PUBLIC NOTICE  
OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in the meeting room of the County Legislature in Hauppauge, New York, in said County, on June 7, 2011 at 2:30 PM, Prevailing Time, for the purpose of conducting a public hearing upon a proposal to plan the increase and improve the first phase of the Outfall project, i.e., the Final Effluent Pumping Station and associated ultraviolet disinfection system linked to that work of County Sewer District No. 3 – Southwest in and about the within the Town of Babylon, in and for said County, substantially in accordance with certain maps, plans, report and recommendations prepared by and filed with the County legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction and rehabilitation of the Final Effluent Pumping Station and related systems. The cost opinion associated with the Outfall - Final Effluent Pumping Station project is \$35 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on assessed value, a per parcel charge, and a user fee. It is proposed that the project will be implemented during 2012. Based on the project schedule, the maximum debt payment will be during 2013 at a value of \$2,772,000. Financing is at 4.00% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$27.58 per year. This figure was developed using the full value of the Towns of Babylon and Islip along with the median full value of a typical property within the towns resulting in an increase of \$0.0918 per \$1,000 of full value for Capital Project 8108, (Outfall – Final Effluent Pumping Station).

In addition to the Capital Project 8108, (Outfall – Final Effluent Pumping Station) project there are two concurrent projects in Sewer District No. 3 – Southwest. However, there will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being \$19.17 including all three projects.

A copy of the map, plan, and estimate of costs relating to said proposed increase, improvement, and extension of facilities is on file in the Office of the Clerk of said County Legislature, where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.
