CHAIRPERSON FLEMING:

Good afternoon everyone and thank you for attending. This is a regular meeting of the Ways and Means Committee on May the 24th (sic). We'll start with the Pledge of Allegiance led by Legislator Calarco.

(SALUTATION)

Thank you. We have a serious flag protocol mistake. I feel better too, now. Thank you. All right, we're underway here, gentlemen, so we'll move right into the agenda. There is a letter that is being distributed to you from LIPA over the signature of Jon Mostel. And we have also distributed a chart from the Comptroller, who we'll be hearing from later in the agenda. So please be sure that you have those documents. Moving right to Public Portion, if there -- I don't have any yellow cards. Do we have any?

MS. ELLIS: No, ma'am.

CHAIRPERSON FLEMING:

Thank you. I do have a yellow card. Just in time. Mr. Gavilla, you have three minutes at the podium.

MR. GAVILLA:

Okay. Good afternoon, everybody. My name is Hector Gavilla. I do oppose a bill to make the mortgage tax, and it is a tax, exempt to just first-time home buyers. And the reason for that is because that would be an administrative nightmare. What I do support, though, is Robert Trotta's efforts to just remove it altogether, because it is illegal.

(Presiding Officer Gregory entered the meeting)

I just created this flier today. What is obvious to me is that everybody in this room who supported this law did not consult any title insurance companies, but I did after you passed it. And I had a title insurance person come to my office and spend over an hour meeting with me. And it's actually even worse than I originally had thought.

What this person explained to me was that for refinancing purposes an average refinance requires at least three or four documents to be recorded -- so on top of any of the existing fees. So that's why I just made up this very simple handout for you guys to understand. So those documents could include assignment of a mortgage. The normal fee is \$260, so for that they would have to pay another 300. Then there's a gap form, which is another \$300 on top of the existing fee, which is \$360. Then there's a consolidation modification and extension agreement, which is normally \$425 plus the \$300. So when you put it all together for someone to refinance their home on their typical mortgage, no

12:35PM 30

35 36

> 37 38

> 45

12:36PM 40

12:36PM 50

matter what the mortgage amount is, it could be a low mortgage or it could be a high mortgage, they're going to have to pay Suffolk County an additional \$900 in new fees that did not exist last year. And so that means that going to foreclosure would be more appealing for many people, especially in the lower income areas.

6

Now, why was this fee created, the tax map ID fee. Was there a problem with recording documents? Were they not being recorded properly? Do we need to train the recorders, the people that work behind the desk? Did you actually consult with title insurance companies before you passed this legislation to see what the actual effects would be on consumers? Will the service improve?

1

12:37PM 10

Something else I found out from having the title person come to my office is that at the County Clerk's Office they have to line-up at eight in the morning, and it's lined-up out the door, and they are lines that they refer to as five lines and ten lines, which means that on the five line they can only record five documents at a time. So for just one refinance they have to go to the back of the line and they have to keep going back and back.

12:38PM 20

CHAIRPERSON FLEMING:

Mr. Gavilla, your time is expired.

25

21

22

23

27

MR. GAVILLA:

Okay.

LEG. TROTTA:

12:38PM 30

I have a question. I just want you to go, if you would, how you got these additional fees. Like the document fee, could you go over each one of those and how it changed from last year?

32

MR. GAVILLA:

Okay. Well, if you look at the two columns -- well, there's three columns. The first one is the documents, okay, and this was used as an example from my friend who owns a very successful title insurance company. So what she explained to me was that this new law effects the refinancing market, so what she explained to me was that depending on the bank that you use, some banks there may be more forms, and some of the banks there may be fewer forms. So this was just an example of an average refinancing. So she said that these are required documents, so there's a document that's called the assignment of mortgage, which by the way, in the law that you passed, okay, it's specifies here that these documents are documents that you're going to add the \$300 to each one.

12:39PM 40

LEG. TROTTA:

So what you're saying -- is what you're saying this \$300 fee could be used multiple times for one mortgage?

12:39PM 50

MR. GAVILLA:

For one mortgage, yes, exactly.

54 LEG. TROTTA:

55 If what occurs?

56

45 46

47

49

51

MR. GAVILLA:

If refinancing occurs. So that if you have an individual -- like I kind of find it funny, once again I just want to say that Suffolk County was bragging that they have the hotline that they want people who are having financial problems that they can refinance their mortgage, right, to lower their rates. So a typical person like that that wants to get a lower rate is going to have to pay --

LEG. TROTTA:

43

44

45

49

52

12:41PM 50

12:40PM 20

12:41PM 30

So what you're saying is if you refinance the mortgage, you're paying the \$300 tax map verification fee to close one --

MR. GAVILLA:

Right.

LEG. TROTTA:

-- and then you're paying it again to open one?

MR. GAVILLA:

Correct. That's correct. And these are all the documents that are required, exactly. So for a refinancing there's a document that's called assignment of mortgage, there's another one for the new mortgage that you're replacing the old mortgage with, and that's called a gap form. And then there's another one, a last one, that's called the consolidation modification extension agreement.

So, Mr. Trotta, in this example to refinance, to replace the old mortgage with the new mortgage, there are three documents and each of those documents Suffolk County is charging \$300 each just for the tax map ID verification, and we're not even talking about the existing fee of recording, which went 65 to \$200. So this was not very well thought out and I don't know who it's benefiting. I don't even see the service getting better. And as I mentioned, too, this is just for one house. They'll have people lined up --

LEG. TROTTA:

I see the Comptroller here. I don't know, is the Comptroller in charge of that thing, whatever this is, with these fees?

CHAIRPERSON FLEMING:

I'm sorry, Mr. Trotta, so you're finished with your questions for 41 Mr. Gavilla? 42

LEG. TROTTA:

No, I'm not, but I want to just -- I don't know if the Comptroller runs that? It's the Clerk. I'm sorry. Okay, never mind. So you're saying if someone goes to refinance their house because they're in trouble, they're paying to the tax map verification to close it, and instantaneously paying it again to open it.

MR. GAVILLA: 51

Correct. That's correct.

LEG. TROTTA:

I never even thought of that.

* Index Included at End of Transcript

MR. GAVILLA:

I never realized it either, but it took work on my part to meet with a title insurance company to tell_me that, and they're afraid to come here because of retribution. They're actually afraid that if they complained to the Suffolk County government, that their documents won't get filed properly.

LEG. TROTTA:

Okay. I'd like a question to the County Exec's representative --9 Katie. 12:42PM 10

11

MS. HORST:

This is Public Portion. 13

14

12

LEG. TROTTA:

I'll ask in a minute, then, thanks. 16

17 18

19

21

22

MR. GAVILLA:

12:42PM 20

Right. And just the last thing I want to mention, that some of the Legislators were incorrect in saying that the fees that the title companies collect, that they make money from those fees, they These title companies, okay, work as tax collectors on behalf of the government. So the fees that I mentioned in the

second column where it says fee government mandated, for the New mortgage, that's assignment of mortgage form there's \$260.

The 255 affidavit, that's \$5. The consolidation modification extension agreement for the new debt, that's \$425. All those fees 27

are mandated by the government, so the title person's collecting on their behalf. So of course they'll add other fees for their

services because they don't work for free, but it's unfair for any 12:43PM 30 of the Legislators who are on record as saying that the title companies perhaps should charge less of a fee because this way you

can get your \$900 for anybody who refinances.

CHAIRPERSON FLEMING:

Thank you. And Mr. Trotta, that answers your question? Because 36 Legislator Gregory has a question. 37

38 39

33 34

35

LEG. TROTTA:

I'm done. 12:43PM 40

41 42

MR. GAVILLA:

And the idea of this is all for justice, to try to make this just 43 for first-time home buyers is wrong.

45 46

CHAIRPERSON FLEMING:

Mr. Gavilla, your time is up so now the Legislators are putting 47 48 questions.

49 50

MR. GAVILLA:

Oh, I'm sorry. 51

52 53

CHAIRPERSON FLEMING:

So if you just confine yourself to answers to the questions.

MR. GAVILLA:

2 Yes. Okay. Thank you.

3

CHAIRPERSON FLEMING:

Thank you.

5 6 7

P.O. GREGORY:

So I have a question. So you mentioned mandated fees. How about the unmandated fees? I think I mentioned before I just bought a home December first.

10 11 12

MR. GAVILLA:

з Yes.

13 14

P.O. GREGORY:

And there were a whole bunch of people that I never met before and I think I paid like \$18,000 in closing costs, one of which was I had -- I was told I had to provide, I don't know, \$200 or something like that, as a tip to the title insurance company, which is not a mandated fee. So, I mean, what's your response to that?

12:44PM 20

MR. GAVILLA:

23 My response is to that is that it's the --

24 25

21

22

P.O. GREGORY:

And I was told that my paperwork wouldn't be filed, by my lawyer, if I didn't do it.

27 28 29

37

41

MR. GAVILLA:

12:44PM 30 31 32 33 34

Well, that's a very good question and that's something that could be possible for new legislation, that there should be disclosure of all title costs and closing costs 30 days before the closing. That's something that I would advocate as a separate issue, but the answer, the general answer to your question is that it's a free market economy, so you have the right to choose the title company. You have the right to choose your realtor, you have the right to choose your attorneys and everybody who you want for closing of your house, but you don't have the right to choose your government and the government unfairly is charging \$1,000 just to refinance a

12:44PM 40

P.O. GREGORY:

home.

But I'm told that it's standard practice, and I wasn't told this before after spending -- and we were under a time crunch. It would have cost me thousands of dollars to get an extension of my mortgage, they already had an extension of my mortgage commitment. So you're put in this position like am I going to walk away from the table for \$200 or am I going to pay, you know, thousands of dollars more, because at that time it was right after the election, interest rates had already gone up. It's just -- you are put in a very untenable position.

12:45PM 50

MR. GAVILLA:

Right, but that is a separate issue, because we're talking apples and oranges.

56

49

51 52

P.O. GREGORY:

No, I think it's an appropriate issue.

3

MR. GAVILLA:

But I'm talking about the government now adding fees and there's no increase in services or changes in the services. Like as a result of adding these fees, has the process of recording documents at the Suffolk County's Clerk's Office improved. It has not.

9 10

CHAIRPERSON FLEMING:

11 Thank you, sir.

12 13

14

P.O. GREGORY:

I get your point, but your -- you came here as an advocate for the homeowner, and the homeowner has a same experience of these fees, whether they're government, mandated, regulated or imposed by the industry, and that's what I'm speaking to.

18

21

27

MR. GAVILLA:

12:46PM 20

Right, and what I'm speaking to is there's a big difference between the free market and the government, and what you're talking about is there has to be full disclosure. And in my opinion, if I, you know, I am running for Legislator, and if I do win, one of the things I would like to impose on the real estate industry is that there has to be a full disclosure of all the fees 30 days before the closing, a minimum of 30 days. So that part of it I do agree with you.

28 29

12:46PM 30

CHAIRPERSON FLEMING:

Thank you, Mr. Gavilla.

31 32

MR. GAVILLA:

Thank you very much. Have a great day.

33 34 35

CHAIRPERSON FLEMING:

I believe actually just for transparency sake, when you take to the podium it might make sense for you to just inform us and the public that you are running for office.

39 40

MR. GAVILLA:

41 Okay.

42

43 CHAIRWOMAN FLEMING:

Thank you, sir.

45

MR. GAVILLA:

And good luck to everybody.

48

CHAIRPERSON FLEMING:

12:46PM 50

You, too. Is there anyone else who would like to be heard at Public Portion? I don't have any other yellow cards. Anyone in the public is free to come to the podium and speak on any topic for three minutes. And seeing no one, we will move on.

53 54

I'm going to make a motion to take an Introductory Resolution out of order.

LEG. SPENCER:

Second.

2

7

CHAIRPERSON FLEMING:

Seconded by Legislator Spencer. IR 1371 - Directing the County Attorney to determine the viability of commencing an action against the Long Island Power Authority for failure to pay property taxes. (Pres. Off.).

9 12:47PM 10

I understand we have some guests here with us today to talk to this. If you all wanted to come up to the table I think it might make sense. Judge Emily Pines is with us, Comptroller John Kennedy and the County Attorney, Dennis Brown.

14

Oh, I didn't call a vote to take it out of order. So all in favor? All opposed? Any abstentions? The motion carries. On IR 1371, John, maybe you want to start.

18

21

16

COMPTROLLER KENNEDY:

12:48PM 20

Absolutely, Madam Chair. Thank you very much for extending the opportunity for us to go ahead and speak with the committee regarding this resolution. Just a quick prelude, if you will, to what brings us here.

23 24 25

27

32

33

41

49

52

54

I reached out to the Presiding Officer's Office. He very graciously agreed to sponsor this resolution. I am presented with, if you will, yet again a dilemma. I have a six-and-a-half million dollar receivable. That represents underpaid property tax on approximately between 750 and 800 utility owned properties located throughout nine of the ten towns here in Suffolk County.

12:49PM 30

You have a chart before you. I would encourage you to just scan it briefly if you will. What it reflects are the actual amounts by township that the utility, LIPA, has elected to underpay on the assessment associated with each of those parcels as a result of the property tax levies.

37

CHAIRPERSON FLEMING:

Can I just ask you what the nature of the parcels is?

12:49PM 40

COMPTROLLER KENNEDY:

They scan the gamut from things as simple as possibly vacant land or utility right of ways to substations, to transformers, to individual poles, to all of the equipment in essence associated with the transmission of electricity. They do not reflect those parcels under different utility names. Very interestingly, and we're very, very fortunate to have a retired Supreme Court Justice, Emily Pines, with us here today, who is now with Supervisor Romaine, who can speak actually to some of the statutory aspects of this. And then of course, Dennis has very graciously joined us because he's indicated he will be guided by the direction of the Legislature.

12:50PM 50

CHAIRPERSON FLEMING:

I'm sorry, but my question was what are the specific parcels. So you're talking about the 6.5 million includes utility poles?

COMPTROLLER KENNEDY:

12:51PM 10

12:52PM 20

12:53PM 30

12:53PM 40

41

43

45

49

12:54PM 50

21

27

It can run the full gamut, yes. It can run the full gamut from individual poles, transmission poles, to high tension right of ways, to substations. It does not, as I understand it, include like the Northport Power Plant or the Port Jeff Power Plant in that they are owned by KeySpan. Interestingly, the levies associated with KeySpan, LILCO, a couple of other names in there as well, are being paid at the rate of 100%. LIPA, for whatever reason, has elected to invoke this 2% cap and to apply it in an aggregate against those properties that are only in title of LIPA. Today if you go out there to the County Clerk's Office, you'll still see deeds that have properties in the name of LILCO and a whole variety of different entities. They have never been changed.

The aspect, if you will, or the challenge is that I am in a position where ordinarily I would simply implement the remedies under the Suffolk County Tax Act for a delinquent taxpayer. I would take the deed. There has been an issue raised, a variety of issues raised, about the propriety of Suffolk County beginning to take ownership of transmission lines, substations, and all the rest associated with electricity. However, for any other property owner and non-tax payer, at the end of a process where they've exhausted the right to redeem, the remedy is we take the deed. It is very straightforward. There's no subjectivity to it.

CHAIRPERSON FLEMING:

Can I ask you also, John, just to put this, hooks, someplace to hang -- set up some hooks so we can hang some of this very complicated information on. So you're asking for the Legislature simply to direct the County Attorney to explore the viability of pursuing these, what you're calling delinquent taxes?

COMPTROLLER KENNEDY:

Yes. It's the beginning of the process, and candidly, I don't want to speak for Dennis, but we have a variety of issues that are in here and I need direction or guidance as to how I will treat what is in essence an unperfected revenue. At a time when we talk almost daily about revenue expenditure and imbalance, a structural imbalance, here I'm bringing to you six-and-a-half million unrealized that we do not have to spend for County efforts and, in fact, which we are making towns and all the lessers whole for.

CHAIRPERSON FLEMING:

Of course LIPA does not agree and so litigation costs would have to be offset by any revenues that we do realize.

COMPTROLLER KENNEDY:

You know, Madam Chair, so I'll agree with some of the observations, yes. Not only do they not agree, they do not agree so stringently I have been sent correspondence by their counsel not once, but twice. Within 12 hours of when the reso was first filed I was sent a letter advising me of the impropriety to support this resolution. But then again as recently as yesterday I was sent another letter, and I'll be happy to share it with all of you, about the impropriety of me seeking the support of the Legislature on this simple exploratory directive to the County Attorney. I find that

extraordinary.

2

CHAIRPERSON FLEMING:

Right. It is -- I mean, it's obviously our fiduciary duty to look out for the taxpayers --

6 7

COMPTROLLER KENNEDY:

8 Absolutely.

9 10

CHAIRPERSON FLEMING:

-- money, so I appreciate your coming and bringing it. Have you framed what you want to do here? Can I move on?

13

15

COMPTROLLER KENNEDY:

Yes, I'm going to defer. I think that we've got the stage set so certainly let me turn to the smart lawyers in the house.

17 18

CHAIRPERSON FLEMING:

12:55PM 20

Judge Pines, do you want to just weigh in on what you have to add to the conversation?

21 22

MS. PINES:

23 Sure. By the way, I'm Emily Pines. I'm no longer on the bench.

24 25

CHAIRPERSON FLEMING:

We had a discussion about that, as to how we should -- we all think of you as Judge. Okay, Miss Pines.

272829

MS. PINES:

12:55PM 30

Thank you. Okay. And I want to at the very beginning apologize to Mr. Brown because the legislation is going to require him to do some work and I understand.

32 33

COMPTROLLER KENNEDY:

Some more work.

35 36 37

34

MS. PINES:

12:56PM 40

Yes. But as far as what has happened here, I want to talk about the issue of what laws have been passed by the State Legislature and how they have been interpreted by LIPA. Remember, for many, many years there was a State law, which you all know and participate in enforcing, called the Suffolk County Tax Act. It is a State law. In 2013, the State Legislature approved a new law which was an amendment of the Public Authorities Law 1020-Q, which we call the LIPA Reform Act of 2013, in which it implemented what we can -- I could call it a tax cap but they call it a pilot or a payment in lieu of taxes cap, with regard to properties owned by the Long Island Power Authority. The first thing it did was it stated in that law that the effective date of the law would be 2015.

12:57PM 50

12:57PM 50 51

49

So the first thing that LIPA did, because this was the first time that there was a pilot cap in which it would not have to pay anything over the 2%, was it interpreted the law to apply to the 2014/2015 tax year under the Suffolk County Tax Act, which was based upon assessments and a lien already in effect on December 1,

2014. So we have LIPA taking advantage of a piece of legislation which is meant to provide a remedy for both LIPA and in accordance with the legislative intent, which I have read to help the ratepayers within the County. It applied it one year before it went into effect. The effect of LIPA's action was to deprive, I guess, all municipalities throughout the County with the exception of Easthampton, which I guess does not have any LIPA property, of funds. That was first thing they did.

9 12:58PM 10

7

Now, they didn't discuss it, it just occurred. And it is my humble opinion that what they did was they interpreted a law, a State law, without looking at another State law. And as a matter in my view of statutory interpretation, if the -- if the 2013 LIPA Reform Act was meant to override an existing State law, the Suffolk County Tax Act, it would have had to have stated so in its legislation or legislative intent or in 1020-Q itself, or at least have said notwithstanding any other law to the contrary. That's not found there. So that's number one, and of course I don't know the numbers, but based upon what has been given to me and to you by the Comptroller's Office, it appears that at least \$2.3 million was not paid by LIPA for that first year in which the cap was not in effect. That's one.

12:59PM 20

22 23

24

27

21

17

28 29 01:00PM 30

The second thing that occurred was that LIPA interpreted the new law, the Reform Act, to give them the right once the law, assuming that it did go into effect for the 2015/16 and the current one, 2016/17 tax years, to allow them to calculate what parcel -- how much in each municipality they were going to apply the 2% tax cap to not on an aggregate basis in each taxing authority district, but on a parcel by parcel basis. So you have, for example, Brookhaven, where I am Special Counsel, but in every other town within your County a situation in which what they've done is assume that LIPA owns many, many parcels within a particular town, and many of those parcels are under, you know, relatively -- substantially under the cap. And then you have let's say even a few parcels that are above They don't take them in aggregate, which would the 2% cap. probably result in a situation where there is no increase, over 2% increase with regard to the tax cap. They take it parcel by parcel and deduct those amounts from those parcels.

39 40 41

43

45

47

38

So what -- basically what the Comptroller is stating to you is if you take what has occurred thus far for the two tax years that they have applied this statute to, and you take all the towns taxing authorities within the County, they have as of this date, and we don't have the taxes in or the Receiver doesn't -- Receivers don't have the taxes in for this next tax year, but thus far \$6,599,420.12 that they haven't paid based upon what I believe is a second misinterpretation of the law.

48 49 50

CHAIRPERSON FLEMING:

Can I just stop you for a minute? Because this a lot and --

51 52 53

MS. PINES:

It is somewhat complex and I apologize.

CHAIRPERSON FLEMING:

So the -- you have two theories. One is that the law was improperly applied to taxes that were assessed prior to the enactment of the law itself.

MS. PINES:

Prior to its effective date.

7

9

CHAIRPERSON FLEMING:

01:02PM 10

Okay. And what was that number? One million --

12

MS. PINES:

I'm going to let the Comptroller --13

COMPTROLLER KENNEDY:

That would be what we would see in the -- it would be the 14/15 16 year. That would be the first column of the chart you have. 17 That's approximately 2.4 million, 2.369. 18

19 20

21

22

CHAIRPERSON FLEMING:

And then the second theory is that the whole law is invalid because of the failure to recognize that it was superseding or that it was impeding on the actions of the prior law of the Suffolk County Tax Act. Is that correct?

24

MS. PINES:

I'm not saying -- and I'm sorry --

27 29

CHAIRPERSON FLEMING:

In which case then everything that accumulated -- in which case then the 2% cap is invalid and they just need to pay full freight 31 from the time --

33

35

COMPTROLLER KENNEDY:

Perhaps let me see if I can clarify a little bit. I think what the Judge is pointing out is, is to your observation, (a), yes, first we have an exercise of the way LIPA interpreted and an underpayment before the State Legislature even contemplated providing that relief.

40 41

The second theory, as you said, is an absence of language relative to the Suffolk County Tax Act. Now, I'll remind you I've come to you before about that, most recently about land bank. The original enactment under the State Not-For-Profit Law was silent on land bank, and I asked for that clarification.

45 47

49

CHAIRPERSON FLEMING:

I think we'd be better served by just keeping -- confining your comments to what we've got ahead. It's tough enough.

01:04PM 50

COMPTROLLER KENNEDY:

51 Okay. But the other element to this is, is that even if LIPA had the ability to somehow implement this cap by applying it in a 53 methodology that they are, they're attempting to actually gain a measure of relief that doesn't appear to be the way the statute's laid out. They're selectively putting it in.

CHAIRPERSON FLEMING:

A measure of relief in that relief from the full burden of the tax? Is that what you mean by measure of relief, that they don't have to pay the whole tax. Is that what you mean?

MS. PINES:

01:04PM 10

I think -- what he's saying and what I'm saying is that what they did, assuming, and this is assuming, that the State law is appropriate that was enacted and that it is or should be in compliance with the Suffolk County Tax Act. What they have done is they've taken an aggregate of all of the properties they own and applied the tax cap to the consolidation of all the properties. I mean on a property by property basis as opposed to a consolidation. Had they applied it, for example, within the Town of Brookhaven to all the properties, there would have been an addition of \$3,438,000 owed.

CHAIRPERSON FLEMING:

Can I ask you, is this best practice to count it that way? Does the statute actually speak to whether it should be considered in the aggregate or singly and separately?

MS. PINES:

That's a very good question. It does not say, so it does not say. And therefore, what you do or what somebody who has interpreted laws for more years than I'd like to discuss, but what you do is you look at other legislation which has similar kinds of provisions. For example, tax caps. And we have within the same time period a piece of legislation enacted, the General Municipal Law 3-C, which provided for taxes levied -- a cap on taxes levied by municipalities outside the City of New York. And then we have another one under the State Education Law, I think it's 2023 of the State Education Law, which has a complicated formula with regard to school district taxes and how -- that there's a cap on them from year to year, and in both cases they have been interpreted to apply to the congregate or the group of parcels that they're taxing and not on an individual parcel by parcel basis.

The whole point of this proposed legislation is that it's giving the County Attorney a basis to take a look at these issues which are significant issues of State legislation and interpretation of State legislation, and have had serious implications, monetary implications, on the amount of taxes paid to the various municipalities within this County.

Now, if you look at the legislative intent of this LIPA Reform Act of 2013 and you read about it, they say that this is not only for the benefit of LIPA, but for the ratepayers within the County, and what has occurred of course is that the municipalities, having lost the 6.5 and I guess soon it will be more like nine or \$10 million once we include this tax year in tax payments from LIPA, are now required to tax guess who? The rest of the residents within their municipality. So you have residents and businesses whose taxes are going up as a result of LIPA's interpretation, in my view misinterpretation, of the State law.

56

* Index Included at End of Transcript

By the way, when one is interpreting a State law, you look at the language of the law, you look at how other laws have been interpreted and you try to make sense of what the purpose of the law is based upon the legislative intent and the language itself. That is in my personal opinion what LIPA has improperly done and what we hope that the County Attorney will at least be asked to look at.

CHAIRPERSON FLEMING:

Got you. So thank you very much for spelling that all out. This is just a discussion of this, consideration of whether we should ask the Town Attorney to even look at it. So I think for all of us it's helpful to have that background.

But, Dennis, do you want to weigh in here before the panel takes some questions from Legislators?

The only thing that I would say is I have no predetermined conclusions, so wherever the facts and wherever the law leads that's where we'll follow. There's been precedence for this. Legislator Calarco introduced a similar resolution a couple of years back dealing with looking at the feasibility of a suit against opioid manufacturers. We did that, and I look at this the same way. So I have really nothing else to add. We'll look at the facts, we'll look at the law.

CHAIRPERSON FLEMING:

I don't know that the Introductory Resolution itself addresses the three theories here, but I guess it's helpful. I would suppose that if you were to come up with some other theory it wouldn't be precluded for us to go forward on some other theory, too.

MR. BROWN:

No, and I'm sure as we get going we'll see issues come up that haven't yet even been discussed, so we'll try and vet through all the issues and address them all.

CHAIRPERSON FLEMING:

Thank you. I think Legislator Spencer had a question or two.

LEG. SPENCER:

Hi, thank you very much. We recently had a resolution where we were looking at eminent domain and it turned out that we were unable to move forward with it because it was relating to the State and we weren't able to, I guess, apply eminent domain. My concern here, and again, I totally agree with the feasibility and maybe we should even be discussing this in Executive Session. There's a hybrid sort of nature about LIPA and its regulatory status and how the transmission lines are broken up and the State component that makes me concerned. And, again, I'm not a lawyer, but that seems to be one stark difference that stands out that I'm hoping that -- and maybe the study will encompass that, but we may just see right at the beginning that someone says, "You can't do it."

56

* Index Included at End of Transcript

So why do we think that we can, because I do know there is a State controlled portion of utilities. Like I don't think we can sue the Post Office or something. So there's a component of LIPA that's like that. I don't know if you have any thoughts about that.

MR. BROWN:

The only thing that I would say -- the only thing that I would say is that you're right. There could be elements of preemption involved so that the type of lawsuit that's being, not the type of lawsuit, but that the type of action that could be considered, even if there is some type of differences, reasonable people can differ about how that 2% pilot cap is to be applied, whether in the aggregate or whether into individual parcels. Maybe reasonable minds can differ about that. And when you get into analysis like that, you're right, there could be some issue of preemption or issue of -- even an issue of a deference that's paid -- that's being paid to the regulatory agency, because that does happen as well. So you are correct, that there could be issues that even if people differ about the way something is being applied, that if they're doing it in a reasonable way it could preclude further, you now, some type of corrective action.

CHAIRPERSON FLEMING:

Although I have to say that if, you know, no one's ever disputed the fact that the authority should pay property taxes. So if we have the ability to levy a tax and that person is or that entity is part of the taxable community, how could we -- how could it possibly be that don't have some kind of remedy if they don't pay their taxes.

MR. BROWN:

I can tell you without having looked at the issue in depth yet, but I can tell you what I do know, is that when LIPA was formed it took over the properties of LILCO, and those properties were assessed as taxable properties because LILCO was a corporation. And what LIPA subsequently did, and it included not only parcels like were just described by Comptroller Kennedy, but poles and distribution system as well, that I guess in connection with the franchise that was received through the towns and I guess other municipalities to LILCO, there were, if not tax map numbers assigned to the various types of properties that were operated by LILCO, taxes were paid on them. And instead of there being pilot agreements like you might have with an IDA and a corporation on an economic development project, instead of pilot agreements what LIPA continued to do was to pay the amount that was previously being paid by LILCO subject to year to year increases. And except they were calling it pilots instead of taxes.

And so if there was then increases and the increases were growing, and then so we had this law that was adopted, the LIPA Reform Act, and this particular section went into effect in January of 2015. It simply said that if there was going to be an increase of greater than 2% over what was paid in the prior year, then that increase would be capped at 2%. So there could have been increases that go back a long ways connected to what LILCO was paying and how -- and how those taxes were transformed or mutated into the pilot

payments.

2

CHAIRPERSON FLEMING:

I guess my thought is just -- I would find it hard to accept an argument that you can't sue me once I've already said that I am responsible for taxes if there's no other remedy to come after me if I haven't paid them. That's all.

8

MR. BROWN:

01:15PM 10

I don't disagree with you.

1

CHAIRPERSON FLEMING:

Okay. You had more?

14

MS. PINES:

I had a comment, if you don't mind.

16 17 18

19

22

CHAIRWOMAN FLEMING:

Yes.

20 21

MS. PINES:

Okay. The issue of preemption is based upon the interpretation of legislation. When the State wants to preempt -- when it wants to preempt a lower municipality, like the County or a town, all it really has to do is broadly legislate that area of law. Sometimes it says it preempts, etcetera. If it's going to preempt an existing State law, it's got to say so one way or another. It did not say that in 1020-Q.

29 01:15PM 30

And so in answer, Legislator Spencer, to your question, I don't think this is the kind of case where it may not be that we can do what you would do in a non-payment of taxes case where you take over the property, but that doesn't mean you can't bring a declaratory judgement action that the amounts have to be paid.

3

COMPTROLLER KENNEDY:

39 01:16PM 40 It also, Doctor, leaves us again, I hate to keep bringing matters back to money, but that's basically what I'm supposed to do every day. It's an equity issue. Today is a very telling day, June first. All of the property taxes that were supposed to be paid for 580,000 parcels throughout this County have been tendered to ten Town Tax Receivers or not. And as of today, for all of those entities that we were supposed to collect off that levy who haven't been made whole, guess who's writing them a check? Us.

45

49

37

So in the end we're the ones left, if you will, holding the bag. We can speak about a lot of those broader concepts, but at the end we're the one bearing the freight. So we have to get some kind of clarity as to how this uncollectable right now is going to be treated. And that's really what the ultimate goal is here.

01:17PM 50

CHAIRPERSON FLEMING:

So in your chart here, when you say balance due, for instance in the -- balance due and the town listed as Babylon, that's the balance due from LIPA, but we've already written that check to Babylon to make them whole?

COMPTROLLER KENNEDY:

We've made them whole.

LEG. SPENCER:

So along that line of questioning with the preemption, my other concern, because the Northport Power Plant sits in my district, and there's another side of this and I just want -- and I'm sure you're already aware of this, but a major issue in the Northport School District is that it's the reverse, where LIPA is saying, "Hey, wait a minute." They're grieving their taxes. And that school district and the Town of Huntington is sitting in sheer terror of the impact of if there's a successful grievance of just the disproportion and impact that would have on the school district and the taxpayers in that area.

So I'm wondering perhaps another way to go about it, too, would

advantage where they have to pay more taxes. Like to us they

also be to look at those other issues, where when it's still LIPA's

refuse to pay, but on the other hand when they have the opportunity to pay less taxes -- so they can't have it both ways. And perhaps

there's some way that we can negotiate because what I don't want to

01:18PM 10

16

01:18PM 20 21 22

see is -- number one, that we're successful and they just immediately just pass that on to the ratepayers. Or number two, that -- and these local issues where they're disputing their taxes then all of a sudden they accept -- the grievances move forward and we really put a substantial, an epic economic burden on a school district, which is that's kind of the role of the County to kind of absorb some of that shock. So I hope that, Mr. Comptroller, I

01:19PM 30

37 38

48

49

50

51 52

01:20PM 40

COMPTROLLER KENNEDY:

Absolutely, Doctor. And this is not an effort to try to take what is something that's untenable for us and lay it over to rather than the citizen taxpayer, the citizen ratepayer. Remember, we are a ratepayer as well. Twenty-eight million is what we paid PSE&G for these things up here and for all of the buildings we have in the County of Suffolk. So I'm mindful of that.

quess this would be directed to you, that that's in your analysis.

I fully intend to work with the County Attorney on developing the theory. He's got knowledge in this area. As the Judge laid out, we have an almost 100 year old statute in play, and we have a complex statute in essence in its infancy, with no case law whatsoever. And so -- but we also have a receivable that is growing and my contact with the Brookhaven Tax Receiver's Office was that there was no second half of payment on any of the 379 parcels in Brookhaven. So I don't think that the utility has all of a sudden had an epiphany in an effort to turn around and now be compliant. I think they're going just the other way.

LEG. SPENCER:

Thank you very much. I'll yield.

CHAIRPERSON FLEMING: 53

Thank you. And question here based on the letter that we received 54 from LIPA, Mr. Mostel, which I distributed. So he references in the last paragraph that in 2016 Nassau school districts sued LIPA.

```
COMPTROLLER KENNEDY:
         Yes.
      2
      3
         CHAIRPERSON FLEMING:
         And they were permitted to pay. They settled --
         COMPTROLLER KENNEDY:
      7
         Let me speak to that if I can, Madam Chair --
      8
      9
         CHAIRWOMAN FLEMING:
      10
         Yes, go ahead.
      11
      12
         COMPTROLLER KENNEDY:
      13
         -- because I had an opportunity to speak with an attorney last
      14
         night from one of the firms that was involved in that litigation
         from last year. To the best of my knowledge it was three firms, I
                    İngerman Smith, Jaspan Schlesinger and Guercio and
         believe.
                    I had an opportunity to speak with one of the attorneys
         Guercio.
         that was familiar with the matter. That matter differs
        substantially from the situation we have in that the Nassau County
01:21PM 20
         Assessor I believe it was, elected to unilaterally reduce the levy
      21
         across the County for the school districts by $100 million,
         reflective of LIPA's position that they would pay no more than 2%.
      24
         In that case, the school districts bore the extent of the hardship,
      2.5
         if you will, and I think what are we talking, maybe 30, 40 school
         districts. Litigation was commenced, there was discussion, and
         ultimately a settlement in which Nassau County indicated it would
         refrain from any unilateral action regarding assessment going
         forward.
01:23PM 30
      31
         CHAIRPERSON FLEMING:
      32
         What do you mean by unilateral action?
      34
         COMPTROLLER KENNEDY:
      35
         On their own. So the Leg adopted an assessment, and the Assessor
      36
         just whacked it by 100 million. That issue was not this issue.
         This issue is a simple issue of failing to remit.
      38
      39
         CHAIRPERSON FLEMING:
      40
         If this legislation passes, is it something Dennis can consider?
      41
         Legislator Trotta, did you have a question?
      42
      43
         LEG. TROTTA:
      44
         Why are you coming to us? Can't you just call them up and say, you
      45
         know, "Hey, look into this for me?"
      46
      47
         COMPTROLLER KENNEDY:
      48
         To Dennis?
      49
      50
         LEG. TROTTA:
      51
         To George. Can't they just -- I mean, is this appropriate? This
      52
         seems like a phone call.
      53
      54
```

COMPTROLLER KENNEDY:

Legislator Trotta, let me speak to that for a second. Without

getting into too much, we have talked about this over the last
         couple of months and we have explored a couple of different
         pathways and this seems to be the most prudent way to move forward.
         How's that?
         LEG. TROTTA:
         Why? It just doesn't seem logical to me. Call them up and say,
      7
         "Hey, look into this. You're the County Attorney. Does this look
         like it's going to work?" It seems like a -- is it a legal
         responsibility for them to come to us?
01:24PM 10
      11
         MR. NOLAN:
         Obviously anybody can call the County Attorney and ask him to look
         at a question. What this resolution represents the entire
         Legislature. That's basically it. We've done this before probably
         -- probably a couple of times a year we ask the County Attorney
      16
         collectively.
      17
      18
         LEG. TROTTA:
      19
         Is it legally necessary?
01:24PM 20
      21
         MR. BROWN:
      22
         There are cases where the County has acted affirmatively with
         respect to litigation. There have been challenges to the ability
         of the County and the County Attorney to act affirmatively in the
         absence of formal approval to move in that direction.
      27
         LEG. TROTTA:
      28
         Do you have case law that --
      29
01:25PM 30
         MR. BROWN:
         Yes, actually we do, yes.
      32
      33
         LEG. TROTTA:
      34
         Can you forward it to me?
      35
      36
         MR. BROWN:
      37
         Yeah, sure.
      38
      39
         LEG. TROTTA:
      40
         So you're saying you have to do this?
      41
      43
         Well, first of all, there's a provision in the Charter that says
         that the County Attorney's Office acts at the direction of the
      45
         Legislative body or the County Executive, but also in the absence
         of some type of formal approval, yes, there is case law that does
         attack the ability of the County to move forward on affirmative --
      48
      49
         LEG. TROTTA:
      50
         So everything that you do has to either be approved by the County
      51
         Executive --
      52
      53
         MR. BROWN:
      54
         Well, not everything that we do because clearly not every single
         thing that we do, but generally in the Charter, yes, that's what it
```

says. 1

LEG. TROTTA:

So if someone sues the County do you have to come to us and ask for us to do it?

7

MR. BROWN:

8 No.

9

LEG. TROTTA: 10

So then what's different than this?

11 12 13

COMPTROLLER KENNEDY:

I would offer to you the difference is I don't have the ability or 14 the authority to articulate policy. When I sat on that side of the Legislature I did. So since this clearly is something -- it's an operations issue, it's a revenue issue, but I would offer to you it 17 is a policy issue. 18

19 20

LEG. TROTTA:

Are they paying a 2% increase every year now?

21 22 23

COMPTROLLER KENNEDY:

No. As matter of fact, I think what we've just laid out in front 24 of you is, is that they are electing to utilize this cap in the most creative way, and thereby they're subverting the amounts that they're paying across hundreds of properties. So, no. 27

29

MS. PINES:

01:26PM 30

What they're doing, if you took the amalgam of all the taxes that they owed in each of these towns, they're all under the 2% cap. interpreting it the way they want, they're ignoring all the parcels, which are most of them, that are under the 2% cap, taking parcels that are above it, and cutting those down to the 2% cap.

34 35 36

LEG. TROTTA:

So are we getting a 2% increase a year on these properties?

37 38 39

41

MS. PINES:

01:27PM 40

No, no. There are many that are below. The answer is no.

LEG. TROTTA: 42

Okay, but generally if one's going up 6% a year and one is going up 43 nothing, are we getting an increase from LIPA every year on these properties? 45

47

MS. PINES:

48 Do you mean for a particular property that has gone up the 6%?

49 50

LEG. TROTTA:

In all of them added together, are we getting more money every 51 52 year.

53 54

COMPTROLLER KENNEDY:

I would have to look at all of them. Are we getting an additional amount? I would say to you yes, but we are not getting the amount that has been adopted regarding the variety of budgets that you adopt a warrant and a levy for. So unlike every other taxpayer, like you and everybody around this horseshoe, they're not paying the amount of the tax bill sent to you in December.

7

LEG. TROTTA:

You know, I'm reading this and it says that, you know, you had a meeting and it was canceled and they want to reschedule it and were unable to reschedule it. I mean, it seems -- this doesn't seem -you know, and the fact that it settled in Nassau, it seems to me like you should go talk to them.

01:28PM 10 11

12 13

14

21

27

29

COMPTROLLER KENNEDY:

Legislator Trotta, I have spoken with them, as matter of fact. And when they came to my office what they explained was that they were operating under what their view of the legislation was. So I could have another conversation with them. I doubt that it would be anything different. But more importantly, it's not going to do anything to cure the six-and-a-half million they owe us today, because candidly, they don't agree they owe us six-and-a-half million. So I'd ask you then, tell me if they don't offer -- owe us six-and-a-half million, pass a bill. Pass a bill that says that's a, I don't know, an unauthorized levy and, in fact, that they get treatment that no other taxpayer gets. Go ahead.

01:28PM 20

LEG. TROTTA:

Do you think this worth it, to the County Attorney? I mean, ultimately who's going to pay? You know, it's going to be the taxpayer or the ratepayer.

01:29PM 30

COMPTROLLER KENNEDY:

They could spend six-and-a-half million 32 Here's a third option. less. 33

34 35

LEG. TROTTA:

Who could spend six-and-a-half million less? 36

37 38

39

COMPTROLLER KENNEDY:

LIPA. That doesn't have to get passed on.

01:29PM 40

LEG. TROTTA: 41

Then the taxpayers pay it ultimately. It just, you know, it seems 43 to me this, you know, just do it.

45

CHAIRWOMAN FLEMING:

Well, good. I think that's a yes vote. 46

47

COMPTROLLER KENNEDY:

There you go. 49

01:29PM 50

CHAIRPERSON FLEMING:

51 Dennis, could you just -- in terms of what we're being asked to consider today, this resolution, would you anticipate this being done in-house, this feasibility study, and then I know it might be 54 premature to say it, but if you were to consider litigation, would you need to hire outside counsel or would that be handled in-house?

1 MR. BROWN:

Yes, yes, to both of your questions. So, yes, we would do it in-house as far as the feasibility study is concerned. And it's premature to say whether we would do it in-house or use outside counsel.

6 7

CHAIRPERSON FLEMING:

But we would not -- but we would not be authorizing hiring outside counsel. We wouldn't be authorizing any kind of expenditure of money on lawyer fees in this reso that the Comptroller is asking us to consider.

12

MR. BROWN:

14 That's correct.

15 16

13

LEG. TROTTA:

17 That would have to come back to us if that were to happen.

18 19

CHAIRPERSON FLEMING:

01:30PM 20

Would that have to come back to us is Rob's question.

21 22

MR. BROWN:

If we have the appropriation available and we were going to use outside counsel, if we did go down that road we would do it with an RFP or an RFQ, and if we did it with an RFQ it goes then to the Waiver Committee, RFP Waiver Committee.

27 28

29

LEG. TROTTA:

It wouldn't necessarily come to us.

01:30PM 30

MR. BROWN:

If we -- there would be, well, I shouldn't say that because if we were going to commence affirmative litigation I would be asking for -- I would be looking for the support of the Legislative body to do so, just as we did with respect to Legislator Calarco.

35 36 37

LEG. TROTTA:

Especially if you came to us ask here.

39 40

MR. BROWN:

41 Correct.

42 43

CHAIRPERSON FLEMING:

So that's reassuring. Are there any further questions? Sorry, Legislator Calarco.

46 47

51

LEG. CALARCO:

Thank you, Madam Chairwoman. And here's the question I have for you, Mr. Comptroller. So we want to go after LIPA because they're not paying their full freight in taxes, right? So --

OI. SIEM

COMPTROLLER KENNEDY:

Well, hold on. Hold on. I'm asking for the legal opinion to
determine if they can be sued, because unlike any other non-payer,
at this point I don't have the ability to seize the property, so

56 they are unique.

LEG. CALARCO:

They have not paid their full assessed value as we have determined, because they believe that we are following the State law as it's written and that they're not required to pay that, right?

5

7

COMPTROLLER KENNEDY:

You know, I'm not in their mind but that's what they're articulating with that 2%.

9

LEG. CALARCO:

I just wanted to clear that up. So we're saying it's to the tune of -- I guess you're saying it's to the tune of 6.6 million, thereabouts, for this year?

14

COMPTROLLER KENNEDY:

For a 24 month time period, yes.

17 18

LEG. CALARCO:

19 For a two year period, okay.

01:32PM 20

COMPTROLLER KENNEDY:

22 Raw, unpaid and penalty and interest.

23

21

LEG. CALARCO:

Okay. So here's my question for you. We take them to court and we win. They remit that money to the County as they're required to. Where do they get that money from? Are we not suing ourselves? I mean, they're going to take it from the ratepayers.

29

COMPTROLLER KENNEDY:

Well, first of all, I would tell you or remind you that I believe the LIPA service area runs from the Rockaway Peninsula all the way out to Orient and Montauk. It includes a small part of Queens, the whole of Nassau and the whole of Suffolk. As to how they may or may not address a six-and-a-half million dollar obligation to pay, again, I'm not their CEO and I'm not on their board.

37

LEG. CALARCO:

01:33PM 40

Well, it's based on their properties they own for generation, correct? So they're going to tack that on to their -- on to the bill as power supply, which is not something they go to the PSE for permission for. They raise that and lower that as they see fit, correct?

44 45

COMPTROLLER KENNEDY:

They have established the pilots I believe, as the Judge had alluded to, as a successor to when they were in the name of LILCO and they were deemed as taxable property.

49 50

47

LEG. CALARCO:

Yeah, I guess -- listen, I mean, I understand for the protection of the County it may make sense for us to do this, but I just think we're robbing Peter to pay Paul when it comes to the actual people who are paying the bills, which are our taxpayers and our ratepayers. We're almost all both.

COMPTROLLER KENNEDY:

We do have a fiduciary obligation on the behalf of ratepayers, and as a matter of fact, this body has a history going back over the last 30 years of bringing LILCO and LIPA to task for a variety of issues, but when presented with a six-and-a-half million dollar unpaid tax bill, as I said, unlike anybody else.

7

LEG. CALARCO:

01:34PM 10

So, I mean, play it out, John, all right. If we had seen it the same way LIPA had seen it and we had just lowered their assessment as they believe their assessment should have been lowered, it's not that we would have collected less taxes. That assessment would have been spread out over the tax base that was existing. Maybe some other people may have paid a little bit more, but it would have equaled out. Our warrant would not have changed and the collection would not have changed. In fact, by not doing that we produced this shortage that we have now. And at the end of the day it's all the same people are paying these bills.

19

So, again, I understand it from the perspective of protecting the County's bottom line. We're \$6.6 million short of what they owe us for the last two years because we assessed them this value and they've decided that they don't believe that we are assessing them properly. So in essence this is their way to challenge our assessment. But at the end of the day it's still going to be either the ratepayer or the taxpayer who is paying this money, because I don't think that the, you know, the folks over there at

29 01:35PM 30 31 PSE&G are going to take it out of their pockets. And when you think about it in the long-term, like the only real advantage of having a power company be an authority of the State of New York is that they can get themselves out of paying these property taxes so that it does produce a lower bill for the ratepayers. Otherwise, if they're paying taxes as if they were LILCO, what's the real advantage of having the authority in the first instance. So I mean, I just -- I feel like, you know, it's just taking from one pocket and putting in the other, but I guess from the perspective of protecting our bottom line it's something worth doing.

38 39

01:36PM 40

35

CHAIRPERSON FLEMING:

Well, this has been a good discussion. Are there any further questions?

41 42 43

LEG. TROTTA:

One quick one.

45 46

CHAIRPERSON FLEMING:

47 Yes, Legislator Trotta.

48 49

LEG. TROTTA:

01:36PM 50 51

The LIPA law doesn't supersede -- doesn't say it supersedes any other law? The 1020, Section 1020 of the Public Authority Law?

52 53 **I**

MR. BROWN:

Yeah, Legislator Trotta, I believe what you're referencing is -- I saw the letter but I didn't look at that section of the law, but I know in the letter that the General Counsel says that the law

```
pertaining to the cap, the pilot cap, it says notwithstanding any
         other law or language to that effect.
      2
       3
         LEG. TROTTA:
       5
         Yeah.
         MR. BROWN:
       7
         I suppose the only thing that really needs to be looked at is
         whether because the Suffolk County Tax Act is a special law that
         language in and of itself is sufficient to override the dictates of
01:36PM 10
         the Suffolk County Tax Act. I don't have an opinion on that right
         now.
      12
         MS. PINES:
      14
         It don't believe it does, unless it says so, because --
      15

         LEG. TROTTA:
      17
         Two lawyers with different things? This is unbelievable.
      18
      19
         MR. BROWN:
      20
         I said I don't have an opinion.
      21
      22
         MS. PINES:

         I agree.

         CHAIRPERSON FLEMING:
         Okay. Very good discussion. Thank you all for coming.

It says, "I recently closed on a home equity loan that I had for ten years. With a satisfaction letter in my hand from the bank I made a trip to Riverhead to record it with the County. I was expecting to pay a \$60 recording fee. You may probably imagine my surprise when I was presented with an invoice for \$555.50. I was flabbergasted. When I asked the Clerk to itemize the charges she vaguely answered that a new charge of \$300 was added in January for a mortgage verification fee. The process took less than five minutes and I didn't see any evidence of the Clerk verifying the mortgage. I walked out of the building with the feeling that I had just been violated. I can't imagine the feeling would be very much different if a robber had come up to me, put a gun to my head and dragged me to an ATM machine and demanded that I withdraw \$550. Clearly I have been robbed by the County that I have lived in for more than 30 years. I am hopeful that you can bring the situation to the County's attention and ask for a reversal of these fees. don't believe these fees, which are listed below, have substantiated as a value. Thank you for your attention to this

01:38PM 10

So to the County Executive's person, I'd like to ask a question. You know, we heard Hector --

matter."

Katie.

29 30 **LEG. TROTTA:**

-- come in here earlier and lay this out about -- I want to know what the County Executive's position is on his mortgage, on his -- what did he call it? The foreclosure hotline, when in essence when you're redoing a mortgage if you're in foreclosure you're going to refinance to get a better rate. So it's actually an increase of \$1950 for those costs based upon this. What is the position -- was he aware that this would happen?

38 39

41

42

45 46

47

49

01:40PM 40

MS. HORST:

I will have to get back to you on that. I don't know.

LEG. TROTTA:

You don't know? I mean, is this a concern to the County Executive's Office that we have people -- 17,000 pending foreclosures in this County.

CHAIRPERSON FLEMING:

48 Legislator Trotta, I think you have your answer to the question.

50 LEG. TROTTA:

No, I don't have my answer.

52 53

CHAIRPERSON FLEMING: She said she'll get back to you.

LEG. TROTTA:

No, that was the one question. Now I'm asking appreciate -- and I would appreciate it if you didn't interrupt me because I was asking a question.

CHAIRPERSON FLEMING:

I appreciate it, however, you asked the question --

7 9

LEG. TROTTA:

01:40PM 10

And she answered and I was asking another one and you interrupted

11 12 13

CHAIRPERSON FLEMING:

I'm telling you you got your answer when she said that she cannot speak for the County Executive.

16 17

21

LEG. TROTTA:

On one question. I was asking her another question. I would 18 appreciate it if you wouldn't interrupt me. I don't interrupt you, so I don't expect you to interrupt me.

01:40PM 20

CHAIRPERSON FLEMING: 22

I Chair the meeting and we need to keep a certain level of decorum. 23

24 2.5

LEG. TROTTA:

Exactly my point. So don't cut me off when I'm in the middle of talking. 27

28 29

CHAIRPERSON FLEMING:

01:40PM 30

I will run the meeting as I see fit. Ask another question, Mr. Trotta.

31

LEG. TROTTA:

What was the County Executive's thinking or did he know that this would affect refinancing twice, \$550 going in and \$550 going out.

36 37

38

41

33

MS. HORST:

I wasn't part of the group that put the budget together. I'll have to get back to you on that. I don't know.

01:41PM 40

LEG. TROTTA:

Okay. For this reason I would like this discharged without recommendation so that the entire Legislative body could vote on 43 this, because quite honestly, as Counsel has told us in the past, this is very, very troubling and could be the subject of 45 litigation. I don't want to have the County sued for this down the 46 road or we have to pay more money back. 47

49

51

CHAIRPERSON FLEMING:

01:41PM 50

Very good. We have a motion to discharge, we have a motion to table. The tabling motion comes first. We have a second on that motion. All in favor? All opposed? Please see hands. The motion carries. (VOTE: 4-3-0-0. LEGISLATORS abstentions? TROTTA, BROWNING AND CILMI OPPOSED)

CHAIRPERSON FLEMING:

I'm afraid I didn't take a full vote on the discussion that we had on 1371. We voted to take it out of order and I didn't take the vote on the substantive bill. Okay. So moving IR 1371 - Directing the County Attorney to determine the viability of commencing an action against the Long Island Power Authority for failure to pay property taxes (Pres. Off.). Do I have a motion to approve?

9 LEG. SPENCER:

01:42PM 10 **Motion**.

All opposed? Any abstentions? Thank you. The motion carries.

Back to Tabled Resolutions. 1276 - Accepting the donation of a monument honoring United States Service members who came in peace killed in Beirut bombing terror attacks (Stern). I wonder if anyone is aware whether Sitings has considered this?

01:42PM 20 21

LEG. CALARCO:

They don't have a finalized design for Sitings to make a decision upon. That's why it's been held up at this point.

25

CHAIRPERSON FLEMING:

Understood. Okay. So Legislator Spencer -- we have a second by Legislator Spencer, and on the motion, Legislator Browning.

29 30

31 32 LEG. BROWNING:

Yeah. Just so there is a monument already?

33 LEG. CALARCO:

No. There is an entity that has -- my understanding of this is that there's an entity that has volunteered to provide the resources to build this monument and they have been going through the phase of designing what that monument will look like. I think that they were almost there at one point in time and then I guess didn't get there. So Sitings can't make a decision on-site -- on that monument until they know what it's going to look like in its finality.

01:43PM 40

43 LEG. BROWNING:

Do they know where they're going to put it?

45

LEG. CALARCO:

I don't know the location off the top of my head. I think they were looking in front of the Dennison Building but I could be wrong.

01:43PM 50

LEG. BROWNING:

         1441 - Directing the Real Property Tax Service Agency to develop a
         plan to exempt first-time homebuyers from additional tax map
         verification fee (Krupski). I'll make a motion to table.
         LEG. SPENCER:
         Second.
01:48PM 10
         CHAIRPERSON FLEMING:
      11
         The sponsor respectfully requests that we table the resolution
         while he continues to work with the Office of Real Property
         regarding the issue. So motion to table.
         LEG. SPENCER:
      16
         On the motion.
      17
      18
         CHAIRPERSON FLEMING:
      19
         Yes, Legislator Spencer.

      21
         LEG. SPENCER:
      22
         One of the things I wanted to find out on this particular
         legislation from Budget Review, is there any assumptions that can
      24
         be made if this goes into effect what sort of revenue impact that
         that will have, and is there differences between what the
         assumptions on the western towns versus the eastern towns because
      27
         of population density.
      28
      29
         MR. LIPP:
         So far we haven't gotten any data. Like, for instance, we thought
         maybe the Clerk would have a breakdown like that. So we weren't
         able to do it in terms of make an estimate. With that being said,
         we'll continue to look into it and the actual impact would be once
         the plan is developed, and then we would have to at least attempt
              I could get you something, I'm not sure how good it would be,
         it would be -- we can make some assumptions, take a look at it.
      37
      38
         LEG. SPENCER:
      39
         Thank you.

      41
         CHAIRPERSON FLEMING:
         Thank you. We have a motion and a second. All in favor? All
      43
         opposed? Any abstentions? 1441 carries. (VOTE:
                                                              7-0-0-0)
      45
         We have no Procedural Motions, we have no Executive Session today,
      46
         so we are adjourned.
                                Thank you.
