

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in the meeting room of the County Legislature in Riverhead, New York in said County, on October 9, 2012 at 2:30 p.m., Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the Woodside Wastewater Treatment sewer system facilities Suffolk County Sewer District No. 7 – Medford, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide improvements to the Woodside Wastewater Treatment system including process tanks and mechanical/electrical systems. The cost opinion associated with the project is \$3.15 million which will be appropriated in 2012 and 2013. The project elements are more fully described and defined in the aforementioned maps, plans, report and recommendations. The existing district is billed on assessed value. It is proposed that the project will be initiated during 2013. Based on the project schedule, the maximum payment will be during 2015 at a value of \$249,480. Financing is at 4% over 20 years for serial bonds. The increased rate amounts to a value per typical property of approximately \$84.59. This figure was developed using the full value of the district along with the mode value of the typical property within the district resulting in an increase stated above. In addition to the wastewater treatment system improvements, there is also a concurrent project within Sewer District No. 7 - Medford for sewer system improvements. This project is financed during 2012 and 2013 and when both projects are combined, the maximum payment year is 2015 in an amount of \$367,480. The composite increase without subsidy would be \$124.60.

All property and property owners are benefited and are included in the district and the project is in the public interest. There will be no fiscal impact to the benefited properties since pursuant to the Suffolk County Assessment Stabilization Reserve Fund all residents of sewer districts experience a 3% annual increase regardless of any improvements performed. The rate will increase by 3% per year with the maximum increase in conjunction with these projects between 2014 and 2015 being \$15.59.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in the meeting room of the County Legislature in Riverhead, New York in said County, on October 9, 2012 at 2:30 p.m., Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the sewer system facilities Suffolk County Sewer District No. 7 – Medford, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide improvements to the sewer system including pumping stations, gravity sewers and force mains. The cost opinion associated with the project is \$500,000 in 2012 and \$1 million in 2013. The project elements are more fully described and defined in the aforementioned maps, plans, report and recommendations. The existing district is billed on assessed value. It is proposed that the project will be initiated during 2012. Based on the project schedule, the maximum payment will be during 2015 at a value of \$118,000. Financing is at 4% over 20 years for serial bonds. The increased rate amounts to a value per typical property of approximately \$40. This figure was developed using the full value of the district along with the mode value of the typical property within the district resulting in an increase stated above. In addition to the sewer system improvements, there is also a concurrent project within Sewer District No. 7 - Medford at the Woodside wastewater treatment plant. This project is financed during 2012 and 2013 and when both projects are combined, the maximum payment year is 2015 in an amount of \$367,480. The composite increase without subsidy would be \$124.60.

All property and property owners are benefited and are included in the district and the project is in the public interest. There will be no fiscal impact to the benefited properties since pursuant to the Suffolk County Assessment Stabilization Reserve Fund all residents of sewer districts experience a 3% annual increase regardless of any improvements performed. The rate will increase by 3% per year with the maximum increase in conjunction with these projects between 2014 and 2015 being \$15.59.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 10 – Stony Brook, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction and rehabilitation of existing sewage conveyance facilities. The cost opinion associated with the Infrastructure Improvement Project is \$500,000. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on assessed value. It is proposed that the project will be implemented during 2012. Based on the project schedule, the maximum debt payment will be during 2014 at a value of \$39,600. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$7.48 per year. This figure was developed using the assessed value of the mode value as the typical property within the district resulting in an increase of \$5.74 per \$1,000 of full value for Capital Project 8175, Infrastructure Improvement Project.

There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being \$6.28. All property and property owners are benefited and are included in the district and the project is in the public interest.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 11 – Selden, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction and rehabilitation of existing sewage conveyance facilities. The cost opinion associated with the sewer system improvement project is \$2.5 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on assessed value. It is proposed that the project will be implemented during 2012 and performed over a three year period. Based on the project schedule, the maximum debt payment will be during 2016 at a value of \$195,584. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$480 per year. This figure was developed using the assessed value of the mode value as the typical property within the district.

There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being less than \$12 in the 2015 to 2016 billing period. All property and property owners are benefited in the district and the project is in the public interest.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in the meeting room of the County Legislature in Hauppauge, New York, in said County, on the 9th day of October 2012 at 2:30 p.m. Prevailing Time, for the purpose of conducting a public hearing upon a proposal to increase, improve the facilities of County Sewer District No. 14 – Parkland in and about the northeast corner of the Town of Islip, in and for said County, substantially in accordance with certain maps, plans, report and recommendations prepared by and filed with the County legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to improve the sludge treatment system of the sewage treatment plant which comprises the existing Sewer District which will allow environmental benefits and more efficient operations. The environmental benefits associated with the project include the implementation of reliable and efficient sludge treatment systems and reduced sludge hauling. An engineering report has been prepared and the cost opinion approaches a total cost for the improvements to the district of \$1,000,000.

The proposed County sewer district increase and the improvements, therefore, as more fully described and defined in the aforementioned maps, plans, report and recommendations, will consist of improvements to sludge treatment by construction, and a sludge thickening system. Copies of the map, engineering report, the public hearing report and the project summaries are available in the Office of the Department of Public Works, located in Yaphank and the Office of the Clerk of the County Legislature where they can be reviewed during normal business hours Monday through Friday. We encourage all interested parties to appear.

The public hearing report incorporates a map indicating the boundaries of the existing sewer district. The existing district is billed based on the classification of unit, either home, condominium or water consumption for commercial use. During 2012, homes were billed at \$332/unit and condominium at \$269/unit. This bill includes debt service and operation and maintenance costs. Pursuant to the requirements of participation in the Suffolk County Assessment Stabilization Reserve Fund, which was established by Suffolk County Charter, bills are increased by 3% per year in order for the participating districts to be eligible to access the Reserve Fund. Funding from the Suffolk County Assessment Stabilization Reserve Fund then permits these participating districts to stabilize annual costs. The existing district parcels have experienced the 3% increase with the typical property being billed \$332 during 2012. The cost to the typical parcel is reached by determining the mode annual parcel cost when each individual residential parcel cost is listed in increasing value. The maximum payment year is 2014 and the rate would be \$342/unit and \$277/unit for the homes and condominium, respectively, and would result in an increase from 2012 of approximately \$10.00 and \$8.10 respectively for the typical parcel, as described above. The project schedule provides that construction will be initiated during 2012 and all parcels in the existing district will continue to pay on a benefit basis. The estimated expense of said increase and improvements will be approximately \$1,000,000. All property and property owners are benefited and are included in the district and the project is in the public interest.

A copy of the map, plan and estimate of costs relating to said proposed increase, improvement, and extension of facilities is on file in the Office of the Clerk of said County Legislature, where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 18 – Hauppauge Industrial Park; in and about the Town of Smithtown, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project has been initiated and additional funds are needed to complete all work. The district extension has been approved by New York State and adopted by the County. The project is to eliminate current problems with the aging infrastructure of two sewage treatment plants which comprise the existing Sewer District and detail the proposed expansion which will allow growth and environmental benefits in the existing and proposed service area. The environmental benefits associated with the project include the elimination of on-site systems and the implementation of reliable and efficient sewage treatment systems. An engineering report has been prepared and the cost opinion approaches a total cost, for both the improvements and an extension to the district, of \$79 million.

The proposed County sewer district increase and the improvements, therefore, as more fully described and defined in the aforementioned maps, plans, report and recommendations, will consist, among other things, of the installation of sewers and pumping stations, construction of a wastewater treatment and disposal facilities, abandonment of on-site sanitary facilities and abandonment of two existing wastewater treatment facilities. Copies of the map, engineering report, the public hearing report and the project summaries are available in the Hauppauge Industrial Association's office at 225 Wireless Blvd., the Office of the Department of Public Works, located in Yaphank and the Office of the Clerk of the County Legislature where they can be reviewed during normal business hours Monday through Friday. We encourage all interested parties to appear. Any questions should be forwarded to Ben Wright at 631-852-4184 at the Suffolk County Department of Public Works.

The public hearing report incorporates a map indicating the boundaries of the sewer district. The existing district is billed based on water consumption, \$14.75 per 1,000 gallons during 2012 (for example, a consumption of 1,000 gallons per day is a base bill of \$5,384 per year). This bill includes debt service and operation and maintenance costs. Pursuant to the requirements of participation in the Suffolk County Assessment Stabilization Reserve Fund, which was established by Suffolk County Charter, bills are increased by 3% per year in order for the participating districts to be eligible to access the Reserve Fund. Funding from the Suffolk County Assessment Stabilization Reserve Fund then permits these participating districts to stabilize annual costs. The existing district parcels have experienced the 3% increase for approximately the last thirteen (13) years with the typical parcels bill being \$9,482 during 2012. The cost to the typical parcel is reached by determining the mode annual parcel cost. The 2013 rate would be \$15.19 per 1,000 gallons would result in an increase from 2012 to approximately \$9,766 for the typical parcel, as described above. The project schedule provides that

construction is underway and will be completed by 2014. All parcels in the district will pay on a benefit (water consumption) basis.

A copy of the map, plan, and estimate of costs relating to said proposed increase, improvement, and extension of facilities is on file in the Office of the Clerk of said County Legislature and the office of the Hauppauge Industrial Association, 225 Wireless Blvd., Hauppauge, where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 3 – Southwest, in and about the Town of Babylon, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction and rehabilitation of existing equipment and systems such as the process tanks and building superstructures. The cost opinion associated with the Infrastructure Improvement Project is \$20 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on assessed value, a per parcel charge, and a user fee. It is proposed that the project will be implemented during 2012. Based on the project schedule, the maximum debt payment will be during 2014 at a value of \$1,584,000. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$16.56 per year. This figure was developed using the full value of the Towns of Babylon and Islip and which sewer district rates are assessed along with the mode full value of a typical property within the towns resulting in an increase of \$0.05229 per \$1,000 of full value for Capital Project 8170, Infrastructure Improvement Project.

All property and property owners are benefited and are included in the district and the project is in the public interest. There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being \$19.69.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 20 – William Floyd, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction of a new influent pumping station which includes mechanical and electrical work. The cost opinion associated with the project is \$1 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on a per unit user fee. It is proposed that the project will be implemented during 2013. Based on the project schedule, the maximum debt payment will be during 2014 at a value of \$79,200. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$27.78 per year in the Leisure Village zone. This figure was developed using the maximum payment year along with the mode value of a typical property within the district.

All property and property owners are benefited and are included in the district and the project is in the public interest. There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being \$9.00

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 23 – Coventry Manor, in and about the Town of Brookhaven, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction of new treatment process tanks and mechanical/electrical work. The cost opinion associated with the Infrastructure Improvement Project is \$2.0 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed as a benefit district. It is proposed that the project will be implemented during 2012. Based on the project schedule, the maximum debt payment will be during 2014 at a value of \$158,400. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$594 per year. This figure was developed using the adopted 2012 rate projected to 2014 along with the mode value of a typical property within the district.

There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase averaging \$13.98 per year for 2013 and 2014. All property and property owners are benefited and are included in the district and the project is in the public interest.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature

## NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the County Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 9th day of October 2012 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for increases and improvements to the facilities of Suffolk County Sewer District No. 5 – Strathmore Huntington, in and about the Town of Huntington, substantially in accordance with the maps, plans, report and recommendations prepared by and filed with the Suffolk County Legislature by the Suffolk County Sewer Agency with the assistance of the County Department of Public Works, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

The project is to provide construction and rehabilitation of existing sewage conveyance systems. The cost opinion associated with the Infrastructure Improvement Project is \$1.75 million. The project elements are more fully described and defined in the aforementioned maps, plans, report, and recommendations.

The existing district is billed on assessed value. It is proposed that the project will be implemented during 2012. Based on the project schedule, the maximum debt payment will be during 2013 at a value of \$138,600. Financing is at 4% over 20 years for serial bonds. This unsubsidized increased rate amounts to a value per typical property of approximately \$164.64 per year. This figure was developed using the full value of the district along with the mode assessed value of a typical property within the town resulting in an increase of \$27.44 per \$1,000 of full value for Capital Project 8115, Infrastructure Improvement Project.

There will be no fiscal impact to the benefited properties, since pursuant to the Suffolk County Assessment Stabilization Reserve Fund, all residents of sewer districts experience a 3% annual increase regardless of any improvements performed with the annual typical property increase being \$28.35. All property and property owners are benefited and are included in the district and the project is in the public benefit.

A copy of the map, plan, and estimate of costs relating to said proposed increase and improvement of facilities is on file in the Office of the Clerk of said County Legislature where the same may be examined during regular business hours.

It is requested that speakers prepare a written statement to submit for the record.

Tim Laube  
Clerk of the County Legislature
