here we are in April and they haven't begun the public process of finding out what's actually happening on these buses. It was kind of brought to our attention that all of the data that they're using is public census data that we can all access. It's nothing groundbreaking. And I think for \$125,000 for six months we should be getting a little bit more deeper input than that. I know that Paul is going to talk about it a little bit more, but they only just recently started looking for people to do the on bus, kind of, demographic survey. They're supposed to be starting this -- they're training for this on Monday and they sent out their first kind of Craig's List ad on -- yesterday.

02:16PM 20

I think this is a little problematic. I think this is definitely something that we need to be talking to the Department of Economic Development as well as this consulting firm, how much data they are planning on generating and collecting. I think that we need to know. I think that hiring people or looking to hire people three days before you want to train them in collecting data especially

02:17PM 30

days before you want to train them in collecting data, especially demographic data, is not the most efficient way to go about it. I definitely want to make sure Suffolk County's getting the most bang for their buck.

3

02:17PM 40

Secondly, I do feel that Suffolk County really got gypped in this last Governor's budget. I really think that we got screwed over. Really. There was a lot of talk in the Assembly and the Senate that there was working being done to get additional monies for Nassau and Suffolk as well as Westchester. And we've seen nothing come to fruition. I've looked over the budget. I know many of you have probably looked over that budget and we were left out. I think that Suffolk County needs to make a statement. I think we really need to call out our local senators for the fact that they once again have not delivered for Suffolk County. Five hundred and six hundred thousand dollars is nothing. That is four new buses. It's absolutely nothing.

47

49

I do also feel that we -- the way that Suffolk County Transit had been implementing some of their newer technological advancements have not been the most efficient. I don't understand why we're about to get 30 new buses in June; yet we just spent the money, the time and the manpower to fix the old buses with the new card machines, the new fare machines. I don't really think that is the most effective way to do it. I wonder what the cost analysis would have been if we just just pushed off the new fare machines for

02:18PM 50

* Index Included at End of Transcript

another two months and put them on the new buses instead of having to take them off of the old buses, refit them onto the new buses and continue forward.

4

That's all I really have to say today. I think there's just some deeper research that needs to be done by both the partners that we're working with outside of the County as well as some of the internal workings. And that's all.

9

7

CHAIRPERSON KRUPSKI:

Thank you, Aaron. Hang on one second now because Legislator Fleming ran that meeting in the County Center, that transportation meeting, and she has some questions for you.

14

LEG. FLEMING:

Right. Well, first of all I just want to thank you, Aaron, for participating. I do think although it's a limited step, it is a step in the right direction in part because of your participation and the others around the horseshoe. So thank you very much.

20 21

22

You know, folks should know that it's been a little bit of a challenge, but the consultants are aware of the level of expertise around the table at the working group. And, you know, I'll update the group further at the next meeting but you should know that based -- first of all, Deputy Commissioner Bekofsky did put to the consultants in writing the questions that were raised at committee. And I think the result that they're doing this survey is an indication because they were not intending to do it from what we were presented. So I think we've already, at least, tried -- at least been successful in our efforts to get some recognition from the folks on the ground and you're one of them and thank you for that.

02:20PM 30

33 34

32

I actually have composed some additional questions based on what my interpretation of the discussion was at the working group and I'll be putting them to the consultants as well. I'm told by the Commissioner that the consultants have a limited budget. We weren't -- the Legislature wasn't really aware of how that budget was being allocated. So there's a lot of communication that still needs to happen.

Your point about Albany is excellent. Very disappointing and the

02:20PM 40

fight is not over. One of the things that was suggested at the working group was that the consultants put some effort into garnering state funding. And I know that our Presiding Officer is working on lobbying efforts as well. There are others as well but your points are well taken; it was a disappointing outcome of the state budget. But you should know that the working group is fighting uphill but we are -- we've gotten some attention from folks who are going to be making some decisions about the buses.

fighting uphill but we are -- we've gotten some attention from folks who are going to be making some decisions about the buses.

And I just wanted to thank you for your participation. Obviously we'll be -- we who are organizing the effort will be continuing to get the information out. And at our next meeting we've got an awful lot to talk about. Thank you, Aaron.

MR. LOPEZ:

No, thank you. And just also something else, I don't know if this is a question that you can pose to the consultants or whatever, but

I think we need to find out who's going to be paying these

part-timers. I mean, the job description is four weeks of 13-hour a day shifts of part-time work; \$15 an hour, which is pretty great. But I don't know if that's coming from the County, if the County's

paying that or if there's a subcontract going on with these

consultants that they're going to be paying them but I think that's definitely something we need to look into as well. 02:22PM 10

12

13

LEG. FLEMING:

I appreciate that. And we should. And where did you get the detailed information that you're providing now?

16

17

21

23 24

2.5

MR. LOPEZ:

Honestly, I got it off of Craig's List. You can go. It was up yesterday about 17 hours when I looked this morning, was when it got posted. So it's on Craig's List under the -- I think it is --Paul has all of the exact details, but it was on Craig's List under Suffolk County. If you go to, like, the Civil Service area and then it's -- they're looking for part-time workers for the next four weeks.

02:22PM 20

LEG. FLEMING:

Thank you for your information.

27 MR. LOPEZ: 28

29 Thank you.

02:22PM 30

CHAIRPERSON KRUPSKI:

Don't go, Aaron. Legislator Trotta's got a question. 32

33 34

LEG. TROTTA:

What is your understanding of what this survey is going to be about?

36 37 38

35

MR. LOPEZ:

02:22PM 40

From what we were told at the -- well, I mean from what it says on line, it just says that they're looking to do a demographic survey of bus riders. It also was misnomered and it looked like -- and it said that they were looking for SCAT surveyors when in reality we know that hopefully they should be looking for fixed route

surveyors. Once again, this company after doing some more research on Paul's end is not even in New York; they're from Texas. don't work locally. The ad was kind of weird. But they're looking to just get a demographic breakdown of bus riders. It says SCAT, 47

but I think that they mean on the fixed route buses, which, I mean,

we have that data already. 49

02:23PM 50

LEG. TROTTA:

51 Of who's riding. So what you're saying is it's your impression that they're doing something that we're already doing.

54

MR. LOPEZ:

I think that they're doing something that we already know. We know

who's riding the bus. I think we need to know who's not riding the bus that we need to get onto the bus. I think that's the biggest problem here. And that was something that we brought up at the task force, is that we know who's riding the bus already. They've been riding the bus for a while and they will continue as long as the buses are there. What we need to know is how do we get people that aren't on the bus to the bus. And that's not what this survey seems to be doing. It just seems to be talking to the people we already know are on the bus.

02:24PM 10

11

12

16

21

22 23

24

LEG. TROTTA:

Okay.

CHAIRPERSON KRUPSKI:

So, I'm going to -- thank you. And I think -- I think we're done; go to the next speaker, but I want to get -- I know Paul Pressman is on the list to speak on this issue. After he speaks and relates his concerns, we're going to ask the Commissioner if he can answer some of those questions about the -- he's not in the department, but at least maybe he'll answer some of the questions about survey and how -- how it could be -- if we're going to spend \$125,000, at least, it could be hopefully useful. So thank you.

02:24PM 20

MR. LOPEZ:

25 Thank you, Legislator.

27

CHAIRPERSON KRUPSKI:

Kevin Moran; and on deck Peter Baldwin.

MR. MORAN:

Good afternoon. My name is Kevin Moran. I'm with the Long Island Builders Institute. And I will be reading off a memorandum of opposition from LIBI and the LIA Association. This is to resolution 1169.

34 36 37

38

45

49

53

02:25PM 40

"Development projects on Long Island are faced with extensive permit requirements, substantial financing costs and Article 78 litigation which delays and increases the cost of doing business in Suffolk County. In addition, as our water resource needs become more prominent, it is very important for our projects to connect to county sewers, many of which are paid for solely by the developer involved and not the County. There is no evidence at all which is presented which indicates that companies which do not have apprentice programs do not pay fair wages or do not hire Long Island contractors. Flexibility is necessary in these larger projects, especially after the millions of dollars our developers put into the projects for infrastructure mitigation and other benefits. Suffolk County should welcome these large developments and sewer connections as the project creates jobs, provides housing for our young people as well environmental protection through the developer-funded sewer systems.

02:25PM 50

In addition, almost all state license apprentice programs are operated by labor unions. No company should be forced to use labor union for its workers, but that company should be able to bid as

all other companies can. One should not be forced to use a

```
specific type of company, but that is what this legislation would
          accomplish. A sewer connection is not a gift to a developer.
         is a partnership with a larger community to provide economic
          benefits and environmental protection. In these times of
          significant county budgetary issues, large scale developments
         substantially add to county and local real property tax
          collections. It is essential that the County work with developers
         who are willing to invest millions of dollars in our community and
         not to limit the flexibility needed to make these projects succeed.
          We respectfully request that you oppose this legislation.
02:26PM 10
          you."
      11
      12
          CHAIRPERSON KRUPSKI:
      13
         One -- Kevin?
      14
      15
         MR. MORAN:
      16
         Sure.
      17
      18
         CHAIRPERSON KRUPSKI:
      19
         Legislator Browning has a question.
02:27PM 20
      21
         MR. MORAN:
      22
         Hi.
      23
      24
         LEG. BROWNING:
      2.5
         Hi, Kevin; nice to see you.
      27
          MR. MORAN:
      28
      29
         Nice to see you, too.
02:27PM 30
         LEG. BROWNING:
      31
         I am tabling this again.
      32
      33
         MR. MORAN:
      34
         Okay.
      35
      36
         LEG. BROWNING:
      37
         I'm still working on it. But I think really -- what's important
      38
         here is, while you're saying that many projects hire local labor,
         that's not -- in fact, not true.
02:27PM 40
      41
         MR. MORAN:
      42
      43
         Okay.
      44
         LEG. BROWNING:
      45
         There are many times that we as Legislators have seen companies
         from Florida, from South Carolina, in fact, in my own district
      47
          there was -- in the Village of Bellport, there was a project.
          the plumbing company and the employees were from South Carolina.
      49
      50
          MR. MORAN:
      51
         Okay.
      52
      53
         LEG. BROWNING:
      54
         So I have other issues with hooking up -- continuing to hook up to
         the Southwest Sewer District. When we want to talk about
```

environmental issues, and Al and I talk often about salt water intrusion and the impact on the Southwest Sewer District, to continually send everything down there. But I think this will be tweaked.

MR. MORAN:

Okay.

7

16

17

21

LEG. BROWNING:

02:28PM 10

But I think projects that are so large, and they want to hook up to a municipal sewer district, I think, as a level of government that we should be seeing that if there's people are going to work on that, don't you think they should be local workers? So -- because they're going to be the people who are going to be living there, spending their money there. So that -- that is -- my question for you is, is don't you think these large projects should have local workers, not necessarily because not all apprenticeship programs are union, many of them are -- there are other organizations that have apprenticeship programs. And it's not forcing union labor, but forcing local labor. And so you can tell me you'll agree with hiring local labor for jobs, right?

02:28PM 20

22 MR. MORAN: 23

> Yes, I wouldn't disagree with that. 24

LEG. BROWNING:

Okay. Thank you. 27

29

2.5

MR. MORAN:

Welcome. 02:29PM 30 31

32

CHAIRPERSON KRUPSKI:

Okay. Thank you. Peter Baldwin; and on deck Paul Pressman.

33 34 35

36

38

49

MR. BALDWIN:

My name is Peter Baldwin. I'm a resident of Southampton and also Riverside. I live in Riverwoods, a mobile home community less than a half mile from the circle.

02:29PM 40

What I'm -- I'm asking that you would appropriate the funds and we could start the circle as soon as possible. Because the way they're going to do it with the closings, it won't really affect Riverwoods that much except when they go out during the day. the traffic is so bad during the week, and when the County is open, that it's absolutely impossible to work the circle in five minutes. I come out of Riverwoods and I can take 10 to 15 minutes just to get to the circle. And I know there's a lot of other things they're going to do with the circle, other ways of re-routing the traffic from the County Center; but the sooner we get started with it, the better.

02:30PM 50

51 Because when -- if they close one lane and it's going to be closed during the day, which might not be, they're supposed to clean it back up so they can use it, but if they do come to a point where they can't use part of the road, it's just going to make it worse and worse. And the people from Riverwoods are not even to go out

at all because that's a retirement community, they won't even come out to get on the road. And they'll have no way of going anywhere. It's just going to be everything backed up. So the sooner we get started on it, the better, we can get it completed. Thank you.

7

02:30PM 10

CHAIRPERSON KRUPSKI:

Thank you. And I'm going to ask Chief Engineer, Bill Hillman, to give an update after -- after we're done with the Public Portion. I have to say County DPW did a wonderful job at rebuilding Roanoke Avenue, which went from the circle by the -- went from Riverhead town into the circle by the hospital. So they had the hospital to deal with, the school to deal with and the firehouse. And they did a wonderful job of keeping traffic flowing. So they have a good track record and I'm sure he'll be happy -- very happy to speak. But after we get done with the Public Portion. Thank you.

16

Paul Pressman; and on deck Joseph Tapler.

17 18 19

21

MR. PRESSMAN:

02:31PM 20

Good afternoon, Legislators. I was at the meeting of the first workman's meeting for transportation, which I thought was the first positive meeting in transportation with the buses in a long, long And I saw the ad in Craig's List yesterday. I answered the ad in Craig's List. I got the people's names this morning and spent a half hour with the staffing agency that is doing this. This staffing agency is in Austin, Texas. It is called A Plus I spoke to the lady who put the ad in. Apparently what this ad is for, as Aaron described, they want somebody to work from 6 AM to 9 PM Tuesday, Wednesday and Thursday, 15 hours a day; and they want you -- they're going to start you off either in

02:32PM 30

Amityville, Babylon, Bay Shore, Coram or Riverhead where all the major bus lines go. And what they want you to do is ride the bus all day long.

33

45

49

They want you -- you're going to have a tablet, you're going to be asking the riders questions. I don't know exactly what all the questions are going to be, but I do know that this is -- that the staffing agency got this from ECT Planning who, I assume, has something to do with the people -- with these consultants. the consultants weren't going to do anything until they were bombarded at that meeting by Legislator Fleming and all the people on that staff. And they asked questions that he couldn't answer one thing about. And I know he went right back to the consultants.

02:33PM 40

And I had a 45-minute discussion yesterday with Darnel about some other issues about the fare boxes and everything else which I'll save for another day because this is more important right now. what is happening here is -- and I tried to find out, too, who is paying for this. I mean the County is paying \$135,000 to get another study done. It's been done every year for the last five years. And like I said -- and this is very important.

02:33PM 50

One thing is very important that I don't think you Legislators understand or know, these new bus schedules that they're talking about coming out in July, they are not changing one bus route.

Nothing is being changed. All they are doing is changing the times

of the buses that are running right now to make up for -- in other words, if Babylon bus runs every hour, the S 40 runs every hour from Babylon to Patchogue, and they assume it takes 55 minutes in one direction and 60 minutes in another, now with traffic and everything, if they think it's going to take an hour and 15 minutes, then the bus is going to go at that time -- it's still going to run every hour half, but it's going to run every half hour on an hour and 15 minute schedule rather than an hour schedule. That's all they're doing with the buses. They're not adding buses; they're not doing anything to make it any better than what it is.

02:34PM 10 11

And this other survey thing, what is the sense of talking to the people on the bus? I mean, it's the same people that ride the bus. It's not getting anybody new. I mean, not for nothing, I can get on the bus, I can could tell them everything they want to know and I wouldn't even charge them \$135,000. I'll charge them half as much. I've already offered to do it for nothing and nobody wants to talk to anybody. I've taken every bus in this County. I have taken every one.

19 20 21

22

23

27

28

29

And one last thing I want to say, and I think this is very important, I want to understand, and I tried -- I called 20 times to Educational Bus. And their answer to me was call Suffolk County Transit. I want to know why whenever there's a public hearing, whenever there's anything, why does Mr. Grimaldi show up; why does Hampton Jitney show up; and why does Sunrise show up when the County is paying EBT to run bus service and they never show up for anything? And I asked them that question. Their answer to me was call Suffolk transit, so --

02:35PM 30

CHAIRPERSON KRUPSKI:

All right, thank you, Paul.

32 33 34

MR. PRESSMAN:

If I get any other information, I will be here after the meeting, I will tell you anything you need to know.

36 37

CHAIRPERSON KRUPSKI:

Legislator Fleming has a question; and Legislator Browning has one, also.

02:36PM 40 41

LEG. BROWNING:

43 Craig's List.

44 45

MR. PRESSMAN:

I have it right on my phone. And I also have the application because I wrote to them and she wants to hire me tomorrow. She just wants me to fill out the application.

48 49 50

47

P.O. GREGORY:

51 Can I be a reference, Paul?

52 53

MR. PRESSMAN:

Absolutely.

56

```
4/21/2017 Public Works, Transportation & Energy Committee
          LEG. FLEMING:
          Mr. Chair, I just wanted to clarify regarding the EBT. You know,
          it's a big committee and there's so many moving parts in the bus
          situation in Suffolk County, it was -- I think it was my error that
          they were not at that meeting. I have reached out to them. We
          missed phone calls. I have several phone messages right now to respond to from Mr. Gambini so -- Gambini? Grimaldi. Ron from EBT
       7
       9
          MR. PRESSMAN:
      10
          Mr. Grimaldi is from Suffolk Bus.
      11
      12
          LEG. FLEMING:
      13
          Yeah, it's not Mr. Grimaldi. It's Mr. Gambini, correct? From EBT.
      14
      15
          MR. PRESSMAN:
      16
          Okay.
      17
      18
          LEG. FLEMING:
      19
          At any rate, they will be involved in the discussions. And if they
02:37PM 20
          haven't been to date, I want to take that on as my responsibility
      22
      23
          MR. PRESSMAN:
      24
          That's fair enough. It's just they run --
      2.5
          LEG. FLEMING:
      27
          There are so many different people running the buses.
      28
      29
          MR. PRESSMAN:
      30
          -- they run (unintelligible) and that's one of the biggest bus
      31
          routes, you know, that goes down 110. That's one of the biggest
      32
          bus routes in the County.
      33
      34
          LEG. FLEMING:
      35
          Right. It's been a lot putting all the puzzle pieces together but
      36
          we do --
      37
      38
          MR. PRESSMAN:
          You've done a heck of a job, I will say that.
     40
02:37PM
      41
          LEG. FLEMING:
      42
          Well, thank you, Paul.
      43
          MR. PRESSMAN:
      45
          And you know I'm the biggest pain in the ass and the biggest
          complainer, but I'm telling you it's going in the right direction.
      47
          LEG. FLEMING:
      49
02:37PM 50
      51
```

I want the record to reflect that I'm making no comment in response to that.

MR. PRESSMAN:

54 (Laughter)

55 56

52

LEG. FLEMING:

But, anyway, don't worry about it. They will be in on the discussion. We're trading phone calls right now. Thank you.

4

CHAIRPERSON KRUPSKI:

And, Paul, I think the other Legislators have a question for you, but the points that you brought up and the points that Aaron brought up are the same that we brought up doing that meeting. I we're going to pay for this study, who's providing the input, you know, and what -- and then what do we hope to get out of that study; and what are we going to do with that, you know, that that information. So Legislator Trotta or Browning.

02:37PM 10

LEG. TROTTA:

I just want to know what the -- Craig's List, what's it under.

15 16 17

18

21

22

27

29

31

14

MR. PRESSMAN:

02:38PM 20

If you look under part-time, they put the ad in three times. And if -- you gotta go to Craig's List, Long Island. And then when you go to the job thing, if you look under customer service on yesterday's date, it's in there once and it's under part-time three times. And they put mistake in there and they put in SCAT. And, by the way, I spoke to Tom {Cronel} from Suffolk Bus yet this morning at 6:30 in the morning to ask him about that. And he says that Ray knew something about it, but didn't -- but thought it had to do with the regular buses. He said he knew something about it, but he didn't -- but they didn't know exactly what it was. And I'm actually waiting for a call back from Tom, but he's got a training session today so I probably won't get him until Monday.

02:39PM 30

CHAIRPERSON KRUPSKI:

Thank you, Paul.

32 33 34

MR. PRESSMAN:

You're welcome. Thank you.

35 36 37

CHAIRPERSON KRUPSKI:

38 Last card I have is Joseph Tapler.

39 40 **L**

LEG. BROWNING:

41 Thank you, Paul. I found it.

42 43

MR. PRESSMAN:

Welcome.

45 46

MR. TAPLER:

Hello. My name is Joseph Tapler. I'm representing the Rocky Point School District. We wanted to share our support for resolutions 1245 and 1267, those regarding roadside safety.

50

We also would request once approved, we would like guardrails installed in -- around our school building between our building and the shopping center just to our north. It is a major thoroughfare for student foot traffic before and after school. I have a photograph here showing the students walking down the sidewalk. Now last year part of what spurred this request, we had someone

under the influence of inhalants pass out at the wheel of his car and rolled across that sidewalk into our fence lodging itself against the fence and guardrail behind it. So the guardrail is on the wrong side. With the improving weather, students are going to be more apt to be on foot between our building and other destinations. We have seniors that park their cars there. We have athletes after school that go there to get lunch and come back.

8

02:40PM 10

The biggest impetus, the driving force behind all this is that 1974 a car crossed one of our properties and mowed into a group of second graders killing one and injuring 14 others; two of them permanently disabled. In August of that year, after the accident, the County decided to put in a guardrail. We're trying to avoid that. So if this is approved, we would like the funding immediately to be appropriated to install this safety barrier for our students and anybody else that happened to be walking along that sidewalk there so it doesn't happen again.

17 18 19

21

27

33

36

37

Now, I have some numbers here. That roadway in a traffic study done by the County in 2015, November, northbound and southbound in one given week, about 10,000 cars traversed that area. About two thousand as a daily average during the week. In the morning between the hours of 6 AM, 8 AM you have an average of 221 cars; afternoons average 300 between one and three. That's when most of our kids are out there.

25

02:41PM 30

02:41PM 20

Now, all it takes is one more incident where somebody decides to lose control of their vehicle, be texting, inhaled the wrong thing. And if our students are walking along that sidewalk, we're going to have the same issue that we had about 40 years ago or so. So before that gets to that point, I think, we should be proactive rather than reactive. So, again, we strongly support 1245 and 1267 for that reason -- for these reasons.

02:42PM

I created copies of everything we've been working on and I put it into a binder here. If I can leave it with the Chairman for their review?

38

40 41

CHAIRPERSON KRUPSKI:

Please. Give it to the Clerk. Thank you.

42 MR. TAPLER:

Thank you for your time.

43 44 45

CHAIRPERSON KRUPSKI:

46 Wait, we have a few questions for you.

47 48

MR. TAPLER:

49 Sure.

02:42PM 50

CHAIRPERSON KRUPSKI:

Thank you. First I'm going to let Legislator Anker ask a question. She might be asking the same ones that I have, so go ahead.

54

51

LEG. ANKER:

56 I want to thank you for coming here today. I know we've been

```
4/21/2017 Public Works, Transportation & Energy Committee
          working on this issue for three or four years.
       2
          MR. TAPLER:
       3
          Yes.
          LEG. ANKER:
          But I believe the -- now you're referring to the elementary school
       7
          that had the guardrail put in front of it years ago?
          MR. TAPLER:
      10
          That's the Edgar school on 25A.
      11
      12
          LEG. ANKER:
      13
          So that's a--
      14
      15
          MR. TAPLER:
      16
          Smaller town at that but still a lot of tenants.
      17
      18
         LEG. ANKER:
      19
         Right. Absolutely. And that's New York State Road. That's a New
02:42PM 20
          York State and then that was a town -- actually they're both New
      21
          York State roads.
      22
      23
          MR. TAPLER:
      24
          Actually 25A -- for some reason there's an -- the article of August
          22nd of that year that I found stated that the County was working
          on a guardrail for that road. Why, I don't know. I know it's a
          state road. But County Road 21, the one that runs north and south
          in front of our building, that is, in fact, a county road.
02:43PM 30
          LEG. ANKER:
      31
          Absolutely. And, again, we've met with the Superintendent, some school board members, yourself. We actually -- Gil Anderson, the
          Commissioner of our DPW actually personally went there to meet with
          you so this is a high priority. And considering what we're dealing with, with Miller place and the intersection losing a 14-year-old
          on a bike accident, this is our top priority, children's safety.
          And we do appreciate your attention and your partnership with this
          project. Thank you.
      39
      40
          MR. TAPLER:
      41
          Absolutely, thank you. I would just request very strongly that it
      42
      43
          is done as soon as possible, if we could.
      44
          CHAIRPERSON KRUPSKI:
      45
      46
```

I do have a question. So it's on the -- that Rocky Point Yaphank Road? 47

MR. TAPLER:

Yes, sir. 50

CHAIRPERSON KRUPSKI:

That's what you're talking about. You're concerned about the 53 safety. Is a guide rail going to stop a car?

55 56

48

49

MR. TAPLER:

2 Yes, sir.

3

CHAIRPERSON KRUPSKI:

It will. All right. Because I was under the impression that a guide rail would not.

7

12

MR. TAPLER:

9 02:44PM 10 It stopped the one that crossed the sidewalk. After it crossed the sidewalk.

11

CHAIRPERSON KRUPSKI:

Is the school -- as government wheels turn slowly, you said you been working on this for four years, is the school, if it's deemed really dangerous, would the school consider putting up guide rails on its own --

17 18

19

21

MR. TAPLER:

What we did was -- sorry.

02:44PM 20

CHAIRPERSON KRUPSKI:

-- (inaudible) for someone else to put it up?

22 23 24

MR. TAPLER:

What we did was -- now the guide rail is not on our property. The guide rail is on the sidewalk between the north end of our property and the Kohl's Shopping Center, which is an aerial shot in the air. And it's a very popular place, pizza place, bagel, all the kids go there. So it's on that stretch right there that's, I think, most important.

02:45PM 30

31

What we did for our part, the district spent a ton of money on paving a pathway across our front lawn basically to the corner of the property where our property ended and put in all kinds of signage and everything else to keep our kids from going out the front entrance and then being in that photograph again. So they're not in that spot where you see them in the picture anymore.

38

02:45PM 40 41 But now north of us we have 374 point something feet of open space. And one of the turn-offs in that space is a heavy trucking entrance for the shopping center. And it comes right at them and turns in front of them because it's a split area. Very, very dangerous. It only takes one time and you have thousands of cars everyday north and south everyday and in those hours. It's absolutely vital that it's done. And in the meantime Jersey barriers, anything placed there would be greatly appreciated before there's an issue.

46

43

45

CHAIRPERSON KRUPSKI:

49 And whose property is that?

02:46PM 50

MR. TAPLER:

That would be the sidewalk. I guess it's the county property if it's a county road.

54

51

CHAIRPERSON KRUPSKI:

56 All right. I'll ask the Commissioner when they come up; we'll be

```
4/21/2017 Public Works, Transportation & Energy Committee
         discussing this, you know, later on during the meeting.
         MR. TAPLER:
         Absolutely. And, again, the district has done everything they can
         up to their fence line to keep it safe. And, you know, school
         safety is a top priority now. And, again, anything you can do
         would be greatly appreciated.
         CHAIRPERSON KRUPSKI:
      9
         Thank you.
      10
      11
         MR. TAPLER:
      12
         Thank you.
      13
      14
         CHAIRPERSON KRUPSKI:
         That's all the cards we have. Is there anyone else in the public
         who would like to address the Committee before we start the
         meeting?
      18
                                  TABLED RESOLUTIONS
      19
      20
         Seeing none, we'll start with Tabled Resolutions. (IR 1131)
      21
         Developing a comprehensive renewable energy construction plan for
      22
         Suffolk County, IR 1131. (Browning). What's your pleasure,
      23
         Legislator Browing?
      24
      2.5
         LEG. BROWNING:
         Yes, we will table that one. Thank you.
      27
         CHAIRPERSON KRUPSKI:
         All right. Motion to table Legislator Browning; second by
02:46PM 30
         Legislator Calarco. All in favor? Opposed? Abstentions?
         moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG.
         MURATORE NOT PRESENT)
      33
         IR 1169, Adopting (Local Law No. -2017), A Local Law to establish a
      35
         sewer connection policy to foster economic growth in Suffolk
      36
         County. (Browning).
      37
      38
         LEG. BROWNING:
      39
         Same motion, table.
      40
      41
         CHAIRPERSON KRUPSKI:
      42
      43
```

Same motion, same second. All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT).

INTRODUCTORY PRIME

New Introductory Resolutions IR 1199-17, Authorizing illumination of the H. Lee Dennison Executive Office Building for Judy's Run for Stroke Awareness. (Kennedy). Motion by Legislator Fleming; second by Legislator Gregory. All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT)

IR 1200-17, Amending the 2017 Capital Budget and Program and

45 46

47 48

49

53

appropriating funds in connection with Traffic Signal Improvements (CP 5054). (Browning).

3

LEG. CALARCO:

Motion.

5

7

CHAIRPERSON KRUPSKI:

Motion by Legislator Calarco; second by Legislator Stern. On the motion, Commissioner.

02:48PM 10

COMMISSIONER ANDERSON:

Good afternoon. The resolution before you today requests funding, -- one second -- this is 1200, right?

13 14 15

11

12

CHAIRPERSON KRUPSKI:

16 Yes.

17 18

COMMISSIONER ANDERSON:

02:48PM 20

Is providing funding for construction of a traffic signal at the intersection of -- bear with me --

21

CHAIRPERSON KRUPSKI:

Harrison and 101?

22232425

COMMISSIONER ANDERSON:

26 27 28

> 31 32

33

35

36

37

43

45

47

Yes, Harrison and County Road 101. There was a warrant study that was done previously. It was completed for this intersection and determined that the traffic signal is not warranted at this time. The resolution does not directly order the installation of the traffic signal, but rather it funds construction of a traffic signal and directs us to take the appropriate steps.

02:48PM 30

As the department warrant's study determined that the required warrants were not met, we do not intend at this time to install a traffic signal; however the department is developing three or four alternatives, improvements at this intersection. They're being analyzed at this time by our consultant.

38

CHAIRPERSON KRUPSKI:

02:49PM 40

I did take a look at this intersection this morning. And -- you know, but the question I had for you was if you go down Harrison -- that's the only -- I think only un-signalized -- that's a heavily trafficked and heavily signalized stretch of road there at 101. So if you lived in that neighborhood on the east side of Harrison between Harrison and the dump, you can just come out to the next intersection and you could make -- there's a light there. That's to the north.

48 49

COMMISSIONER ANDERSON:

02:49PM 50

51

CHAIRPERSON KRUPSKI:

And is that why you didn't recommend or the study didn't recommend placing another light on 101?

56

Correct.

COMMISSIONER ANDERSON:

There are certain warrants that have to be met in order to validate the installation of a traffic signal. So these were looked at by our staff and by our consultant doing the work. Bill could probably give you more detail on what those warrants are, but, you know, accident history, traffic volumes as well as the ability to maneuver out safely, you know. As you said there is a signal down the road at this point that would serve the purpose if somebody wanted to make a turn under a signalized intersection; however, given the history of the amount of volume runs through there, left turns are made safely on a, you know, consistent basis. So we don't feel it's warranted.

CHAIRPERSON KRUPSKI:

Any other comment on that?

16 17

14

15

18

21

LEG. BROWNING:

I mean, I can start. I know that there was recently a meeting in the community. And Rob and my aide Josh were there. And I believe that there's -- yeah, there's a few ideas that have been floated around. And, you know, the ambulance company, having spoken with them and the fire department and, you know, how many more accidents do we need to warrant doing something. And, you know, I certainly respect your opinion on this, but, you know, talking about doing a study that's actually going to cost more than a traffic light to decide what you're going to do.

26 27

02:51PM 30

02:51PM 20

And I could tell you I know one side of the road is Rob's. The other side is mine. And, you know, any time there's an accident, we get the phone call. And, you know, there's a local civic leader who's reached out to us also about this intersection and said *look*, something really needs to get done. If you take a look at it, you see it's a four-lane highway.

CHAIRPERSON KRUPSKI:

36 No, I was on it this morning.

37 38 **LE**

33

35

40

41

LEG. BROWNING:

It's not unlike 111.

02:52PM

CHAIRPERSON KRUPSKI:

Why don't they go to the -- why don't they go to the signal?
There's a light at the next intersection. We drove through the community.

45 46

49

LEG. BROWNING:

If you're coming out of Harrison and you want to go left and head south. If you're coming out from -- and you want to go left, they're going to come out through that intersection where there is no light.

02:52PM 50 51

CHAIRPERSON KRUPSKI:

No, why don't they go to the next intersection where there is a light. It's right up -- it's like one block up.

55 56

LEG. BROWNING:

It's quite a bit up. And I think that, you know, so you're saying that in order to go south they have to out and make a U-turn?

CHAIRPERSON KRUPSKI:

5

No, no, no.

7

COMMISSIONER ANDERSON:

02:52PM 10

I think one of the big problems, again, it gets back to the basic problem is we did a warrant study. And without that warrant study proving out that there is a need for a -- that it doesn't meet whatever those warrants are, we leave the County liable for future lawsuit, for effectively indiscriminately placing a signal at an intersection. I mean, the signal can cause as many problems as it tries to resolve. So that's why we hold to the Vehicle and Traffic Law that mandates the warrant study has to prove out there's a signal needed.

17 18

21

LEG. BROWNING:

02:53PM 20

And I do believe -- and, Rob, I know you were at that meeting, that one of the considerations at that meeting was a traffic light, if I'm not mistaken, correct?

22 23

LEG. CALARCO:

28 29 02:53PM 30 I don't recall exactly. But here's what I, you know, I understand the issue to be. And certainly for the folks on Harrison side, on Legislator Browning's side of the road, they could, I suppose, go to that other intersection. Folks coming out of Hollow Oak cannot, which is my side of this road. And what you have is basically a very large, you know, a two lane -- four lane highway with a very wide median. And what drivers have to do right now and there's quite a bend in the road at this location, to make those turns is they have to venture into the median, stop there and then continue to make their turn. And it is a difficult turn pattern to make. And there have been some accidents in the area.

35

37

45

49

I do respect and understand DPW has taken a look at it. They have offered a number of different potential solutions alternative to a light, one of them being, you know, moving the turn lanes for the north/south on 101, you know, into those medians so to speak. So that those turns are shorter and you don't have to make such a wide turn. But the reality is almost any of the options that are there would actually cost more than just simply installing a traffic light.

02:54PM 40

And it is certainly the feeling of most of the residents that a traffic light at this location would resolve the bulk of their problems, and obviously I think we would want some sort of, you know, light that should probably motion or such so that you can, you know, it would be triggered when people are coming in and out of the neighborhood and not necessarily on a cycle that would impede traffic on 101 on a regular basis.

02:55PM 50

CHAIRPERSON KRUPSKI:

55 And I appreciate that. I saw a horrific accident yesterday. I was 66 up Island and it was a signalized location and there was a three or four car pile up. It was a really sad thing. So a light didn't prevent that accident and a light's not going to prevent, I mean, accidents.

4

7

14

21 22

23

So if we can't rely on engineering and traffic engineers and professionals, we'd be pretty hard pressed from a liability standpoint to rely on, I don't know, elected officials to make these decisions. I mean that -- I think that's why we have engineers that work with the County to help us make those -- make those decisions. So it's kind of a -- at what point, you know, would we base these decisions if we didn't have -- if we didn't have professional help?

02:55PM 10

LEG. BROWNING:

Well, I'll give you an example. Rustic Road in Yaphank, for years and years they have requested a traffic light. And strong opposition. And, I think, it took me probably like five or six years to finally get that light. One of the issues was that the people coming out of that roadway onto County Road 21, you know, the school buses had to make a right, go all the way down, make a complete U-turn to go back up to the left to the school district.

02:56PM 20

You know, you take a look at this intersection, I think, I do believe that a signal will help. And it's been strongly requested by the residents. And I look at it. And like Rob said, you're going to do a study that's going to cost more than the traffic light. And I think that this intersection warrants, because of the -- being a divided highway, does warrant a traffic light. You're going to tell people that they can't make a left turn anymore, good luck with that. Then they better do something with that. You cannot -- you cannot tell people how they can make left or right turns. That's just, you know, human nature. You're not going to force them to do anything unless you completely close off that intersection.

02:57PM 30

And so accidents will continue to happen. And at some point we can wind up getting sued. And I don't know want to hear from the ambulance company anymore about how many times that they've responded to accidents at that intersection. So I don't know if there's a motion, but I'm going to make a motion to approve.

02:57PM 40

CHAIRPERSON KRUPSKI:

There is a motion and a second. But I'm hard pressed to support something that our own department has done the work on, our own engineers have done the work on and said it doesn't warrant at this location because I don't know where it would end if Legislators or elected officials just started saying they need traffic control without any sort of --

49 50

51

52

47

LEG. BROWNING:

And the one on Rustic Road that was opposed -- fiercely opposed, it's working just fine.

53 54

CHAIRPERSON KRUPSKI:

5 Well, I'm glad -- I'm glad, I mean, that it worked out. But I just 6 have a hard time of supporting something like that. So I'll make a

```
4/21/2017 Public Works, Transportation & Energy Committee
          motion to table based on the Commissioner's advice.
       1
       2
          LEG. FLEMING:
       3
          I'll second.
          CHAIRPERSON KRUPSKI:
          Second by Legislator Fleming.
       7
          LEG. TROTTA:
       9
          Did anyone talk about filling the median in there?
02:58PM 10
          COMMISSIONER ANDERSON:
      12
          We have looked at a few alternatives. I'm not sure what they are
      13
          at this point. Bill might be able to provide some detail.
          MR. HILLMAN:
      16
          Yes, there were several alternatives that included modifications to
      17
          movements at the intersection. It did not include the installation
          of a traffic signal and would dramatically increase safety.
          Unfortunately the consultant that we've been using has had several
02:59PM 20
         project managers move on so the project has not moved as swiftly as we would like. I can understand the Legislator's frustration on
      21
          the time this has taken, but knee jerk reaction to the installation
          of a traffic signal is something that we would, you know --
      24
      2.5
          LEG. TROTTA:
          Are we being sued?
                               Does anybody know if we're being sued for any
      27
          accidents here now?
      29
          MR. NOLAN:
      30
          I do not know.
      31
      32
          MR. HILLMAN:
      33
          No, I don't.
      34
      35
          CHAIRPERSON KRUPSKI:
      36
          I mean, you could be -- well, I think you can be sued for putting
      37
          one in, sued for not putting one in. So I don't know if that --
      38
      39
          LEG. TROTTA:
      40
          I don't even know where this is.
      41
          COMMISSIONER ANDERSON:
      43
          If I may, the concern is that if we put one in without the warrant
          study having validated it, that leaves us liable for all kinds of
      45
          things.
      46
      47
          LEG. TROTTA:
```

Can you go over what a warrant study is.

03:00PM 50

49

MR. HILLMAN:
The Manual of Uniform Traffic Control Devices, which is a national manual, outlines seven different criteria that if the intersection meets one of those seven criteria, it's what they call warrants a traffic signal. So there's seven different warrants that we analyze to determine if a traffic signal is necessary or needed.

```
_{1} So it's a nationwide --
```

LEG. TROTTA:

It didn't meet one of those?

5

MR. HILLMAN:

Did not.

7 8

LEG. TROTTA:

03:00PM 10

Is that that book that's written in 1950 or something? Like an old book?

11 12 13

MR. HILLMAN:

I mean, it's been around.

15 16

LEG. TROTTA:

17 It's updated.

18

MR. HILLMAN:

03:01PM 20

It's probably like on its 11th edition. It's updated regularly.

21 22

LEG. TROTTA:

I don't know, it seems like if we just filled, put green there and then made rights and -- rights out of it so you couldn't make a left.

26 27

31

32

41

45

49

51

CHAIRPERSON KRUPSKI:

That would be safer coming from the east side because they could use -- to make a left they could go around the block and go -- there's a signal there.

03:01PM 30

LEG. CALARCO:

I think that was actually one of the options, Legislator Trotta, was to just eliminate all turns at this location, which certainly would not be preferable to the people who live in the communities around here who use this as their main road in and out of their neighborhood, to be limited in their traffic movement. And I think, you know, with all due respect, though, I think you hit a part of the problem when you mention just the timeframe this has been taking. And to be quite honest, I have been working in this district both as a Legislator and as a staffer for -- pushing 12 years now. And this particular problem on this stretch of road has been a persistent problem for those 12 years. And I think that even pre-dates you, your tenure in the department as our chief engineer.

03:01PM 40

And it's that level of frustration that we have gotten to where we simply still do not have an answer of how we're going to fix the problem for this community to give them a safe entrance and exit. And it was just a year ago we had a horrific accident at this location where somebody was hit because, I think, part of what we are seeing with the road is its design here now, which is why some of your suggestions in terms of moving those turn lanes comes about is because there is a bend in the road. It's not just a straight shot at this location. There is a curve which does limit your site line and make it slightly more difficult and dangerous to make

those turns without -- without have assistance to both enter and exit the neighborhoods as well as to turn into those neighborhoods.

So I know it's not usual for us to ask to do this when the department doesn't determine it to be warranted. But it's also not something that we've never done. I know we've done it for the Rustic Road location in Yaphank. We've done it for a location in You know, from time to time we decide that we would rather install the light and have it up and running and operational as opposed some of the other engineering options that, quite honestly, are more costly.

03:03PM 10

CHAIRPERSON KRUPSKI: Well, I'd hate to see us put up a light -- I thought you were 14

almost going to say "and take our chances," because that almost seems like what we would be doing if we just put the light up.

18

21

LEG. CALARCO:

03:03PM 20

Well, I guess the question I have, and I understand the -- that we want to do things under warrant where it's appropriate. But what is the safety hazard of having a light up? I mean, are we saying that putting a traffic light up is going to create a larger safety hazard than having a road where you have a very difficult intersection to traverse? The reason for not putting the light up is because we haven't had enough accidents, if I'm not mistaken, and maybe Bill can correct me, but we haven't seen enough accidents to warrant a traffic light to make -- as needed to make the intersection safer; not that, you know, putting a traffic light up would make the intersection more dangerous. Is that what you're -was being alluded to? Because that's what I think you're alluding to and --

31 33

CHAIRPERSON KRUPSKI:

No, I don't know that it would make it -- I have no idea whether it would make it safer or not. I mean, like I said, I saw a horrific accident yesterday -- just yesterday at a light and it was a working light, there was an accident there so --

38 39

LEG. CALARCO:

Then let's get rid of all lights then.

40 41 42

CHAIRPERSON KRUPSKI:

If there was no light, would there have been an accident? I mean, 43 I don't know. I can't -- I'm not going to speculate on that.

45

LEG. CALARCO:

If we put a traffic light up, Mr. Hillman, would it make this road more dangerous?

48 49 50

MR. HILLMAN:

It very well could. The very first sentence when you get to the 51 section of traffic signal warrants, I don't know it verbatim, but in general it says the traveling public at large believes that traffic signals are a panacea of solutions to -- or a panacea of solutions to a host of issues. And it's basically just not true. And it goes into how traffic signals, if they don't meet warrants can cause tremendous problems including decreasing safety.

LEG. CALARCO:

Could you explain how that would work, how having a control at the intersection, which presently only has the, you know, stop signs for the two side streets, how having that control would make it less safe? Under what scenario could somebody -- I mean, obviously 7 there's always a potential that somebody doesn't obey the control and you can have, you know, serious injuries as a result of that. But, you know, we can't engineer for people not obeying controls, right?

03:06PM 10

12

13

MR. HILLMAN:

Correct, but that is one of the reasons. So when you have a high speed road on one leg, which is County Road 101, and then a side street, which has low volume, and the main artery 101, high speed, goes red and someone fails to yield on that red, and the side street goes green, what you're doing is you're telling that person on the side street don't look left, don't look right, just proceed into the intersection safely. And --

03:07PM 20

21

LEG. CALARCO: 22

I mean, Bill, any light along this road that way presents that 23 danger then. 24

2.5

MR. HILLMAN:

You're absolutely right. 27

28 29

LEG. CALARCO:

So why have any of them? 03:07PM 30

31 32

MR. HILLMAN:

You didn't let me finish. So when a traffic signal cycles on a regular basis, and what cycle -- what brings it up on a regular basis is the side street traffic volume, so when it doesn't cycle on a regular basis, that's what leads the person on the main artery to consistently -- as he goes through that intersection and it's consistently green, he gets used to just going through it when it's green. And then very infrequently it's red and it surprises the driver and they often will run that red light.

40 41 42

43

47

38

LEG. CALARCO:

But are the traffic counts on these two side roads -- because if I recall our meetings correctly, we've always been told -- it's not warranted because the safety doesn't warrant it. Are the traffic counts on these two side roads to such a low level that we are talking about, that infrequently of the light being triggered?

49

MR. HILLMAN:

03:08PM 50 51

Yes, that's correct.

LEG. CALARCO:

Do you know what those counts were? 53

54

MR. HILLMAN:

I don't know.

LEG. CALARCO:

Because both neighborhoods on both Legislator Browning's side of the road and mine are not sparsely populated neighborhoods.

They're, you know, third of an acre lots, quite a few homes in those properties. And I would imagine that we have some traffic coming out of there. I mean, it's not -- we're not talking country roads here where you have, you know, the light being triggered once an hour.

9

MR. HILLMAN:

From what I've been told by the traffic engineering division, it's not even close to necessary volumes.

13

21

COMMISSIONER ANDERSON:

If I could, just I would point -- you know, if you're familiar with 17 Upstate when you come into Roscoe, there's that light. And there's always a horrific accident at that intersection because of the fact that you're traveling an extended period at high speeds and you come around and --

03:09PM 20

LEG. CALARCO:

I know the road very well. My family's from Upstate New York; 17 is a road I travel quite frequently to go visit them. And at that particular intersection you're talking about, you're talking about traveling a good 30 minutes before you come up on a traffic light. 101 has quite a few more lights than that, especially in this stretch. I mean you have a light at Woodside Avenue, you have a light at Southaven potentially, I think. You have one as you get a little further north towards the shopping center there; not to mention that this is only, what, a quarter of a mile, maybe that from Sunrise Highway where you have traffic controls there. I guess it's maybe little bit more than a quarter mile, but you have quite a few lights here. And quite honestly putting this one up, I think, the biggest frustration for people on 101 is it may, you know, prevent you from getting up to very high speeds before you potentially have to stop again.

03:09PM 30

CHAIRPERSON KRUPSKI:

All right. So we have -- oh, Presiding Officer has a question.

03:10PM

P.O. GREGORY:

Thank you, Mr. Chair. And maybe it was asked and answered before and I missed it. So if not a traffic light, then what? If we recognize that this is a -- or it's been labeled as a dangerous intersection, if not for a traffic light, what other measures are there that can eliminate or certainly reduce the hazard at this intersection?

47 48 49

36 37

40

41

MR. HILLMAN:

03:10PM 50

There were several alternatives that were developed; some of them that very positive comments came out of the public information meeting that we had and the discussion that we had with the community. Those several alternatives need to be further evaluated to come up with a preferred alternative. But there are definitely options to installing a traffic signal.

P.O. GREGORY:

So is it -- is it the -- you had mentioned the warrant study or -- so is it warrant study? Oh, okay, all right, I thought there was like some famous engineer or something, oh, okay. Oh, okay. So it's really a mix of the community's input and this study that determines what the outcome's going to be? Or is it the study and -- like what's the biggest factor here in how to move forward; as far as your recommendation how to move forward?

9

11

7

MR. HILLMAN:

Yes, we would like to have the opportunity to have our consultant finalize their analysis, come up with a preferred alternative, go back to the community, have that discussion, tell them once again that a traffic signal's not warranted, it's not going to be installed, but here's our preferred alternative that we would like to advance.

16 17 18

19

21

22

CHAIRPERSON KRUPSKI:

Legislator Fleming.

03:12PM 20

LEG. FLEMING:

Thank you. I think I may have jumped the gun in my seconding the tabling motion. I misremembered a conversation with the sponsor about all the conversations that have gone on in the community around this, I certainly understand the frustration. If we were to authorize the appropriation of the funds, doesn't that just move the project forward so that you -- you know, if you have this -- if the community agrees and you have, you know, find some meeting of the minds around a safety improvement, you've got the funds to operate with? I mean, because I really get -- I've been in many of those rooms with many of those upset constituents wanting to see some action or something happen. And I understand this is -- I forgot that we had heard how long this has taken and the frustration around it in the community. Doesn't this just move getting something done forward?

03:12PM 30

COMMISSIONER ANDERSON:

If you look at the Fourth Resolve, it basically states resolved the County Department of Public Works is hereby, authorized, empowered and directed to take such action as may be necessary to complete traffic signal improvements, etcetera. So it would have to go strictly towards traffic signal improvements, not towards traffic safety. So maybe if that we revised to say traffic safety, then --

rather than specifically to signals.

35 36

37

LEG. FLEMING:

But the language does say as necessary.

48 49

46

COMMISSIONER ANDERSON:

 $_{\rm 03:13PM}$ 50 Well, again, it may be necessary to complete the traffic signal improvement --

52 53

LEG. FLEMING:

I just understand the sponsor's frustration with regard to the timeline.

LEG. BROWNING:

I would hate to think I'll be six foot under with the time that it's going to take. And, again, you take a look at the map of the area. And, you know, Al, I know you're saying well, why don't they make a right turn. If you look, the only other -- the only real alternative -- if you're heading to Sunrise Highway, the only way is to make that left onto Sills Road.

9

CHAIRPERSON KRUPSKI: No, but if you go --

10 11

LEG. BROWNING:

12

-- to get to Sunrise.

13 14

CHAIRPERSON KRUPSKI:

16 The intersection to the north, I forget the name of the road --

17 18

LEG. BROWNING:

19 Woodside Avenue.

20 21

CHAIRPERSON KRUPSKI:

22 If you go to Woodside, you're at the signal. So you can go either 23 way.

24 25

LEG. BROWNING:

You're saying make a U-turn to go to Sunrise.

27 28

CHAIRPERSON KRUPSKI:

No. If you're at Woodside, you could just -- you could go north or left -- or south.

31 32

LEG. BROWNING:

33 No, no, no. What I'm saying --

34 35

LEG. CALARCO:

He's saying cut north through the neighborhood up to Woodside Avenue.

38

LEG. BROWNING:

03:15PM 40 41 So you're saying go through the neighborhood to go to Woodside Avenue?

43 CHAIRPERSON KRUPSKI:

If you live in the neighborhood, you can utilize the light at the neighborhood.

46 47

LEG. BROWNING:

And then the next thing I'm going to get is the phone calls about the increased traffic going through there. If the County was to close that off and prevent people from being able to make a left, now you're forcing everybody to go through the residential

now you're forcing everybody to go through the residential neighborhood. And then we're going to get the calls and complaints about people speeding in the neighborhood.

4 CHAIRPERSON KRUPSKI:

I don't know if they'd have to speed. They could just --

LEG. BROWNING:

No, they don't have to speed, but I can't control human nature.

That's impossible. Can't legislate that part.

CHAIRPERSON KRUPSKI:

We could put up a sign that says "don't speed" or --

LEG. BROWNING:

Good luck with that. 9

03:15PM 10

LEG. CALARCO:

11 Bill, what's the timeline we'd be looking at? If we don't do this, and I think this, again, and part or our frustration is the timeline, so the meeting we had with the public was, I think, last February, not the February that just happened but the February before that, we were anticipating getting something back from the consultant by November. We are now in April, almost May. And we haven't gotten anything back from the consultant yet. When are you

03:16PM 20

MR. HILLMAN:

I'd have to get back to you on that. I don't have it offhand. 22

23 24

21

LEG. CALARCO:

So, I guess, that mean it's not imminent? 25

expecting information from them?

26 27

MR. HILLMAN:

I don't have the details on the 50 projects that are ongoing within 28 my department or my division. 29

03:16PM 30

LEG. CALARCO:

Well, I understand that but this is on the agenda for today. 32

33

MR. HILLMAN:

Traffic signal discussion was on the agenda. 35

36 37

34

LEG. CALARCO:

Well, I mean, obviously it's all related but -- so I guess the 38 issue, Bill, you know, the question is what's our timeline. Give me a reasonable --

03:16PM 40

MR. HILLMAN:

I wouldn't want to comment because I don't know the status of the 43 firm and their project manager. I mean we're on our third project manager with this project with this firm so --45

46 47

41

42

LEG. CALARCO:

Is it time to get a new firm? Who's the firm? 48

49 50

MR. HILLMAN:

GEB, I believe. I think it's GEB. Again, I'd have to look into 51 the details of it. 52

53 54

LEG. CALARCO:

It's just -- and this is, you know, timeline, you're right,

Legislator Trotta, that is a lot of money to pay for the

consultants that come up with a more costly option than whatever it is, the 75,000 for a traffic light here. But it is the frustration of the extensive amount of time that it's been taking. And every, you know, as that time passes, the community certainly feels as if the County is really just blowing them off and isn't interested in doing anything here and we're just trying to get them to forget about the problem. And obviously it gets better until the next accident happens. And, yes, they're not as frequent as I think maybe the warrant would require, but they're frequent enough to 03:18PM 10 frustrate the neighborhood.

COMMISSIONER ANDERSON:

If I could, could I offer -- if we made a recommendation -discharge without recommendation. And then we could get you some kind of estimate on when the -- we could get you the information on the alternatives, if that would satisfy everybody.

18

21

22

CHAIRPERSON KRUPSKI:

Yes, Legislator Fleming.

03:18PM 20

LEG. BROWNING:

I'm fine with that. I just wanted to let you know, though, I said to Josh and asked him how many constituents have we heard from that we have had to respond to. And that's just my end of the road, not talking about Rob's, 240 residents that we've had to respond to with regards to this. So it's not like one of two people. 240.

29

27

COMMISSIONER ANDERSON:

03:18PM 30

We understand. You know, as we stated our concerns, we would also say, you know, if you give us the opportunity to find out exactly when we'll get some alternatives to provide to yourself and the communities, we can't ask much more than that.

CHAIRPERSON KRUPSKI:

Legislator Fleming.

36 37 38

49

35

LEG. FLEMING:

03:19PM 40

When you say some alternatives, what -- I mean, I think part of the problem with this discussion is that, you know, from the perspective of the taxpayer, it's very hard to have faith in the moving -- you know, this thing moving forward, just because it's gone for so long. And I've seen the same kind of thing in my community. So when you say -- and I appreciate your offering the discharge without recommendation, if the sponsor is okay with that. I certainly would support it as well. But what do you mean by I mean, do you have -- is that a real thing or can alternatives? we offer the constituents some real concrete movement on that? What are alternatives to a traffic light here?

03:20PM 50

MR. HILLMAN:

51 There are several different alternatives to modify the turn lanes. One of the alternatives does restrict left turns; but realigning the turn lanes on the artery of County Road 101, doing some clearing to improve site distance, again, I haven't gotten into the details, you know, in quite some time so I'm not prepared to speak

at length, but there are definite alternatives. 1

2 3

CHAIRPERSON KRUPSKI:

All right. So we have a sponsor who's willing to discharge without recommendation; is that correct?

7

LEG. BROWNING:

Sure, if it gets it to the floor. And I want you all to pay attention to the fact that could some of these alternatives be forcing traffic through the residential neighborhoods; that's my 03:20PM 10 concern, too. 11

CHAIRPERSON KRUPSKI:

Well, I would like everyone to go -- is there a second on that? 14

15 16

12

13

LEG. CALARCO:

Yeah, I withdraw my motion and second their motion. 17

18 19

CHAIRPERSON KRUPSKI:

03:21PM 20 21

All right. Thank you.

22

LEG. FLEMING:

I'd also like to withdraw my second on the motion to table.

24 2.5

23

CHAIRPERSON KRUPSKI:

Okay. So -- thank you. So now we have a motion to discharge without recommendation and a second. And I would -- just on that motion I would encourage everyone to go on their way home tonight, take a look at the intersection. No? No? I got some curious looks from some of my colleagues here. Send your drone, send whoever you want, but take a look at it. Go take a look at it. It's worth taking a look at it to get a better understanding of it. All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT)

03:21PM 30

1219, Appropriating funds in connection with the purchase of Public Works Highway Maintenance Equipment with a temporary increase in the highway fleet (CP 5047). (Co. Exec.). I make a motion to approve.

35

36

37

LEG. CALARCO:

Second.

42 43 44

45

46

47

CHAIRPERSON KRUPSKI:

Second by Legislator Calarco. Commissioner, what is a temporary increase? What does that mean? When it breaks, it's no longer in the fleet?

49

COMMISSIONER ANDERSON:

03:22PM 50 52

No, what it means is we're going to bring in the new equipment before we decommission the old equipment.

53 54

CHAIRPERSON KRUPSKI:

Okay. 55

```
COMMISSIONER ANDERSON:
         So, you know, we can't -- there is no way -- I can tell you exactly what we're looking for, but, you know, can we -- generally we'll
         keep running the equipment until it drops. And once the new
          equipment comes in -- and it can come in, you know, over the course
         of the year depending on what we're looking at. I mean, we're
          looking at 12 pickups, two ten-wheel dumps, four light dumps with
          plows and sanders, a snowblower attachment, two six-wheel dump
          trucks and then a couple of tractors with flail mowers. And then
         lastly two pay loaders. And that's what we're proposing to obtain.
03:23PM 10

         Didn't we buy a snowblower last year or the year before? I just
         want to know how it works.
          COMMISSIONER ANDERSON:
          I honestly haven't had the opportunity to see the new one.
      37
         seen old ones, you know, previously used, but we were using it, I
          think, at Ronkonkoma train station and other places where it's a
         tight fit to get a plow.
03:23PM 40
      41
         LEG. TROTTA:
      42
      43
         We used it.
         COMMISSIONER ANDERSON:
      45
         Yeah.
      46
      47
         LEG. TROTTA:
         It was good, I guess.
      49
03:24PM 50
         COMMISSIONER ANDERSON:
      51
         Yeah, it was -- I mean, again, I've only seen the one at the
         airport plus I saw the one DOT brought down during one of the big
      54
         storms, and it's really --
```

LEG. TROTTA:

^{*} Index Included at End of Transcript

```
Cool.
      1
         COMMISSIONER ANDERSON:
         It's an impressive machine.
         LEG. TROTTA:
         Can you do my driveway for me?
      7
         CHAIRPERSON KRUPSKI:
         (Laughter) Yeah, that'll be appropriate. All right, so we have a
03:24PM 10
         motion and a second. All in favor? Oh, we have a question from
         the Presiding Officer. We were going to vote.
         P.O. GREGORY:
      14
         No, I'm good.
      15
      16
         CHAIRPERSON KRUPSKI:
      17
         You're okay? Okay. All in favor? Opposed? Abstentions? So
      18
                  (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG.
         MURATORE NOT PRESENT)
      20
      21
         IR 1220, Appropriating funds in connection with construction of the
      22
         Riverside Traffic Circle (CP 5557). (Co. Exec.)
      23
      24
         LEG. FLEMING:
      2.5
         Motion.
      26
      27
         CHAIRPERSON KRUPSKI:
      28
         Motion by Legislator Fleming. I'll second the motion. Anyone
      29
         have any questions about the circle?
03:24PM 30
         LEG. CALARCO:
      32
         Only if we could put Schneiderman's name in the middle of it.
      34
         (Laughter)
      35
         LEG. FLEMING:
      36
         No, it's going to be a beautiful circle so we don't want to put
         Jay's name. (Laughter) Commissioner -- that was a joke. I
      38
         appreciate Jay's support on this -- could you just explain what the
         -- this is in the Capital Plan. We already went through the
03:25PM 40
         approval of this funding. If you could just explain -- I
         understand the project is ahead of schedule, which is nice to hear.
         And the chief engineer came out as some of the folks who were here
         in support from the community actually met with the chief engineer.
         I want to thank him and his staff for their willingness to work
         with the community to keep them abreast of any disruptions during
         the -- during this project which, as you can hear, we've always got
         a great turnout from the community whenever the circle comes up
         because it's that critical to them. So I really do appreciate,
      49
         Commissioner, the efforts of your staff to work with the community
03:25PM 50
         on this. But can you just describe what the funding is here.
      51
      52
      53
```

COMMISSIONER ANDERSON:

Yeah. This, as we've discussed in the past, is the intersection, there's a five-legged intersection just to the south and east of

54

the Riverhead County Center. We're looking to reconstruct that intersection; I think bring it from a five-legged down to a six-legged intersection versus -- it's staying five, okay. And then we're going to be doing the work at night, which added additional costs and we're going to be doing some stormwater quality improvements to the project.

7

The original estimate was at 4.4 million. The bid -- lowest bid came in a little bit above that. We needed additional funds to complete the work. And the work is, as you know, has been approved and we're in the process of ordering it and we're asking for the additional funds.

12

03:26PM 10

CHAIRPERSON KRUPSKI:

15 All right. Go ahead, Legislator Fleming.

16 17

18

21

24

14

LEG. FLEMING:

Mr. Hillman, these are -- these are monies that were already voted on in the Capital Plan. The four million has been expended or have you begun to draw down on the four million? And then the Legislature approved another million, which was this, but has not yet been appropriated. Isn't that correct?

22 23

03:27PM 20

MR. HILLMAN:

That's correct, but we haven't begun to draw down on the four million. We haven't quite begun work yet, but soon to happen.

26 27 28

29

LEG. FLEMING:

03:27PM 30

Didn't you say -- I thought that at our meeting they talked about utilities being -- no, listen up -- they have been doing work, there's trenching, there are utilities that have been moved.

31 32

MR. HILLMAN:

Correct, utilities relocated at their own cost.

34 35

33

36 LEG. FLEMING:

Okay. But in terms of it being ahead of schedule, I know there
were a lot of contracts that had to -- I mean, there were
agreements with property owners on adjacent parcels, an awful lot
of work with regard to engineering, planning and legal agreements.
And that is being done and on schedule. And I thought at the
meeting you said that we were ahead of schedule. Maybe I misspoke.

MR. HILLMAN:

No, we are ahead of schedule.

47 LEG. FLEMING:

48 Thank you.

49 50

43

44

46

CHAIRPERSON KRUPSKI:

All right. Having no more discussion on the matter, we'll call it to a vote. All right. All in favor? Opposed? Abstention? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT)

55

IR 1221, Authorizing the extension of the existing agreement by the

Administrative Head of the Suffolk County Sewer District No. 11 Selden and Avalon Pines and the 18 Hole Golf Course (BR-1130). (Co. Exec.) I'll make that motion. Is there a second?

LEG. CALARCO:

Second.

CHAIRPERSON KRUPSKI:

03:28PM 10

Second by Legislator Calarco. Does anyone have any questions about this agreement? All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT).

12

16

17 18

IR 1224, Appropriating funds in connection with Replacement of Major Buildings Operations Equipment at Various County Facilities (CP 1737). (Co. Exec.) I'll make that motion. Same motion, same second. Anyone have any questions about the replacement of operations equipment? If not, all in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN **VOTE.** LEG. MURATORE NOT PRESENT)

20 21 22

IR 1225, Appropriating funds in connection with Elevator Controls and Safety Upgrading at Various County Facilities (CP 1760). (Co. Exec.) Same motion, same second. On the motion, does that include the elevators that are currently not working? Or is that just for all elevators?

27 28

29

36

41

COMMISSIONER ANDERSON:

03:29PM 30

This is -- this particular Capital Project is for all elevators. It's intended to replace elevators that have reached their useful life. Currently we're looking at the Cohalan Court Complex and the Dennison Building because they do have a significant number of elevators. But it may be used if, you know, the elevator here went, we might have to take advantage of the funding and then -it's an annual -- it's an annual Capital Program. Right now we're looking at targeting Cohalan as well as the Dennison Building.

37 38

CHAIRPERSON KRUPSKI:

Wouldn't you focus on ones that currently aren't operating?

03:30PM 40

COMMISSIONER ANDERSON:

Or that are troublesome, you know, that we know that there's problems that we can -- the Dennison there's always issues with the 43 elevators there.

45

CHAIRPERSON KRUPSKI:

Thanks for letting me know. I'll take the stairs. No, it's just that we spoke earlier this week about the one in -- our building in Riverhead. 49

03:30PM 50

COMMISSIONER ANDERSON:

Correct. But that one needs to be -- and that is being replaced or being repaired and that's what --CHAIRPERSON KRUPSKI:

Okay.

56

51

COMMISSIONER ANDERSON:

-- this program would be used for.

2 3

CHAIRPERSON KRUPSKI:

Okay, thank you.

6 7

COMMISSIONER ANDERSON:

8 Welcome.

9 10

CHAIRPERSON KRUPSKI:

All right. We have a motion and a second. All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT)

14

21

24

27

28

IR 1229, Amending the 2017 Capital Budget and Program, accepting and appropriating 100% New York State Department of Transportation Supplemental Transit Capital (STC) funds for the purchase of hybrid diesel electric transit buses (CP 5658). (Co. Exec.) Motion by Legislator Fleming.

03:31PM 20

LEG. CALARCO:

Second.

23

CHAIRPERSON KRUPSKI:

Second by Legislator Calarco. Any questions? Oh, okay, could we -- we're going to put this on the Consent Calendar. It's a 100% grant. All in favor? Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT/CONSENT CALENDAR)

29 30 31

32

IR 1230, Appropriating funds in connection with

Replacement/Clean-Up of Fossil Fuel, Toxic and Hazardous Material Storage Tanks (CP 1706). (Co. Exec.) Same motion, same second. How many locations, Commissioner, do we have to clean up?

41

45

46

47

COMMISSIONER ANDERSON:

This right now -- looking at our three-year program, we have well over a dozen locations that we're looking to upgrade. So they go from Cohalan Courts to the forensic lab here in Hauppauge; infirmary out in Yaphank, Department of Labor in Hauppauge; a police garage; Vanderbilt Museum, police helicopter facility. So this, again -- sorry, there's a whole list of intended facilities that we're looking to replace.

43

03:32PM 40

CHAIRPERSON KRUPSKI:

How do you get on the list? Do you work in coordination with the DEC or is this just an internal list?

48 49

COMMISSIONER ANDERSON:

03:32PM 50

We monitor all those tanks. We have an ongoing daily program where we go through and we have to make sure that the tanks, all the, you know, all the tanks are working, there's monitoring programs. So as we start to see facilities start to fail, whether it's, you know, an inordinate amount of leaking, a leak detection or some kind of, you know, some other mechanical problem, we'll start to at some point determine that it's better to replace than to keep

```
trying to fix it.
       1
         CHAIRPERSON KRUPSKI:
          Thank you. All right. All in favor? Opposed? Abstentions?
                                                                             So
          move (VOTE: 7-0-0-1. PO GREGORY INCLUDED IN VOTE.
          MURATORE NOT PRESENT)
          IR 1231, Appropriating funds in connection with Removal of Toxic
          and Hazardous Materials and Components at Various County Facilities
          (CP 1732). (Co. Exec.). Same motion, same second. All in favor?
03:33PM 10
          Opposed? Abstentions? So moved. (VOTE: 7-0-0-1. PO GREGORY
      11
          INCLUDED IN VOTE. LEG. MURATORE NOT PRESENT)
      12
          IR 1240, Amending the 2017 Capital Budget and Program and

      18
         LEG. CALARCO:
      19
         Motion.
03:33PM 20
      21
          CHAIRPERSON KRUPSKI:
      22
         Motion by Legislator Calarco; second by Legislator Anker.
      23
      24
         LEG. ANKER:
      2.5
          I'm not on the committee.
      27
         CHAIRPERSON KRUPSKI:
      28
         Oh, I'm sorry. Second by Legislator Browning. On the motion, Commissioner, I did get some e-mails about there's concern about
      29
03:33PM 30
          the amount of outreach that was done from adjacent property owners.
         Was this a type of project where you would have to notify the
          adjacent property owners of its construction?
      33
      34
          COMMISSIONER ANDERSON:
      35
         Are we talking 1240? I apologize.
      36
      37
         CHAIRPERSON KRUPSKI:
      38
         1240, yes.
      39
03:34PM 40
          COMMISSIONER ANDERSON:
      41
          1240, which is rails to trails. We have over the years made
         significant outreach to the entire community. We've had a number
      43
          of meetings. This process will be inclusive of continual public
          meetings to advise the residents in the area so -- and actually as
          we move forward into the design phase, there will be public
          meetings to keep the local constituents advised of where we're
      47
      48
          going.
      49
          CHAIRPERSON KRUPSKI:
      50
          I have no reason to doubt you but we will forward you the e-mails.
      51
      52
      53
         COMMISSIONER ANDERSON:
      54
         Yes, please.
      55
      56
```

```
LEG. ANKER:
          Can I?
       2
       3
          CHAIRPERSON KRUPSKI:
          Legislator Anker.
          LEG. ANKER:
       7
          So NV 5 is the engineering firm that's working on this particular
          project. They sent out about 550 letters to adjacent property owners. I believe 60 came back because of the mail situation.
                    I believe 60 came back because of the mail situation.
03:34PM 10
          we're actually going to be working with them to make sure that as
          much as possible everyone is aware of what's going, especially
          those that are adjacent to the project.
      14
          CHAIRPERSON KRUPSKI:
      15
          Thank you. That's important. All right. I have a motion and a
      16
          second. All in favor? Opposed? Abstentions? So moved.
      17

VOTE. LEG. MURATORE NOT PRESENT)

2 IR 1244, Calling a public hearing for the purpose of considering increasing the maximum amount to be expended for improving facilities for Suffolk County Sewer District No. 23 Coventry Manor (CP 8149). (Co. Exec.) Same motion, same second. On the motion, Commissioner, why would -- why would we have a public hearing on 7 this and how would the public deal with the weigh in on increasing the amount of flow or the amount of land and parcels to be covered in the district?

03:36PM 10 11

12

COMMISSIONER ANDERSON:

This particular project is \$6.5 million Capital Project to rebuild the treatment plant at Coventry Manor in Middle Island. The intent of the public hearing is to give residents of the district the opportunity to come and speak whether they want to oppose or they want to speak in favor of it. But it's because there will be -because of these capital projects, there normally would be an increase in their rates to offset the construction costs, but the ASRF will stabilize those rates to a 3% per year increase, which they may already be taking advantage in the past. I don't know that. I just know that it will be -- it'll be stabilized at 3%.

27

IR 1245, Appropriating funds in connection with Installation of Guide Rail and Safety Upgrades at Various Locations (CP 5180). (Co. Exec.).

03:38PM 30

LEG. CALARCO:

Motion.

33 34 35

36

37

38

41

43

CHAIRPERSON KRUPSKI:

Motion by Legislator Calarco; second by Legislator Stern. So there was a gentleman here and he left. He spoke from the school. spoke about the guide rails. I wasn't -- I wasn't -- I'm not familiar with the, you know, with the locations there. Is this -- is he talking about guide rails on the car side of the sidewalk or on the school side of the sidewalk?

03:38PM 40

COMMISSIONER ANDERSON:

This is -- he was speaking more towards 1267 --

45 46

CHAIRPERSON KRUPSKI:

He mentioned both.

47 49

COMMISSIONER ANDERSON:

03:38PM 50

Yes, right, he did mention the guide rail, I assume because, and he was and we've met with the gentleman in the past. And what they are actually looking for, which, again, wouldn't meet a warrant is for a guide rail directly behind the curb. Guide rail can act as a fixed object; can be a hazard to the traveling public. So what we've been discussing and what we're going to look at under 2067 is to create a safe pass way outside of the right-of-way for the kids

to go from the school to the shopping center to the north up at the intersection of 21 and 25A.

CHAIRPERSON KRUPSKI:

On County property?

7

COMMISSIONER ANDERSON:

Off of County property. 8

9 10

CHAIRPERSON KRUPSKI:

11

So we would be putting guardrails on private property?

12

21

24

2.5

27

COMMISSIONER ANDERSON:

The intent is to put the guide rail outside -- it has to be studied because you have to look at where you're going to install guide rail and make sure it's not a hazard. But we would be -- I would anticipate we would be installing some guide rail, some type of barrier that protects the kids walking to the north through private property outside of the right-of-way. So essentially along that fence line that you would see on 21 to the west, because they're on the west side, there would be some type of pathway that would go to the north. And, again, this is a feasibility study that we're talking about on 1267.

03:39PM 20

CHAIRPERSON KRUPSKI:

Is it typical to have the County do construction projects on private property for private use? I mean, I understand this is kind of unusual.

28 29

31

COMMISSIONER ANDERSON:

The original request was to -- there is concern because of the accident that was identified earlier in 1970s and because of what happened last year with the kid who was on something and went off the road, there is concern in the community that -- that happening again so a lot of kids go to the north along our roadway. We felt to give the opportunity, at least look at and analyze what could be done and what the cost would be, which is what these funds would provide for under resolution IR 1267.

38 40

41

CHAIRPERSON KRUPSKI:

All right, well, let's address that then. And I'm sorry, I got ahead of myself because the gentleman referenced both.

42 43 44

COMMISSIONER ANDERSON:

Understood.

45 46 47

CHAIRPERSON KRUPSKI:

Both of them. So is there a motion on 1245?

49

LEG. CALARCO: 50

Yes. 51

52 53 54

CHAIRPERSON KRUPSKI:

A motion and a second. All in favor? Opposed? Abstentions? (VOTE: 6-0-0-1. LEG. MURATORE NOT PRESENT) moved.

IR 1249, Directing the Department of Public Works to Study the Feasibility of Using Alternatives to Gas Powered Maintenance 3 Equipment. (Co. Exec.) I'll make the motion; second by Legislator Fleming. Could you, Commissioner, explain the study. COMMISSIONER ANDERSON: 7 We recently met with an organization who was a proponent of using alternatives to gas-powered maintenance equipment. You know, we met with them. We thought it was a good idea and worth exploring 03:41PM 10 because we do use, you know, petroleum-based fuels to operate the current maintenance equipment. So in the case of, say, a blower you can use, like many have at home, either a battery powered or an electric powered. Now we couldn't use electric but we were looking at batteries. 16 What normally we could have done under, just as a study, we thought 17 would be worthwhile putting forward as a resolution so that it could be brought out into a public forum to discuss the use of these alternative -- this alternative equipment. And that's 03:42PM 20 essentially what we're looking to do. Rich Lanna is our industrial 21 engineer and will be leading the study. This will be done in-house and we just wanted to bring it to a resolution because of the public input. 24 2.5 CHAIRPERSON KRUPSKI: 27 equipment? 28

But what kind of study? I mean, will you actually be using the

COMMISSIONER ANDERSON:

Yes, we'll be actually purchasing some of the equipment to test in 31 the field. 32

CHAIRPERSON KRUPSKI:

And then you'll look at the cost of operation and the time saved 35 because you don't have to mix fuel and carry fuel and --36 37

COMMISSIONER ANDERSON:

As compared to putting in a battery and just, like, the reason I have it at home.

CHAIRPERSON KRUPSKI:

43 Right.

29

30

33

34

38

39

41

42

44

45

47

51

03:43PM 40

COMMISSIONER ANDERSON:

Makes it easier.

CHAIRPERSON KRUPSKI:

Okay, okay. So you -- well, you have to remember to bring the gas, 49 too, you know and the spark plug and the --03:43PM 50

COMMISSIONER ANDERSON:

You got to mix it right. You gotta make sure you mix the --53 54

CHAIRPERSON KRUPSKI:

There's a lot of advantages to it. I can see it saving in

manpower. And how long is this period study for?

^{*} Index Included at End of Transcript

          Motion.
      29
03:44PM 30
          CHAIRPERSON KRUPSKI:
          Motion by Legislator Calarco; second by Legislator Fleming. So could you explain -- so it says traffic safety improvements, but
          you had mentioned study earlier. And, again, I just want to be
          sure we're going to approve something that is going to be done on
      35
          county property and not on private property. Whose property would
      36
          this be done on?
      37
      38
          LEG. ANKER:
      39
          On the motion, can I?
03:44PM 40
          CHAIRPERSON KRUPSKI:
      42
          Well, you can -- oh, Legislator Anker, please.
      43
          LEG. ANKER:
      45
          Okay. So this happened because there's been, you know, accidents
          -- in fact, this was last year. A man was on drugs and he ran into
          the school fence. He ran onto the school property from County Road
          21. County Road 21, the portion that we're discussing today, there are three schools. There's the elementary school, the high school
      49
03:45PM 50
          and the middle school located right next to each other. It is on
          the northern portion of the RCA property, which is about six
          thousand acres of open space so there's an issue of high rate of
          speeding as people are driving through that area and then entering
          into a school traffic zone. So what we're trying to do is create a
          safer sidewalk area for the kids to walk along.
```

Now with that in mind, there's also a very popular plaza, the Kohl

maybe the {ballop} bollards perhaps or some type of protections so

Now, the segment between the school district -- I'll just say the

spoke to them and I can get a letter of confirmation. But they are

willing to give the property to the County for the protection of the kids. So -- and this is, again, what will be studied, what can

be done specifically in that area because that is a very -- it's a high priority of concern. But also the entire link from the Kohl's Shopping Center light all the way south to the elementary school. And that encompasses about, I want to say, half a mile maybe, or maybe a quarter of a mile. Okay. So that's where we are with

school district and the privately-owned shopping center, there's two parcels: One is owned by the shopping center; the other one is

owned by the car collision guy that owns that building. And I

Shopping Plaza just south of that area. And the high school kids will walk from the high school, which is maybe what, 200 yards,

maybe, maybe, from the high school to that shopping center. And there's no type of protective barrier; there's no signage; there's nothing to really protect a fairly large number of pedestrian, mainly children, kids walking along that road. And, again, some kids walk to the elementary school. It's a highly trafficked pedestrian area and we're looking to create some type of protective barrier, you know, probably not a guard or a guide rail because 03:46PM 10 it's not -- they're not recommended for pedestrian safety, but

16

03:47PM 20

21

27 28 29

> 31 32

> 33

LEG. TROTTA:

that

There's already a guardrail there.

kids don't get hit by the cars.

COMMISSIONER ANDERSON:

There is guardrail there. It is between the curb -- well, it's actually outside -- it's just outside the fence line.

36 37

38

41

LEG. TROTTA:

By the sidewalk.

COMMISSIONER ANDERSON:

Right, it's outside the sidewalk, which is basically without knowing for certain, I would say most likely the outside of the right-a-way. So what we've talked to the school about, and what we'd be looking for here is the various alternatives that could be used and recommended to provide safety -- you know, safe passage from the school to the north to the Kohl's Plaza. So whether it's a bollard system, a jersey barrier system, a guide rail system, all those would be looked at. And, you know, crossing some of these lanes, there might have to be some type of signalized additions to, you know, where these areas are, where the kids would cross.

03:48PM 50

So I would say the intent of this would be to study the various options that are open to us and come up with a plan that gives the community that level of safety. We would work with the school district. We have talked to them a number of times and --

49

LEG. TROTTA:

You're not going to hire a consultant to do this, are you? 2

3

COMMISSIONER ANDERSON:

Unfortunately we would likely have to.

7

LEG. TROTTA:

I'm looking at a picture. Just put another sidewalk on the other of the guardrail.

03:49PM 10

COMMISSIONER ANDERSON:

11 It's really not something -- we've made that recommendation to the school district about on their property.

14 15

LEG. TROTTA:

The sidewalk, there's a guardrail there. 16

17 18

19

21

COMMISSIONER ANDERSON:

03:49PM 20

Right. And this is really looking more towards north of there, north of that -- northwest corner of the school where there's an auto body shop, and I forget what else in there. So, you know,

maybe acquiring that land so we can create a continual path on, you know, the school could possibly do their portion. And then we

would purchase a section of land. But what does that cost, what do you need? You know, we need some guidance on that.

27

29

LEG. TROTTA:

I mean, this is, you know, you're talking about the -- there's guardrail everywhere up until the auto body shop.

03:50PM 30

COMMISSIONER ANDERSON:

Correct. But what the school is looking for is they want from the back of the curb the guide rail to be installed there. And we've explained to them that that would not meet warrants. It becomes a --35

36 37

LEG. TROTTA:

It'd be right on the road. 38

39 40

COMMISSIONER ANDERSON:

Right. 41

42 43

LEG. TROTTA:

I mean just put another -- have the school put a path on the on the other -- you can see where it's worn out where the kids are 45 walking.

47

COMMISSIONER ANDERSON:

And I agree with you on that. It's the north of the school 49 property where it becomes --

03:50PM 50 51

LEG. TROTTA:

At the -- at the -- it's only north for 50 yards wherever the guy's 53 54 property's from the auto body.

56

52

COMMISSIONER ANDERSON:

```
Right. There's a little -- there's a small signalized intersection
         there that comes out of the southeast corner of the shopping
         center. So there may need to be some improvements there to make --
         make it safe for the, you know, for the kids.
         LEG. TROTTA:
         No, they can actually get in the shopping center before that.
       7
         COMMISSIONER ANDERSON:
         At that point, correct. But also keep in mind kids, and their
03:51PM 10
         concerns -- the community's concern is also going up to that
         intersection. So there is a significant property north of that
         where the kids could, you know -- I'm just telling you this is what
      14
      15
         LEG. TROTTA:
      16
         You can look at this and put a -- you can ask the guy at the auto
      17
         body place to put 50 feet of guardrail in.
         COMMISSIONER ANDERSON:
      20
         Correct.
      21
      22
         LEG. TROTTA:
      23
         And then we're done.
      24
      2.5
         COMMISSIONER ANDERSON:
         Well -- correct. But then what does that entail; what does that
      27
         cost; who's going to do it? I mean we just --
      29
         LEG. TROTTA:
      30
         How much is this for?
      31
      32
         COMMISSIONER ANDERSON:
      33
         You and I talking about it, you know, it is one thing.
                                                                   But to come
         up with a plan, which is what we'd be looking here --
      35
      36
         LEG. TROTTA:
      37
         This crazy. This is insanity. How much is this for?
      38
      39
         COMMISSIONER ANDERSON:
      40
         I believe it's 250.
      41
         LEG. TROTTA:
      43
         Ridiculous.
      45
         LEG. ANKER:
      46
         No, it's up to 250 -- no, it's 150.
      47
      48
         COMMISSIONER ANDERSON:
      49
         Oh, it's 150, okay. Hold on.
      50
      51
         LEG. ANKER:
      52
         And, again, we're talking about, you know, would you --
      53
         COMMISSIONER ANDERSON:
         (Inaudible) it was 150.
```

56

LEG. ANKER:

03:54PM 50

03:52PM 20

03:53PM 30

Would you build a house without a plan? Let's just build something. We want to make sure -- we have to fit into the warrants and, you know -- or we will be sued for not following specific guidelines. So, unfortunately, or fortunately, however you want to look at it, the process has to be legitimized and it has to be created, so. And we have an issue where we have concerns with school safety.

CHAIRPERSON KRUPSKI:

So, Commissioner, it goes back to my question about working on private property and -- is that typical that the County would do this kind of study and then this kind of work on private property? Really to the benefit of commercial establishment.

COMMISSIONER ANDERSON:

At this point this has -- this has -- there is no work on private property, if I may. What we'd be looking at is potentially acquiring land to create this pathway. But, again, this is all something -- this is all -- these are all ideas that need to be analyzed to look at their effectiveness, whether they meet warrants. So we would look at a number of options as well as a number of different types of material and equipment to place along this corridor, or just outside.

CHAIRPERSON KRUPSKI:

Legislator Browning has a question.

LEG. BROWNING:

Just a quick one. Again, here we go, consultant to do something. And what -- what kind of engineer would do this; a civil engineer, a highway engineer? What kind of engineer does this?

COMMISSIONER ANDERSON:

This would be a civil who specializes most likely in traffic analysis, traffic design. So my two guys, Danny and Alex, you know them, I mean they've got a litany of other responsibilities that they're also working on at the same time.

LEG. BROWNING:

But this money that would have paid for an engineer to do it in-house. So, Katie, take the message back. Every time we look at these projects over and over and over again and how much money we are spending on outside consultants to do a job that could be done in-house if we had the proper engineers to do it, we'd save a heck of a lot of money if we hired in-house. And I think that the budget working group should be looking at that.

And, Gil, we really, really need to sit down and go over with you -- when we do the budget process to say, look, how do we do this, it's ridiculous that, you know, we're paying for consultants to do something that you could do if you had the right people. And, again, you know, you're talking about the 101 and you're talking about all these things that we're spending money on that -- but every time, and it's no fault of yours, but when we're calling your office and reaching out to you, well, there's a backlog, there's a

* Index Included at End of Transcript

backlog. And that's not fair to you guys because, you know, it's public safety and community improvements are just not getting done 2 in a timely fashion because we don't have the bodies. 3

COMMISSIONER ANDERSON:

I'll be glad to meet with you. 6

7

11

LEG. BROWNING:

We'd save a lot of money if we had our own people. Thank you. 9

03:55PM 10

CHAIRPERSON KRUPSKI:

Legislator Trotta. 12

14

LEG. TROTTA:

This quardrail that's up doesn't look that old. Is that our 15 guardrail or is that the school's? 16

18

COMMISSIONER ANDERSON:

The school put it up. I believe the school put it. We didn't put 19 it up, so. 03:55PM 20 21

LEG. TROTTA:

22 I mean, clearly they didn't hire an engineer. You know, they should have, you know, put the sidewalk on the other side of it. 24 mean, who did that?

27

32

33

34

COMMISSIONER ANDERSON:

I assume within the County right-of-way -- well it would have been either -- it would either -- mostly likely have been the County who installed the sidewalk, but it may have actually been the school district at some time without going into historical -- I don't know.

03:55PM 30

LEG. TROTTA:

All riaht. I mean, who puts a guardrail on the other side on a 35 busy road? You would think the guardrail would be between the cars 36 and the people walking. 37

38

COMMISSIONER ANDERSON:

Again, that was one of our first recommendations to the school to create a pathway behind the guardrail.

43

03:55PM 40

LEG. TROTTA:

This is even bizarre that we're even talking about this.

45 46

41

COMMISSIONER ANDERSON:

Right, I -- you know, but the community is, again, very concerned 47 about this. You know, we've had --48

49 50

LEG. TROTTA:

This could be done, but the County doesn't need to be involved in 51 this. This is a private property owner who apparently will let them do what they want. Go have the school district pay for a 53 sidewalk on the other side of the guardrail, we're done. 54

COMMISSIONER ANDERSON:

```
Agree.
      1
       2
         LEG. TROTTA:
       3
         I don't understand it.
         CHAIRPERSON KRUPSKI:
         But that's on school property.
       7
         LEG. ANKER:
         I just want to clarify, too, it's not that we're asking to do this
03:56PM 10
         project on private property. The fact, unfortunately, is that we
         probably will need additional -- additional land to put signage,
         maybe to put a light at the entrance of this collision
         establishment; actually there's like two or three stores on that --
         on that side road. So these kids have to cross -- so they're at
         the high school; or actually middle school property, they have to
         cross the side road, which is, again, right there on County
         Road 21 to make their way to the shopping plaza. There's actually
         a road there. Now, is it named, I don't know, but we'll probably
      19
         need some additional space to create, again, some type of
03:57PM 20
      21
         pedestrian protective measures.
      22
         LEG. TROTTA:
      23
         That was my sector for probably a year; never had an accident;
      24
         never heard of an accident.
         CHAIRPERSON KRUPSKI:
      27
         All right. So we need to call a vote here. There is a motion to
      28
         approve and a second. All in favor? I need a show of hands. All
      29
         in favor? Who's in favor of approving this --
      31
         P.O. GREGORY:
      32
         (Indicating)
      33
      34
         LEG. BROWNING:
      35
         (Indicating)
      36
      37
         LEG. CALARCO:
      38
         (Indicating)
      39
      40
         LEG. FLEMING:
      41
         (Indicating)
      42
      43
         LEG. STERN:
      44
         (Indicating)
      45
      46
         CHAIRPERSON KRUPSKI:
      47
      48
         Four in favor. Against? (Indicating)
      49
         LEG. TROTTA:
      50
         (Indicating)
      51
      52
      53
      54
         CHAIRPERSON KRUPSKI:
         Two against. Okay, all right. So that -- seeing that, that is
         approved. (VOTE: 5-2-0-1. PO GREGORY INCLUDED IN VOTE.
```

25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4 meantime [1] - 20:45
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 meant [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] -
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40 meet [8] - 19:34,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40 meet [8] - 19:34,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40 meet [8] - 19:34, 24:11, 27:4, 28:56,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40 meet [8] - 19:34, 24:11, 27:4, 28:56, 43:52, 48:34, 50:21,
25:55, 26:37, 27:14, 28:21, 28:35, 28:43, 29:7, 29:23, 30:6, 30:27, 31:30, 33:25, 33:38, 33:44, 34:39, 34:46, 34:47, 35:46, 36:6, 36:52, 38:38, 44:27, 45:27, 48:28, 48:44, 49:28, 50:37, 51:23, 51:25, 51:35 means [1] - 35:50 meant [1] - 7:4 meantime [1] - 20:45 measures [2] - 30:45, 52:21 mechanical [1] - 40:55 median [3] - 24:31, 24:33, 26:10 medians [1] - 24:40 meet [8] - 19:34, 24:11, 27:4, 28:56, 43:52, 48:34, 50:21, 51:6

meeting [25] - 1:9, 2:8, 5:36, 8:11, 9:12, 9:13, 9:24, 9:53, 14:20, 14:21, 14:22, 14:41, 15:35, 16:5, 17:8, 21:1, 21:18, 23:18, 24:20, 24:21, 30:52, 31:28, 33:14, 38:29, 38:42 meetings [4] - 29:44, 41:44, 41:45, 41:47 meets [1] - 26:54 member [2] - 6:15, 6:16 members [1] - 19:33 MEMBERS [1] - 1:15 memorandum [1] -11:32 Memorial [1] - 1:12 mention [3] - 27:39, 30:30, 43:50 mentioned [4] - 5:37, 31:2, 43:47, 46:34 message [1] - 50:42 messages [1] - 16:6 met [8] - 8:5, 19:32, 22:34, 23:2, 37:44, 43:51, 45:8, 45:10 metals [1] - 7:20 Middle [1] - 43:14 middle [3] - 37:33, 46:51, 52:16 might [5] - 13:53, 18:53, 26:14, 39:34, 47:49 mild [1] - 36:20 mile [5] - 13:38, 30:30, 30:32, 47:26, 47:27 miles [4] - 3:17, 3:29, 3:33, 7:17 Miller [1] - 19:36 million [7] - 3:13, 38:8, 38:19, 38:20, 38:21, 38:26, 43:13 millions [2] - 11:46, 12:8 mind [2] - 47:2, 49:10 minds [1] - 31:29 mine [3] - 6:34, 23:29, 30:3 minute [1] - 15:8 MINUTES [2] - 1:7, 1:54 minutes [7] - 2:15, 13:45, 13:46, 15:3,
