LESLIE KENNEDY CONGRATULATES SPELLMAN HIGH VOLTAGE ELECTRONICS CORPORATION ON THEIR NEW SOLAR PROJECT

(Legislator Leslie Kennedy with Assemblyman Michael Fitzpatrick and the folks from Spellman High Voltage Electronics Corp)

March 10th, 2016 –This snowy Friday Legislator Leslie Kennedy (R-Nesconset) had the opportunity to congratulate a long time business in the Hauppauge community. Spellman High Voltage Electronics Corporation, which is situated at 475 Wireless Boulevard, has outfitted the roof of their building with a state of

the art solar panel system, which will generate 25% of the energy they need to run their business. The system was designed and built by another New York-based company; EnterSolar. Spellman continues to be the leading independent suppliers of DC high voltage power supplies, and now can do it at a much lower cost to the environment.

“The dangers of unchecked global warming should not be underestimated. Fortunately, affordable technologies to reduce CO2 emissions (estimated to cause up to 50% of the heat trapping effect of greenhouse gasses) are available,” said Loren Skeist, president & CEO, Spellman High Voltage Electronics Corporation. “Spellman is grateful to be able to participate in this public/private initiative to reduce our carbon footprint.”

Legislator Kennedy had the opportunity to tour the Spellman facility. “I was extremely impressed with the newly installed solar array, it is able to generate an enormous amount of energy, and I am proud to have local businesses such as Spellman which take the initiative to seek out environmentally friendly ways to run their business,” said Legislator Leslie Kennedy.

For more information about this event or other events in the community, please call our office at (631)-854-3735 or log onto Legislator Kennedy’s Facebook page at facebook.com/LegislatorLeslieKennedy.

###
